NOTICE TO PROPERTY OWNERS

You are hereby required on or after January 1, 1925, to destroy the gypsy and brown tail moths on your property in this town.

This notification is in accordance with Chapter 381, Acts of 1905, as amended by Chapter 268, Acts of 1906, which require cities and towns to destroy the eggs, caterpillars, pupae and nests of the gypsy and brown tail moth, under heavy penalty for failure to comply with the provisions of the law.

If a property owner fails to destroy such eggs, caterpillars, pupae and nests, then the city or town is required to destroy the same, and the cost of the work, in whole or in part, according to the value of the land, is assessed upon and becomes a lien on the land. (See Section 6, Chapter 381).

The Selectmen ask owners and tenants to co-operate with the town in its work on highways and other public grounds by doing effective work on their premises. Citizens who have cleaned their premises of the moths,

but find their trees endangered by the neglect of owners of adjoining estates, should make complaint to the Selectmen. The infestation of a residential neighborhood by the neglect of a few will not be tolerated.

The eggs of the gypsy moth should be destroyed at once with creosote. They should never be scraped off the object on which they are laid. Careful search should be made for gypsy moth egg clusters, not only on trees, but also on house walls, stone walls, fences and in rubbish heaps, etc. Trees in which cavities occur and which it is not desirable to cut, should have the cavities tinned or cemented. This is important. The present and future cost of combating this insect can be greatly reduced by cutting and burning worthless brush, hollow trees, etc. A few trees well cared for are more valuable to the property owner and the community than a large number of neglected trees.

The nests of the brown tail moth should be cut from the trees, carefully collected and burned in a stove or furnace.

Full instructions as to best methods of work against the moths may be obtained from the Local Superintendent, James S. McKay, or from the State Forester, State House, Boston, Mass.

Work done by contractors should be inspected and approved by the local superintendent before payment for the same is made.

HAROLD E. CARLETON,
ELLIS G. CORNISH,
HERBERT A. STANLY,
Selectmen.

ALICE G. SHAW,
ELLIS G. CORNISH,
CAROLINE O. STODDARD,
School Committee of Carver.

REPORT OF THE SUPERINTENDENT.

To the School Committee:

I take pleasure in submitting my second annual report.

May I call the attention of the citizens to the standing of the Town of Carver as regards the expenditure for schools per \$1,000 valuation. As a town of less than five thousands inhabitants maintaining a High School we fall into Group 3, which embraces one hundred seventeen towns. Carver is ranked in the last statistics as 109. It is interesting to note at the same time that Carver ranks 24 in valuation per pupil, i. e., while the town is among the wealthiest in the state per pupil, it is spending very little on the schools as compared to towns of the same class, while the tax rate places the town in the 111th place. This should lead to a more generous appropriation.

The books in the first and second grades were so badly worn that it was impossible to get through another year as we hoped to be able to do. It seemed wise to make a radical change in method, using the same text in both North and South. The adoption of the new texts appears to be giving far better results, and the work is much stronger than a year ago.

After watching carefully the work in spelling, it was found that the limited board space and the eye strain due to studying words on the board, was giving far from satisfactory results, herefore we placed a modern speller in the hands of every pupil, and the results seem to justify the expenditure.

The housing problem presents extreme difficulties for the next year. Grades 5 and 6 at the North will have more pupils than can possibly be cared for in the present room, and the other rooms will be full if not overflowing. Opening the West School will not help as the building will not accommodate six grades.

The situation at the South is unjust in that two-thirds of the pupils at Bates Pond are carried from the South, some having already covered three miles before starting for Bates Pond. This can be remedied by enlarging the South School and bringing the children from Bates Pond there, as there are not enough in that district to warrant opening that school for all grades.

The heating and ventilation at the North is extremely poor, as is also the case at the South. On a cold day the seat nearest the stove registered only 62 degrees, and the corner seats could be brought only to 50 degrees. The South has no ventilation, and the rear room at the North cannot be used with any hopes of getting even fair results. In view of these facts, and the likelihood of a crowded condition in the Center Grammar room, it is a question whether it would not be better policy to establish a modern central building where each grade would be by itself, and heat, light and ventilation would be right, or at least a four room building there with improved conditions in the North and South.

Whatever the decision as to buildings the transportation problem should receive immediate attention. At present the work done by Mr. Griffith is more than any one man can handle. That work should be covered by at least two carriers, better by three. The big bus should not run beyond the Center. The Bates Ponders and the upper grades from the South should be handled as one route; the other routes being cared for independently. This would do away with the long wait before and after school which is unwise as well as unfortunate.

