

# NOTICE

**To: North Carver Water District clients:**

**It is anticipated that on June 1<sup>st</sup>, the North Carver Water District will begin the process to switch back from Middleborough water to Carver water. Please note that the North Carver Water source will have all applicable testing by the Massachusetts Department of Environmental Protection (MA DEP) prior to the switchover date, and must meet all requirements and standards. If all goes as anticipated, the switchover will take place on June 1, 2023 from 12:01am to 8:00am.**

**During this switchover, you can expect to experience some discoloration and cloudiness in your water for a few days. Note that you may also experience fluctuations in your water pressure than you had been used to while the town was on Middleboro water.**

**If you have any questions, or in case of an emergency, please call Small Water Systems general number at (978-501-7600), or contact plant operators Gregg at (978) 501-6359 or Steve at (508) 502-0848.**

**Thank you for your continued patience during this process of repairs and re-institution of the water program!**

**Respectfully submitted,**

**North Carver Water District Commissioners:  
Michael Palimeri  
Eric Mueller  
Douglas Ficks**
