POOR.

At the close of another year we find our poor in the almshouse reduced from three to two, Mrs. Sarah Bumpus having died June 2.

And while this small number makes the cost per week higher, still all of our inmates are cases that would have cost the town high to have kept outside of an almshouse.

And by keeping the almshouse open we have, in one case at least, saved the town from aiding a person we should otherwise have had to help.

The cost of board and care of the inmates has been \$4.13 per week, excluding clothing and doctor's bills; including them \$4.51 per week.

We have shingled the house, put on storm-doors, and made other repairs, until now the buildings and grounds are in very good shape.

Our report shows that we have kept the poor within the appropriation, and we have very few poor bills unpaid.

But as we have had two added to our insane poor during the year we think we shall need an appropriation of \$1,600, the same as last year, for the coming year.

FOREST FIRES.

It will be seen by our report that forest fires have cost the town \$1,528.13 the past year.

It seems to us that a large saving could be made in cases of forest fires like those we had the past year, if one man could be held responsible for the work done, instead of eight or ten, as under the present system, each one working independent of the other.

By accepting Chap. 254, Acts of 1897, we shall have the present system with the addition that one man will be held responsible for all the work done and money paid out, and also have the power to call on any persons he may need for help. Wherever this has been tried in other towns they all speak well of it, and it is recommended by the Dept. State Fire Marshal, for this district.

Clerk of Carver.

REPORT

OF THE

SCHOOL COMMITTEE.

Citizens of Carver:

The past year has been an eventful one in our school history. The new building has been opened, a grammar and a primary school have been established at the Centre, and in accordance with the wishes of the town, the Pope's Point and East Head schools have been continued, increasing the number of our schools from seven to ten.

Your committee will say at the outset that they are very grateful for the increase in appropriation made at the adjourned meeting last spring, making it possible to have graded schools at the Centre. We know that the people in this section of the town appreciate this improvement and can realize far better results in the education of their children.

The new building is surely a great improvement upon anything the town has had heretofore, and would give good accommodations for a high school or a grammar and a primary school. We think the town will not feel any poorer in time to come for having expended money to benefit present and future generations. It is to be hoped that the time is not far off when other sections of the town will be favored in like manner.

You will see by studying the statistical table at the end of this report that school attendance the past year has been good with three exceptions. The poor attendance that we have had may be attributed in some measure to sickness, but we fear in a greater measure to negligence on the part of parents. For the benefit of such we will insert in this report section 31 of chapter 496 of the laws of 1898, which is as follows:

“Any person having under his control a child between seven and fourteen years of age who fails for five day sessions or ten half day sessions within any period of six months while under such control, to cause such child to attend school as required by section twelve of this act, the physical or mental condition of such child not being such as to render his attendance at school harmful or impracticable, upon complaint by a truant officer, and conviction thereof, shall forfeit and pay a fine of not more than twenty dollars. Any person who induces or attempts to induce any child to absent himself unlawfully from school, or employs or harbors while school is in session any child absent unlawfully from school, shall forfeit and pay a fine of not more than fifty dollars.”

Notwithstanding no transportation to the high school the second and third terms, we are glad to report a good attendance, which reflects credit upon school and pupils.

Upon the East Head register for the spring term not one tardy mark is to be found.

In the pamphlet, “The Consolidation of Schools and the Conveyance of Children.” by State Agent G. T. Fletcher, we are informed that forty per cent. of the towns of the State make the regular appropriation for schools include transportation. Your committee would recommend that this plan be adopted in Carver; for if this were our method, the committee could save the town quite a sum of money, especially in educating the East Head children.

There are five children in Snappit district whose ages are within the compulsory limits. The question for the town to consider is, Shall a school be opened in that locality as at East Head, or shall the children be transported to Carver Green at less than half the expense of supporting a school there? In case no provision is made by the town, the committee will be obliged to use a part of our State school fund for their education.

Although the plans the School Committee have been cherishing the last few years relating to consolidation have been apparently frustrated, instead of complaining, we will wait patiently for the time to come when a majority can see that consolidation is in the line of economy and efficiency. A quotation from one of the annual reports of Dr. Harris, United States Commissioner of Education, is at the point :

“It has been frequently demonstrated and is generally conceded that it would be better both on economical and pedagogical grounds to unite the many small and weak schools of a township, dispersed over a large extent of territory, into a few strong, well equipped and well conducted graded schools, located at convenient points.”

HIGH SCHOOL.

This is the fourth year of the High school, and in order to do this year's work and graduate a class this summer two teachers were necessary. By providing an assistant we are carrying out the vote of the town “authorizing the School Committee to establish a High school.” Now so far as teachers are concerned, the school is well equipped and can produce results, we believe, that will compare favorably with those of other high schools.