This year we have had an unusual change in the teaching force. Miss Cornish and Miss Eldredge resigned to be married. Mrs. Lulu Pratt and Mrs. Winifred Richter were engaged to fill their places at the North, and have proven their worth. Miss Savary went to Wareham, and Miss Margaret Robinson was placed at Bates Pond, and is carrying on the work well. Miss Love also married, and her place was taken by Miss Lena Peck.

The enrollment in the High School increased slightly, perhaps due to the attraction of the Washington trip. The pupils this year failed to elect Latin or Beginner's French, and it seemed unwise to force those subjects upon pupils. This led to the introduction of a business course which is holding the interest and getting better results than the old course. If the town should decide to build a central school it would be wise to add to the teaching force a commercial teacher, and increase the offering in this department. A two teacher school cannot offer both practical and collegiate training, and we must send our college students out of town, offer only a prescribed course of languages, or make the addition. I commend to the attention of the citizens the report of the principal of the High School.

Attention is also called to the hitherto neglected law requiring all children attending public schools to be vaccinated or exempted by a registered physician. The parents have been very prompt in co-operating, and I wish to express my appreciation of their attitude.

The following table shows the enrollment for the term ending December 19, 1924.

Grade,	1	2	3	4	5	6	7	8	9	10	11	12	Total
North	23	13	17	13									98
South	18	15	17	18									68
Bates Pond,					11	11							22
Center							19	7					26
High,									10	8	6	7	31
													245

REPORT OF THE SCHOOL NURSE.

Number of school visits,	19
Number of home visits,	15
Cases of enlarged tonsils and adenoids,	80
Cases of enlarged glands,	49

Cases of decayed teeth,	100
Children underweight,	50
Children overweight,	1

The condition of the children's teeth shows the great need of a DENTAL CLINIC, and the adenoid record calls for serious thought on the part of the parents of those children.

MARY E. FULLER, School Nurse.

In closing I wish to express my appreciation of the courtesy and cooperation of teachers, citizens and committee.

Respectfully submitted,

ARTHUR B. WEBBER.

SCHOOL CALENDAR.

First Winter Term—Eight Weeks.

Opens December 29, 1924.

Closes February 20, 1925.

Second Winter Term—Eight weeks.

Opens March 2, 1925.

Closes April 24, 1925.

Spring Term—Seven weeks.

Opens May 4, 1925.

Closes:

Grades—June 19, 1925.

High School—June 26, 1925.

Fall Term—Fifteen weeks.

Opens September 8, 1925.

Closes December 18, 1925.

Winter Term—Eight weeks.

Opens December 28, 1925.

REPORT OF THE PRINCIPAL OF THE
HIGH SCHOOL.

When the old year is drawing to a close and the new year is at the gate, it is customary for every business man to take stock, record his accomplishments, and plan his policy for the future. It is quite fitting, therefore, that we who are engaged in the most important of all businesses the training of our youth for useful citizenship and happy lives, should likewise summarize our achievements, study our failures, and plan for the future in a constructive way.

Following the parallel of the financial statement, let us first of all enumerate our successes. More important than any other thing that we have been able to accomplish is, in my opinion, the extent to which we have been able, in this town, to eliminate what the State Board of Education in a recent publication entitled "Cardinal Principles of High School Management" declares to be the most serious evil confronting the modern secondary school: the appalling "death rate" between the first and fourth years of High school. The problem is non-existent in this town at the present time, for we have lost through voluntary withdrawal only one of our number during the past year. The manner in which this result has been attained may be of interest. With the co-operation of Mr. Webber and your Board, it has been possible to introduce this year at least two subjects that seem better fitted to the needs of our pupils than are some of the more strictly cultural subjects. Feeling that we have, perhaps, allowed ourselves to be somewhat too much influenced by college entrance requirements in the past, we have introduced courses in business practice and bookkeeping; and the quality of the work in these subjects amply justifies the change. We are not, of

course, losing sight of the needs of the prospective college or Normal School student, and have been able to make this change only because none of the members of the present senior class are planning to go to college. With the work in bookkeeping well beyond the beginning stage, we are introducing typewriting and are rejoicing in the possession of four portable Remington typewriters. Shorthand is also under consideration for the second half of the year.

