Acres of land taxed,	21,292

APPROPRIATIONS, 1889.

The following sums are recommended to meet current expenses the year ensuing:—

Support of poor,	\$1,900 00
Support of schools,	0,000 00
Repair of highways,	1,200 00
Repair of bridges,	25 00
Repair of school-houses,	50 00
School-books and incidentals,	125 00
Removal of snow, highways,	25 00
Town incidentals,	625 00

The corporation and bank tax is estimated to yield about \$1,200.

SCHOOLS.

The undrawn balance in this account amounts to \$32 56, with the expense of two schools of the winter term to meet, which will overdraw the account. No appropriation is recommended, but it can be seen that if we have more than twenty-eight weeks of schooling, a larger appropriation is necessary.

HIGHWAYS.

The same sum as last year is recommended for the repairs of highways. If any other plan for repairing is adopted, the same appropriation would be a fair test of its efficiency.

BRIDGES.

There remains undrawn in this account \$130 71, with a small appropriation recommended. It is very difficult to decide how much money is needed, as bridges are liable to give out at any time, and stone work is expensive.

SNOW.

As is well known, there has been no expense in clearing the highways of snow up to the time of writing this report. An appropriation of \$25 00 is advised to meet possible expenses.

REPAIR OF SCHOOL-HOUSES.

The balance unexpended in this account is \$72 06. A further appropriation of \$50 00 is recommended, as some of the houses may need painting. Upon examination, the seats of the primary school, North Carver, were found too good to be taken out; consequently they were repaired—saving quite a sum over the cost of new—notwithstanding a vote of the town to the contrary.

SCHOOL-BOOKS, &c.

An appropriation of \$125 00—same as last year—is recommended: the balance unexpended being \$26 97.

TOWN INCIDENTALS.

This account being overdrawn, an increased appropriation, \$625 00, will be needed.

POOR.

This account is largely overdrawn. We recommend an appropriation of \$1,900 00 to meet expenses of another year. There is no increase in cost of the Roberry family—rent being paid for two years. We see no chance to lessen the expenses. The law imposes some obligations upon towns that cannot be avoided. Soldiers and their families must be supported outside the almshouse, regardless of cost. The net cost of the poor has been \$1,839 63; the balance is reimbursed. The cost of supporting an average of 42½ at the almshouse has been \$2 87 per week, including victuals and lodging of twenty-eight tramps.

The assets over liabilities have increased upwards of four hundred dollars from last year. This is accounted for from the fact that the bank and corporation taxes yielded more than the estimate, and a larger overlay on taxes than usual.

We may say, in conclusion, that our faith is still in Carver. We see no cause for gloom, for it is an undisputed fact that our people are as steadily employed and meet their obligations as well as elsewhere. But we do not disguise the fact that some industry is necessary to keep the wheels moving, and with us that industry is largely the production of cranberries.

Respectfully submitted,

ANDREW GRIFFITH,
ALBERT T. SHURTLEFF,
ELMER B. COLE.

TOWN MEETING.

Contents of Warrant for town meeting to be held at the town house, on Monday, the 1st day of April, 1889, at one o'clock, P. M.

ARTICLE 1.—To choose a moderator to preside in said meeting.

ART. 2.—To choose all necessary town officers for the ensuing year.

ART. 3.—To raise and appropriate such sums of money as may be necessary to defray town charges the year ensuing.

ART. 4.—To determine the manner of repairing highways, and decide the compensation for labor thereon.

ART. 5.—To decide when taxes shall become due, and whether any interest shall be charged after a certain date.

ART. 6.—To see what pay the town will vote the treasurer and collector, or other town officers.

ART. 7.—To see if the town will instruct the treasurer to hire money, under the direction of the Selectmen, if found necessary, in anticipation of taxes the ensuing year.

ART. 8.—To see if the town will accept the report of the Selectmen.

ART. 9.—To see if the town will vote to make the yards of field-drivers town pounds, provided they also be chosen pound-keepers.

ART. 10.—To see if the town will vote to make a special appropriation for the purpose of gravelling or floating the hills on the highway near Eben Dunham's, and cutting out the road leading to the Swan Holt cranberry-bog.

ART. 11.—To see if the town will appropriate anything for

the purpose of decorating soldiers' graves in Carver, and pay the same over to Grand Army Post E. W. Peirce, of Middleboro.
(*By request.*)

ART. 12.—To bring in their votes by ballot, “Yes” or “No,” upon the question, Shall license be granted in this town for the sale of intoxicating liquors?

ANDREW GRIFFITH, } *Selectmen of*
ALBERT T. SHURTLEFF, } *Carver.*

REPORT OF THE TOWN CLERK

For the Year 1888.

MARRIAGES REGISTERED IN CARVER FOR THE YEAR 1888.

