We wish to take this opportunity to express our deep sorrow, resulting from the death of Mr. Arthur G. Burbank, chairman of this board. Mr. Burbank served the Town of Carver as auditor, faithfully, for twelve years, and was held in the highest esteem by all who worked with him during this time.

We also wish to thank Mr. Robert M. Andrews, who has so ably filled in this year, for his services to the board.

NORMAN V. HOLMES,
WARREN L. CHANDLER,
Board of Auditors.

GENERAL RELIEF REPORT TO THE CITIZENS OF CARVER

I herewith submit for your approval the General Relief Report for 1941.

Due to defense work taking up all available labor, we are able to return \$2,006.03 of our Welfare appropriation. Our Old Age cases vary between 35 and 40, and we expect a small build-up during the year.

We spent for Aid \$13,552.95. Our reimbursements were \$11,053.57, making a cost to the Town of \$2,499.38. The new O. A. A. laws effective as of May 1st, are compulsory or we receive no reimbursements.

Some of the changes are here quoted: Residence requirements are reduced from 5 to 3 years out of the last 9. Minimum grants subject to deductions, or other income and resources are increased from \$30 to \$40 for individuals living alone. From \$50 to \$65 for married couples, both eligible, living alone or brother and sister, both eligible, living alone. For all others, living in a family group the present minimum will continue to apply. As to what constitutes a family group shall be determined in accordance with the State Department Rules and Regulations which will be furnished later. We have returned to the Town Treasury \$2,621.53, and still have a working balance of \$335.16. In all Relief Departments we are asking 10% less than last year for administration.

The wood situation has been serious, and at this time we have a crew of needy men cutting a supply for the future.

I wish to take this opportunity to thank the other two members of the Board for their approval of my recom-

mendations in relief cases, and to express my appreciation also to the Police Department for services rendered and information obtained.

ARTHUR W. PETERSON,
Chairman,
Board of Public Welfare.
Bureau of Old Age Assistance.

MISCELLANEOUS

Complaints Received	176
Court Cases	40
Convictions	39
Fires Attended	12
Summons Served for Out of Town Police	27
Investigations for Out of Town Police	21

Driving to Endanger and Driving Under the Influence were taken to Court, all other Motor Violations were reported to the Registrar of Motor Vehicles.

There was 11,990 miles traveled by Cruiser and 1,100 miles traveled by Motorcycle.

Two-way Radio would help the Police Department very much and would cut the Telephone Bill almost 40 percent.

Repairing the Old Town Hall is very important as we will need much more room now that we have such a large Auxiliary Police Force and it will also be of great help to the Fire Department.

I want to thank the Selectmen for their fine cooperation with the Police Department, also the Special and Auxiliary Police for the fine interest shown, not enough can be said for the fine cooperation of the Telephone Operators in helping the Police Department.

Respectfully submitted,

ROBERT J. MURRAY.

REPORT OF COUNTY AID TO AGRICULTURE

The Plymouth County Extension Service

The Plymouth County Extension Service during 1941 has carried on its usual work of assisting rural and village people with their problems pertaining to agriculture, homemaking, and 4-H training. Demands are ever-increasing on the Extension Service to organize, administer and teach programs of national, state, county, and town importance. In view of the present crisis programs of work are being organized so that every effort will be directed towards informing the farm people of the ever-changing developments in agriculture, and to assist them with their problems during these critical times.

The agricultural department is organized primarily on a commodity basis, working with commodity committees, associations and groups of farm people. Major agricultural enterprises are cranberries, dairy, poultry, vegetables and fruit, but many smaller projects are covered such as forestry, general livestock, farm accounts, etc. The agricultural department renders service and receives fine cooperation from such agencies as Agricultural Conservation Program, Farm Security Administration Surplus Marketing Administration, Farm Credit Administration, and various cooperatives.

The Home Demonstration Department conducted some work in each of the towns of the county during 1941. The major program during the spring and fall was in clothing construction. Emphasis was also made on the care, repair and renovation of clothing.

Over five hundred different women attended nutrition meetings held during the year. More families were helped this past year to plan home gardens and 18 food preservation demonstration working meetings were conducted.

Homemakers were also helped in various ways in the fields of home management, home furnishing, home grounds improvement and recreation.

Four-H Club work is that part of the Agricultural Extension Service which deals with rural youth. Young people between the ages of 10 and 21 in a community organize themselves into a group with their own officers and own local program with the guidance of an adult man or women leader (who serves voluntarily). Each member has an individual project centering around a problem of the home or the farm. They raise livestock, crops, make clothing, prepare foods, etc. They serve as officers and on committees of their own club. They have camps, games, songs, exhibits, tours, hikes, and social meetings. They work and play together. They learn to cooperate by cooperating.