We feel that the enriched curriculum may have been of some value in keeping our boys and girls in school. But there are other factors which have helped to produce this result. Not the least of these is the Washington trip for the Senior class, which was introduced last year on the suggestion of Mr. Ellis G. Cornish. Not only the trip itself, which we shall spare no effort in making a permanent institution in Carver High School, but also the various activities made necessary by this project, have done much to keep us all together, and have engendered a splendid spirit of co-operation in the student body. We trust that the townsfolk will continue to give us the hearty and generous support in this venture that has been so evident in the past.

From time to time the question arises, "Are we up to the standard of accomplishment of the average high school?" This is a question that has, in the past, been difficult to answer directly. One had only personal observation, and possibly the records of graduates in college and business, to go by. Nowadays, however, we have the standardized test, conducted on a national scale, which indicates with certainty the degree of attainment in the several subjects. For some time we had been obsessed by the idea that our English work was not up to standard. English is without doubt the most important subject in any curriculum, for our mastery or lack of grasp of it stamps us at once as either cultured or ignorant, and therefore influences our lives to a considerable extent. A defect in our English work would be

a serious matter, and would call for immediate remedy. With the idea of getting some light on this matter we introduced during the month of Dec., 1924, the standard diagnostic tests conducted under the direction of the Public School Publishing Company of Bloomington, Illinois. These tests were four in number, and were divided as follows: a, Capitalization; b, Punctuation; c, Grammar; d, Sentence Structure. The results of the first test on capitalization proved the Freshman and Sophomore classes to be on a par with the standard set for High School Juniors, while the Junior and Senior classes ranked with College Freshmen. In punctuation the Freshmen and Sophomores proved slightly above the average, while the Juniors and Seniors lacked but one point of attaining the Senior median. The weakest point seemed to be in grammar. Here the Freshmen and Sophomores lacked one point of reaching the standard median, while the Juniors and Seniors dropped to a Sophomore average. The final test on sentence structure showed the Freshmen and Sophomores to have a Sophomore rating, and the Juniors and Seniors a Junior rating. Summing up, these tests show that the work in English is up to standard or slightly above standard with the exception of the work in grammar, which needs, and is now receiving, more attention. We are now planning to extend the tests to include all other subjects with the possible exception of Freshman algebra, in which, thanks to the splendid preparation given the eighth grade last year by Mrs. Helen Griffith, work of exceptional quality is being done.

In summing up our successes we must not forget to mention the fact that three of the four members of the graduating class of 1924 have gone on to higher institutions of learning, two to college and one to Normal School. All are acquitting themselves creditably and proving that, given a spirit of determination on the part of the pupil, a small school is perfectly able to fit for college in spite of handicaps.

At this point it may be profitable to consider some of the difficulties under which we are laboring. First of all, physical conditions are far from good in the High School building. Lighting, while much improved since the introduction of the electric lights last year, is not in accord with good modern practice. The heating system is unreliable, as is also the ventilating system which depends on it. Floors are in poor condition. Toilets are not in good shape. Coat room facilities are obsolete and inadequate.

The equipment for mental growth is none the less limited. There are only a few reference books of value with the exception of the Compton Encyclopedia which Mr. Webber procured for us last year, and which has proved a veritable treasure-trove for our pupils as well as for those of the grammar grades.

Add to the physical handicaps and the lack of reference material the fact that teachers in Carver High school, or schools of like size anywhere, must on the nature of things be jacks of all trades, and hence masters of none, and it is surprising that as much has been accomplished. That so much good work has been done is largely due to the spirit of the pupils who, realizing their handicaps, are doing much to overcome them.

The physical difficulties that now hamper our work are bound to become more and more acute as time goes on, and if I do nothing else before I leave Carver I want to impress upon Carver people the absolute necessity of doing something soon in the way of providing new or enlarged quarters for the High School. A brief study of the situation will make apparent the need for thought on this subject. Last year the enrollment in Carver High School was twenty-five. This year it is thirty-three. Next year the probable enrollment will be thirty-four, but the following year it will be swelled to forty-six by the entrance of the present record seventh grade class, eighteen members of which have signified their in-

tion of going to High School. Facilities for the accommodation of such a number are non-existent at the present time and cannot be provided with the existing plant.

A growth to the half hundred mark would be most gratifying to me because it would force either a new High School building, extensive additions to the old, or a complete revamping of the entire school system. Adequate study room and laboratory facilities would have to be provided, and best of all, a third teacher would then be a necessity and not an extravagance. Under existing conditions another teacher could not be accommodated, nor would the expense be justified in view of our small enrollment. With a third member of the staff a more diversified program could be offered and far better work could be done, for it stands to reason that with less subjects to carry a teacher will come to class better prepared.

