APPROPRIATIONS,

The following appropriations are called for to pay current expenses :

Repair of highways.....	\$1,300 00
Repair of bridges	150 00
Support of Poor	1,100 00
Support of schools.....	1,800 00
State tax	1,000 00
County tax.....	770 37

For the support of the Poor it is thought advisable to call for an appropriation of \$1,100 for the ensuing year, \$1,000, appropriated for the past two years, proving inadequate to pay expenses, the deficiency being about \$45.

The appropriations in other departments, it seems to us, need not be increased, as at this time business is somewhat stagnant; and wages rather tending downward, we ought to receive as good, or even a better, return for our appropriations than last year.

During the past twelve months, seventy-two tramps have been kept at our Almshouse over night, and provided with two meals each, at an expense of fifty cents apiece. For some unknown cause, there seems to be an unexpected increase in numbers of this class of dependants, February alone bringing to our doors fifty out of the seventy-two.

The Town remains financially about the same as at last settlement, having a balance of more than *four thousand dollars* in cash or its equivalent, available to meet the ordinary expenses the ensuing year, without borrowing.

Should there be no change in the law, taxing corporate stock and Bank stock, it will be necessary to assess only about five hundred of the eleven hundred dollars appropriated for support of Poor, the balance may be transferred from tax on Bank stock to Poor account, as heretofore.

TOWN HOUSE.

It is with reluctance that we approach the question of a new Town House, since the dilapidated condition of the old one, if it can be called a Town House at all, is so apparant to every citizen of the town. We feel the necessity more and more every day for some better and more respectable place to hold our meetings, and to keep safely the property of the Town.

We are continually receiving accessions to our Library from the State,—books that are often very valuable to the town officers in assisting them in the discharge of their duties, and others very instructive and interesting to any citizen. The present room is too small by one-half, besides, it can be entered by any one at any time, and books and papers carried away at their own free will, never to be returned.

The room where our meetings are held is occupied for the storage of anything and everything that people cannot house anywhere else, to the exclusion of the Town, for the Town really have little or no right there, it being an old meeting house. We need not show up the arrangement for heating, for any one who has been to Town Meeting on a cold day, has felt the necessity of some fire to make the room more comfortable, which cannot be done without we endanger the building to destruction by fire.

We think *twenty-five hundred dollars* will build as good a Town House as we really need. We do not mean to start on a twenty-five hundred dollar house, and build one costing double or treble that sum, as is often the case, but put the whole business into the hands of judicious and far seeing men, with a limited amount to expend.

We feel that in asking for a new Town House, we are only asking for a *necessity, something that every prudent and well governed town in the Commonwealth possesses*, and at a time when we should so little feel the expense. We have surplus cash in the Treasury, and the increase in our tax rate would only be trifling.

Respectfully submitted,

ANDREW GRIFFITH,	}	<i>Selectmen and Overseers of Poor of Carver.</i>
