HENRY S. GRIFFITH, Clerk of Carver.

REPORT OF THE SCHOOL COMMITTEE.

We respectfully submit the following statistics and report of our school work during the past year.

The duty which devolves upon your committee at each annual meeting is a responsible, and in some respects a difficult task; and one to be performed with weighty and paramount considerations. The welfare of the schools in their intellectual and moral sense, and the welfare of the town in its industrial and commercial prosperity, is so united and mutually dependent, that a practical solution of one involves a thorough consideration of the other.

It is to be expected that in the course of our labors we shall meet the *adverse expressions* of opposing ideas, that use the arguments of sophistry, or special policy, to obscure the true results. It is, therefore, most important that the true facts be elicited, that the town may proceed *prudently*, yet not evasively, along the lines of progress, to enhance the opportunities of instruction now being given our young people who attend the public schools.

In our last report we set forth the irritating embarrassments in our schools which continue, as in the past, a *positive hindrance* to a successful advancement and wise training of our youth. We repeat with emphasis the *imperative necessity of a full and complete grading of our schools*, for by so doing our teachers can better utilize their time and efforts, saving to the children a large percentage of our annual school appropriation, which is unavoidably lost. So long as we are obliged to continue, in part, the old district plan, which has existed for a century of years, we shall be *chagrined with dwarfed endeavors and incomplete results* in our school work. Enterprising municipalities adjoining us have put their schools upon the basis of reform, in

conformity to law, thus making their schools, in condition and usefulness, institutions which are in the front of private or corporate industry. No expense is more cheerfully met, that rests upon the taxation of the people, than what is spent for the support of schools.

While we *know* and *feel all this*, we allow ourselves to be governed by a selfish policy, that to *do any better is costly*, hence inexpedient and unwise. *We are not building as well as we know*. Each year brings us no better results, and *cannot* with the present ungraded, old district system largely predominating in the school room, to the ruin of the most successful work. We should *abolish it at once*. We are much behind time, and should acquit ourselves of all delay in coming to the front, to give the schools the facilities necessary to a graded system, on a practical and thorough basis. Economic expenditures, we believe, should be cheerfully borne to give our children equal advantages *at home*, as the State demands for them elsewhere, at our expense.

We cannot disclaim the obligations put upon us by the State, nor should we fail to educate, in a thorough manner, the children of all citizens who are ready for their opportunities. Our schools, at present, can furnish enough in numbers and qualifications to establish a high grade school, in a central location, which would be an *honor now*, and ultimately a paying investment.

We commend these statements to your candid consideration, for present action of the town. The questions that have been arrayed against a practical solution in harmony with the needs of our schools, are passing away. At our last annual meeting we raised a small sum to be expended in the discretion of the committee, in conveying scholars living at a long distance to and from school. The experiment has been tried, and proved to be a wise feature in the work of the year. The conveyance of scholars living in suburban localities has enabled us to give them equal grading with others in the schools where they were members, at a minimum cost and a maximum record of attendance. The East Head scholars, and those living most remotely in District No. 4, and the Snapit children, have had the exclusive benefit of this appropriation the past year, but other parts of the town, we think,

should be included in this wise and judicious expenditure. We shall recommend an increased appropriation the ensuing year to cover this additional work, which we sincerely hope the town will grant.

Some of our schools are increasing in numbers, vigor and usefulness, rivaling in scholarship at every point of instruction, while others are losing in membership, rendering it more difficult for the teachers to keep up the standard of excellence seen in larger classes and schools.

We speak of this unreprouchfully, and in no manner of personal reflection to any teacher who may incidentally have the charge of a small school, but to *awaken* the attention of the town to the pressing necessity of *immediate* action favoring the grading and combining of the schools. The schools are sufficient in numbers and qualifications to warrant a strong effort for radical improvement in our system. Hitherto we have had no special course of study in our school work, and in fact the possibilities of success would have a very much better prestige in graded work. As soon as the conditions are manifest to invite the trial, we believe in a faithful effort for its introduction.

The education of our people, and the equipment of every means to secure the vantage ground of opportunity in the present age, is forcing itself upon all reflecting citizens with increasing power. Our times are developing thought. Investigations are being carried on, by the search light of science and art, which seem almost like a divine agency, speaking to us in daily life. We cannot if we would, and we believe we would not if we could, occupy an opposing attitude to the developments of ethical or physical science in whatever may be our relations in our life work.

Let us remember that when we consider the topics embodied in these suggestive words, that they are offered for the purpose of winning your favor to secure the more complete success of our educational advantages. Disappointments will intrude; but success is the sweeter and more enduring to our manhood obtained in the line of devotion and sacrifice to our children and their inheritance.

Teachers employed during the year are as follows :

Miss Edith Barrows resigned her position at South Primary after teaching one month and was succeeded by Miss Mattie Bennett of Middleboro.

Miss Vesta Shaw has taught three terms at the So. Grammar.

Miss Mary E. Flynn, one term, and Miss Gertrude Sanborn, two terms at the Centre.

Miss Lucy W. Shaw, three terms at Pope's Point.

Miss Sarah L. Howes, one term, and Miss Myra A. Shaw, two terms at East Carver.

Mr. Elmer B. Perkins, three terms at the North Grammar.

Miss Leila B. Thomas and Miss Lydia Holmes, one term, and Miss Helen E. Sleeper, two terms at the North Primary.

The schoolhouses and out buildings have been repaired and painted as follows :

North Primary, painted two coats inside and outside, which renders it neat and homelike for the young people.

North Grammar, painted two coats outside and inside partly, with other improvements as needed.

South Carver school building has received a thorough inside painting, corresponding to the new work of the extension.

Centre Carver schoolhouse has been painted inside and ventilation put into the chimney ; also the doors, blinds and finishing work have been painted.

The blinds upon the Pope's Point building have been painted, and other minor things have received attention.

East Carver building has been painted inside, and the blinds outside.

STATISTICS.

No of scholars enrolled, 192.

Average membership, 147—71 per cent.

REPORT OF LIBRARY TRUSTEES.

In submitting our second annual report, we are pleased to state that the success of the Carver Public Library has exceeded the most sanguine expectations of its friends. The general interest manifested by our citizens, as shown by the librarian's report, with the words of encouragement offered by descendants of Carver residing in other places, speaks eloquently for the wisdom of establishing the library, and calls unmistakably for continued support.

We look upon the institution as an excellent adjunct to our system of schools, affording a source of educational influence which can be nothing but beneficial, and as such deserves the best wishes and best efforts of the individual as well as of the public.