Carver people, whatever else you do not do, for the sake of your boys and girls start thinking about this matter now. It is a matter which needs everyone's thought and discussion. Your Board and your Superintendent must know your needs and ideas before they can make plans that will be satisfactory to the majority. It is possible that the whole school system may have to be remodelled to provide an economical and sound adjustment of the difficulties. For example, the situation might call for the erection of a new building at the Center capable of accommodating grades 5, 6, 7 and 8 and the Freshman class of the High School. Grades 7, 8 and 9 could then be organized as a Junior High School in the modern fashion. To a certain extent this would relieve the congestion in the High School, and would render unnecessary the immediate construction of buildings at North and South Carver.

This whole matter, however, is a problem that you, not I, must work out. It is a matter that should receive

your earnest consideration at once. If you put it off serious consequences will confront you in the near future, and in hasty attempts to remedy matters you will find a two-fold danger: added expense and a less satisfactory solution. Start thinking and planning NOW, always realizing that money wisely spent for schools is the very best investment that can be made.

H. W. RICHTER,

Principal Carver High School

Jan. 9, 1925.

TOWN CLERK'S REPORT

MARRIAGES RECORDED IN CARVER FOR THE YEAR 1924.

- Jan. 1. Walter E. Garnett and Victoria J. Smith of Wareham.
- Jan. 2. Joseph Connor of New Bedford and Blanche C. Roy.
- Jan. 24. Theodore T. Vaughan and Laura L. Finney.
- Jan. 27. George A. Ellis of Plympton and Mildred V. Bruno.
- April 6. Mendell S. Thompson and Vesta Porter of Kingston.
- April 18. Arnold B. Adams of East Bridgewater and Achsah E. Holmes.
- May 10. Walter Rudolph of Middleboro and Viola M. Garnett.
- May 14. William Johnson of Quincy and Ina Paananen.
- May 14. Manuel Andrade and Rosa Perry.
- May 17. Allan Carlson and Elsie C. Gustafson, both of Cambridge.
- May 24. Robert M. Andrews and Almeda P. Jefferson of Wareham.
- June 2. Joseph T. Howes of Harwich and Ellen I. Murphy.
- June 7. Antone Pena of Providence, R. I., and Anna Teixeira.
- July 28. John E. Johnson and Ida E. Kaski.

- July 30. Leonard F. Shurtleff of Middleboro and Mary F. Cornish.
- Aug. 11. Adelard Bolduc and Louise Valcourt of Kingston.
- Sept. 1. Manuel Pires and Candida Gomes of New Bedford.
- Sept. 30. Bernard T. O'Connell of Plymouth and Emma L. Parker.
- Oct. 26. Edward W. Lowe of Middleboro and Clara Lee.
- Nov. 16. Charles M. Holmes and Elsie M. Pratt, both of Wareham.
- Nov. 18. Otto Salmi and Anna Palm.
- Nov. 21. Earl E. Boardway and Annie G. Shurtleff.
- Dec. 25. Andrew F. Bumpus and Dorothy Leonard of Plymouth.

(EXCERPTS FROM TOWN MEETING RECORDS.)

(March 3)

Voted to adopt the following Town By-law :

On or before the first day of April the Moderator shall appoint a Finance Committee of five for one year, five for two years, and five for three years, and annually thereafter on or before the first day of April the Moderator shall appoint five for the term of three years.

Voted to adopt the following Town By-law :

The Overseers of Poor shall be elected, one for one year, one for two years, and one for three years, and annually thereafter one shall be elected for the term of three years.

Voted that a committee of five be appointed by the Moderator to investigate the matter of fire protection, and report at the next Town Meeting.

Committee appointed. William I. Ward, Henry G. Mills, Jesse A. Holmes, Ellis D. Atwood, Theodore T. Vaughan.

(November 4)

Appropriations :

Clearing Shurtleff Park,	200 00
Printing valuation list,	350 00

Voted to authorize the Park Commissioners to put Shurtleff Park in repair and cut the trees in lumber as the Road Commissioners advise would be suitable for the building of sheds for housing town machinery.

Voted to instruct the assessors to cause to be printed five hundred copies of the valuation of the property in the town of Carver as assessed in 1924.