1888.

April 29.—Henry Alton Farrington of Middleborough, and Ida May Chandler, of Carver.

May 26.—Joseph Henry Washburn of Carver, and Emma Gray Morse of Middleborough.

ALBERT T. SHURTLEFF, Town Clerk.

REPORT OF SCHOOL COMMITTEE.

The period for which we now present you a report has been one of average good progress.

The majority of the schools have continued their work without important changes in organization or instruction.

This has been favorable to progress in all departments of school instruction. Those schools retaining same instructors have resumed their suspended labors at the opening of each successive term, and proceeded without the delays consequent to a radical change. A retrograde movement always attends a frequent change of teachers.

Assuming that all reflective citizens regard our school system as a most powerful factor in the future prosperity of our town, and also that they are in active sympathy with all efforts to strengthen and increase the efficiency of this system, a brief description of the schools and the obstacles which impede their progress is herewith presented.

With sincere regret we received the resignation of Mrs. Flora M. Cushing, a most efficient teacher, who has taught School No. 3 during the past three years with marked success. A transfer of the teacher at the North Grammar being made to fill this vacancy caused another at the North, which was supplied by a teacher of some experience, who has had the advantages afforded by Normal training. We were pleased with the general appearance of the school—both the method of instructing and order were commendable. We think the school will prosper, providing the teacher and pupils strive to make the best use of their

abilities. We review our visits to the South Grammar School with unqualified pleasure. This school leads in membership and scholarship; the teacher and pupils working harmoniously.

Our mixed schools have been reduced in size, by the withdrawal of several of the older pupils, for various causes. The South, or School No. 8, has been in charge of four different teachers during the past four years, which has been detrimental to progress. We earnestly recommend the re-election of the present teacher, who is laboring with her usual fidelity and success. We note with much gratification the improvement in order noticeable in School No. 2. The teacher has the hearty co-operation of parents and pupils, which, added to her tact and qualifications, insures success.

School No. 3 has sustained its former good reputation the past year, and merits our approval. We visited School No. 5 during the year 1887, each term, and regarded with pleasure the progress made, which bespoke the careful training of the teacher who taught the spring term of the past year. A portion of the parents expressed a desire for a change of teachers, which was granted, and the former teacher was transferred to another school; where, we trust, her efforts will be appreciated. The school (No. 5) has been taught the remainder of the year by a teacher having had no previous experience, who has performed her part with zeal and fidelity.

The North Primary School has been in charge of the same teacher for the past six years. The school reminds us of a well-conducted family, all in perfect harmony. The teacher generously providing books for supplementary reading, and many helpful attractions which afford both pleasure and profit to the little ones. We know that the children are receiving good instruction. The teacher strives to improve the manners, and train the *heart* as well as the intellect.

The South Primary has a larger membership than last year, and is steadily progressing. A class has been promoted to the

Grammar School. The teacher has labored earnestly, and the scholars have advanced.

The appearance of the school-room at the North Primary was much improved during the vacation, which renders it much more attractive than formerly.

We have purchased "The Teacher's Language Charts" for the Grammar and Mixed Schools, which are very helpful when properly interpreted. They require thought, and afford a variety of written work, which is essential to progress. We fear that a majority of the schools are not receiving the benefit which they would if more frequent reference were made to them. We appreciate our resident town-teachers, and heartily approve of employing home talent; but, in view of the fact that a number of them have received no advantages outside of those afforded by our common schools, and others have only taught in town, we earnestly recommend them to visit village or city schools, thereby gaining new ideas which will add to the general improvement of our system. There will be ample time to visit schools in the adjacent or distant towns of this State during the fall season, which is set apart for educational fasting and—*cranberry picking*.

We now arrive at the obstacles to progress. Want of apparatus is a characteristic of our schools. There is a dearth of reference books, maps, and globes, deficient blackboards—only one numeral frame. We have insufficient schooling. Our school term has been shortened the past year. The schools have only been in session four weeks longer than required by law.

The means at our command do not enable us to supply experienced teachers, except those residing in town. We recommend that a larger appropriation be made at the annual town meeting, for the support of schools.

In conclusion, we express anew our deep interest in those who will soon be our law-makers or law-breakers of the land.

The youth now attending our schools, after being moulded a

short time by the influence brought to bear upon them by parents, teachers, and surroundings, will soon arise and take the management into *their* hands. The children of to-day will then be men, acting by impulses received from the present influences.

Teachers should consider that example is more potent than precept. No individual can escape from some responsibility in the moral education of the young.

“There is no office in this world of greater importance than that of a teacher of youth; for there is nothing on earth so precious as the mind, the soul, and the character of a child.”

Respectfully submitted,

IRENE A. BENT,	}	<i>School Committee.</i>