The one thing needed most at present is a recitation room. A provision was made temporarily by putting a partition through one end of the room, this being the only plan the committee could devise; but this does not prevent confusion of voices, and interferes seriously with heating and ventilating. We hope that these *very* unfavorable conditions will be abolished at the end of the spring term, and that the town will make provision for better accommodations at the spring meeting.

TEACHERS.

At the close of the last spring term Mr. H. H. Rice who taught the High school the first three years resigned, and Mr. A. S. Burnham, a graduate of Dartmouth college and a teacher of several years' experience, was elected principal. Mr. Burnham came to us very highly recommended, and as yet we have seen nothing in the man or his work that is not satisfactory.

Miss Wilhelmina L. Waite of Mt. Holyoke college was elected assistant teacher in the High school. Miss Waite is well liked, and we consider her a success in the work she has chosen.

The Centre grammar school is in charge of Miss Lettie F. Ellis who has been teaching the past six years at Marshfield Hills. Miss Ellis shows by her work that she has been striving to keep abreast of the times and all are apparently well pleased with her.

The Centre primary school was given to Miss Elva B. Tillson, a graduate of the Bridgewater High school. Miss Tillson is much interested in her work and is giving good satisfaction.

We are glad that Miss Vesta B. Shaw has so improved in health as to be able to resume her work at the South grammar school. We believe that she will retain the reputation she has already gained, as a teacher who produces good results in her work.

The vacancy at the South primary caused by the resignation of Miss Annie E. Harris who had taught the school three years was filled by Mrs. Mary Rogers, a teacher of experience, who is taking hold of the work in a manner that is very acceptable to the committee.

The services of Mr. Ellis G. Cornish who has taught in town before were procured for East Head school. Mr. Cornish we believe is improving his opportunity to give his pupils a good drilling in their work.

Your committee were fortunate in being able to engage Mrs. Jennie M. Sweetser as teacher at Pope's Point. Mrs. Sweetser is a normal graduate and her work was appreciated by all. To our regret she resigned at the end of the term to accept a position at East Bridgewater. The vacancy was filled by Mr. N. F. Atwood of Mt. Hermon school who is liked by his pupils and is trying to do well by them.

The teachers that have not been mentioned were with us a year ago, and we will speak of them as teachers who have the welfare of their schools at heart and deserve the co-operation of parents and pupils.

We would impress upon all teachers the importance of having much written work, frequent reviews, and thorough drills that the pupils may be well acquainted with the subjects they study.

REPAIRS.

A larger sum than usual has been expended for repairs on schoolhouses, which have been made as follows :

At No. 1 grammar school, the yard has been fenced, new side blackboards furnished, glass set, and plastering patched in both grammar and primary buildings.

At No. 2, the fence was rebuilt, plastering patched, ceiling and walls of room papered.

At No. 3, one side of roof shingled, plastering repaired, and room papered, painted and whitewashed.

At No. 4, roofs of house and shed shingled in part and rooms whitewashed.

At No. 5, one side of roof shingled, plastering repaired, room papered and whitewashed.

The blackboards in nearly all the schools have received attention.

This year the buildings at Nos. 3 and 5 ought to be painted and the other side of roofs shingled.

The yards at the High School and at No. 5 must be fenced, and at No. 1 Primary the fence should be repaired.

The floors at Nos. 4 and 5 are very poor and at No. 2 the floor will need repairing.

The underpinning of many of our buildings will need to be looked after soon and some of the rooms need new seats. We do not expect that all of this work can be done in one year.

APPROPRIATIONS.

Last year the sum of our appropriations for schools and transportation was \$2,475. Our unexpended balance from 1899 was \$732.41, which gave us \$3,207.41, besides our usual funds. This year our unexpended balance is only \$290.68. In order to have the same length of school year, which surely ought not to be shortened, the committee must recommend \$2,600. You are doubtless aware that the expense of fuel and janitor services at the new building is more than we have been accustomed to pay.

Opening more schools has called for an additional outlay for incidentals, consequently we have overdrawn this account. Taking the amount overdrawn into consideration the committee would recommend for the present year \$400.

Believing it never economy to neglect repairs on buildings and considering expense of fencing two school yards, the committee would recommend for this appropriation the ensuing year, \$325.

The committee would also recommend that the town raise the sum of \$269.66 to balance the New Schoolhouse account.

This year the school committee will be in session monthly at the Centre on the evening previous to the meeting of the Selectmen, to approve bills and consider any other business relating to the schools.