Voted to instruct the Park Commissioners to take steps to acquire Julian Grove under the Park Laws and report at the next Annual Town Meeting.

I am calling attention to a few laws that are not generally known. It is the first duty of the parents to notify

the Town Clerk immediately after the birth of a child. Physicians, as a rule, observe the law as it relates to their calling, but parents do not on account of a failure to know their duty in the matter. I quote Sec. 6 of Chapter 46, G. L.:

“Parents within forty days after the birth of a child, and every householder, within forty days after a birth in his house, shall cause notice thereof to be given to the clerk of the town where such child is born.”

Under Chap. 128, Section 4, of the Acts of 1923, it is made the duty of the collector to enforce the collection of real estate taxes before the first of October following the year of assessment. The taxpayer will notice that the statute requires the collector to collect, not the taxpayer to pay. This appears to be a distinction that is overlooked. If the collector must collect before October will please notice that if the tax is not paid by August 1st, additional costs will accrue.

Relative to the issue of marriage licenses the statutes require that the application must remain on file five days before the certificate is granted. As the public, and Town Clerks in general, misinterpret this statute, I quote the opinion of the attorney-general as to the construction to be placed upon the statute:

“In computing the five days’ period in accordance with Section 23, as amended, the date of the entry of intention must be excluded. The language clearly indicates that five days are to expire before the delivery of the certificate, i. e., the day of such delivery is to be excluded from the computation. Fractions of a day are, of course, to be disregarded, i. e. a day means twenty-four hours and begins at midnight. As to Sunday the general rule is that ‘when a statute fixes a limitation of time within which a particular act may or may not be done, if the time limit is less than a week, Sunday is excluded.’ I know of no reason why the general rule

should not be applied to the statute in question. The meaning of this statute is that persons who are interested in an intended marriage are entitled to a reasonable opportunity on each of five days to examine the records in the office of the Clerk or Registrar of the city or town for the notice of intention of such marriage. On Sunday the Clerk or Registrar is not required to keep his office open, and his records are not ordinarily open to inspection. Similarly, he is not required to keep his office open on a legal holiday. Such a holiday, therefore, in my opinion, is to be excluded from the computation."

Under this interpretation which is very plain, it will be readily noticed that it requires seven days to obtain a marriage certificate. The only way in which a certificate may be obtained in six days, is in cases where the clerk is willing to receive the application, or issue the certificate on Sunday, and if a holiday intervenes the time necessary is eight days.

Whole number of dogs licensed,	107
Males,	84
Females,	23
Resident Combination certificates issued,	65
Resident Hunters and Trappers,	49
Non-Resident Combination,	1
Non-Resident Fisherman,	2
Resident Fisherman,	10
Minor Trappers,	8

The Town Clerk is prepared to furnish blanks for the return of births and deaths according to law.

HENRY S. GRIFFITH, Town Clerk.

REPORT OF COMMITTEE ON FIRE PROTECTION

To the Voters of the Town of Carver:

The committee on fire protection appointed at the annual town meeting a year ago respectfully submits its report.

Our town, like all others about us, is always in danger of more or less frequent destructive fires. During the past year there have been several occasions when some apparatus for fighting fire has been needed. Having none of our own there is no resort but to call upon neighboring towns for assistance. These towns are willing to lend aid; but some things in their attitude toward the matter, things which seem to us beyond criticism, claim our thoughtful attention.

One of these towns is willing to respond to calls by sending a machine and crew, on condition of a contract agreement to pay therefor at a specified rate for each time of service and of an assured guaranty against damage: an arrangement which would, we think, place upon our town a financial obligation equivalent to an investment of \$10,000 to \$12,000.

Another town is willing to give assistance, and does so, without stipulated compensation, recognizing such service as being an act of possible self defense as well as of neighborly cooperation; but also holds and expresses the opinion that this town ought to provide itself with some means of fire protection and thus, incidentally, become capable of giving assistance in an emergency.

It should be further noted that, in any case, a town to which we look for aid must reserve the right to decline to respond to a call if it should happen that its fire machines were busy at the time of the call.

Your committee finds in the town some opinion, which seems likely to grow, that the time has come when we ought to have some fire apparatus. If the voters of the

town should concur in that opinion there are several things any of which could be done.

1. A combination pumping and chemical engine, with motor power, well equipped and suitable for a small rural town, can be obtained at a cost of from \$5,500 to \$6,000. Provision would have to be made for housing and operating such an engine. Probably a more or less closely organized fire company would be found necessary.

2. A combination chemical engine and hose truck, having one or two chemical tanks and hose for the same, having a capacity for carrying 1,000 feet of 2½-inch fire hose and other usual equipments, can be procured for \$2,100 to \$2,500.

3. A two tank chemical engine, with regular complement of fire fighting tools, mounted on a motor truck, can be provided for from \$1,700 to \$1,800.

As in the case of the machine first mentioned plans for housing and operating either of the others referred to would have to be worked out.

After careful consideration of the whole subject the committee makes the following recommendation:

That the selectmen of the town be authorized, at their discretion, to purchase for the town, at a cost not to exceed \$2,000, a two tank chemical engine, with motor power and fire fighting equipment; that the selectmen be given power to provide, in such manner as their judgment may approve, for housing and operating the engine; and that the sum of \$2,000 be raised and appropriated for this purpose.

WILLIAM I. WARD,
HENRY G. MILLS,
ELLIS D. ATWOOD,
THEODORE T. VAUGHAN,
JESSE A. HOLMES,

Committee.

SUMMARY BY THE SELECTMEN AND FINANCE COMMITTEE
Of Appropriations, Balances and Recommendations Tabulated for the Use of the Voters
in Town Meeting, March 2, 1925

	Appropriation March, 1924	Paid Out During 1924	Returned to Treasurer	Transferred from Reserve Account	Overdraft Dec. 31, 1924	Recommendations for Expenses of 1925	Appropriations Made March 2, 1925

TOWN MEETING WARRANT

Art. 1 To see if the town will authorize the Town Treasurer, with the approval of the Selectmen to borrow money from time to time in anticipation of the revenue of the financial year, beginning January 1, 1922.

Art. 2. To see if the town will authorize the Selectmen to prosecute, compromise or defend any suits for or against the town.

Art. 3. To decide when taxes shall become due.

Art. 4. To see if the town will make the yards of field drivers town pounds, provided they are also chosen pound keepers.

Art. 5. To see if the town will make an appropriation for a police force, or act anything thereon or thereto.

Art. 6 To choose all necessary town officers not elected by ballot.

Art. 7 To see what disposition the town will make of the dog fund.

Art. 8 To raise and appropriate such sums of money as may be necessary to defray town charges the ensuing year.

Art. 9. To choose all necessary town officers. The following officers to be voted for all on one ballot viz; Town Clerk, One Selectmen, Treasurer, Collector of Taxes, three Overseers of the Poor, three Auditors, three Constables, one Tree Warden, three Herring Committeemen, two Library Trustees, each for one year; one Trustee of the Public Library for two years; two Trustees of the Public Library; one Assessor; two School Committee, one Road Commissioner, one Park Commissioner, each for three years; and to vote by ballot "Yes" or "No," in answer to the following question: "Shall licenses be granted for the sale of certain non-intoxicating beverages in this town?"

Art. 10. To see what pay the town will vote the Treas-

urer, Collector of Taxes, and other town officers for the ensuing year.

Art. 11. To see what compensation the town will vote for labor and teams on the highways, and act thereon.

Art. 12. To see if the town will raise and appropriate a sum of money for the observance of Memorial Day, and act thereon.

Art. 13. To see if the town will accept the report of the Selectmen, and other town officers.

Art. 14. To see if the town will vote to raise and appropriate a sum of money not exceeding \$4000.00 for the purpose of resurfacing with a Bituminous top or otherwise improving Main Street from the southerly end of the Bituminous Road to a point near the South Carver Post Office, provided an allotment is received from the State, and act thereon.

Art. 15. To see if the town will vote to Purchase the Sarah F. McFarlin lot known as Great Hill Lot in said Carver and raise and appropriate the sum of \$200.00 therefor, and act thereon.

Art. 16. To see if the town will vote to raise and appropriate a sum of money not exceeding \$2,000.00 for the purpose of resurfacing with a Bituminous top or otherwise improving Plympton Street, provided an allotment is received from the State, and act thereon.

Art. 17. To see if the town will vote to raise and appropriate a sum of money not exceeding \$2,000, for the purpose of purchasing a two tank chemical engine, with motor power and fire fighting equipment and that the selectmen be authorized, at their discretion, to purchase this equipment, and act anything thereon or thereto.

Art. 18. To see if the town will vote to raise and appropriate a sum of money not exceeding \$2,000 for the purpose of housing and operating fire fighting equipment and that the selectmen be authorized to provide same, and act anything thereon or thereto.