COMBINED STATISTICAL OF THE THREE
DEPARTMENTS

Days in office	683 $\frac{1}{4}$
Days in the field	987 $\frac{3}{4}$
Leaders and Committeemen	465
Farm and Home Visits	2,783
Office and Telephone Calls	9,716
News Articles	418
Individual Letters	4,392
No. Circular Letters	340
Copies	124,247

Total number of meetings participated in by agents	804
Attendance	31,053
Total number of 4-H club members enrolled	1,701
Total number of different women attend- ing meetings	3,097

The financial assistance and moral support of Carver is greatly appreciated by the people the Extension Service assists. A continuation of its support is justified on the record it has achieved. Its influence can not be measured by monetary values, but its educational programs and individual assistance constitutes one measure in the first line of national defense.

ALMIRA C. HOLMES,
Town Director.

1941 REPORT OF THE SCHOOL BOARD

To the Inhabitants of the Town of Carver :

This year there has been a decided change in the school board, shortly after election of Eunice Bailey of South Carver, Bradford Cole of North Carver tendered his resignation. Harriet Snow was selected by the board of selectmen and school board as a committee of the whole to fill this vacancy. This new school board has had pleasant meetings and "peace has reigned supreme". Indeed this year we are *constabat inter omnes*.

The new superintendent of Union No. 45, of which Carver is an integral part, has carried on many excellent features begun by his predecessor and has instituted some policies of his own which undoubtedly will be explained in his report. The Carver board is highly pleased with the untiring work of Superintendent Austin.

The school bus now transporting pupils to Middleboro will do so only until the close of this school year. Thereafter depending upon a suitable agreement with the Plymouth School Board concerning tuition, high school buses will only transport to that town.

The School Board has made plans so that early in 1942 complete hot lunches consisting of a main dish, beverage, a bread and dessert will be served to pupils in the three schools. These lunches will be served in most instances far below the actual cost of the food by virtue of the fact that the government has agreed to furnish surplus commodities and to provide us with NYA help, the girls to be selected by the Carver School Board. Consequently this innovation will cost the town little and should effect

a saving to the parents who will no longer, if they so desire, have to send lunches.

The board has this year considered very carefully the problem of adequate facilities in the Center Grammar School. Whether at a more favorable time than the present, possibly within two or three years, the townspeople will see fit to add toilets which will correct but one deficiency existing at that school or whether it might be better economy over a longer period of time to appropriate a sum of money sufficient for a new building edequate to care for both the educational and social needs of the young people of our community as well as provide opportunity for various classes in adult education, is a matter which the board will continue to consider for recommendation.

It was highly gratifying to the board that one of our Carver boys was selected to be president of the Sophomore Class of Plymouth High School. This leads us to feel that a friendly spirit exists between the students of our town and Plymouth. Congratulations are in order for Robert Agnone so honored by his fellow students in P. H. S.

Respectfully submitted,

REPORT OF THE SUPERINTENDENT

To the School Committee of Carver :

I am pleased to present my first annual report as your superintendent of schools.

As regards the school plant, there have been no major changes. The fact that the E. Tillson Pratt School has been so recently renovated made work of this type unnecessary this year. This building is a fine example of an up-to-date country school and should give the town and its pupils good service for years to come. At the Benjamin Ellis School, the heating plant, which apparently has given trouble for a number of years, received attention this year. Certain changes were made in the devices governing the operation of the oil burner to insure a more constant firing rate, and the amount of fuel used per hour of operation was increased but the hours of operation considerably decreased. Apparently these changes have been for the better for a more constant temperature has been maintained at no greater expense for fuel. The painting of this building, both inside and out, is contemplated for the coming year. When this is done, this building too, will be in excellent shape. The same optimism for a school plant cannot be expressed regarding the Center School. It is unfortunate, when, in view of our obligations, both educational and social, to our young people, we cannot do better. It seems unwise to recommend any changes or renovations which would tend to increase the value of the present building, for single improvements, however excellent, could not make up for such deficiencies as are now apparent. It seems reasonable to believe that in working together we may be able to offer a better solution within two to three years, or sooner if industrial conditions should warrant.

There have been some changes in the teaching staff of the town. Anne R. McFarlin, a teacher of many years' experience, and a considerable number of them in Carver, resigned at the close of the school year, June 1941. There is no doubt that Mrs. McFarlin's resignation was the town's loss and that her many pupils and fellow workers will long remember her for all which she believed and taught. As a result of Mrs. McFarlin's resignation there were some changes in teaching responsibilities at the Center School, and Ella S. Donovan of Plymouth was chosen as the fifth teacher. Miss Dorothy Wilbur resigned to accept a position in her home city, Cranston, R. I.; Miss Dorothy E. Labouteley of Holliston, Mass., a graduate of the Teachers' College at Framingham, was elected to this position. Edna F. Denault of Taunton, Mass., a graduate of the Teachers' College at Bridgewater, with experience in private school teaching, was selected to replace Miss Katherine A. Lahey at the Benjamin Ellis School in Grades I-II.

Changes were made, also, in two fields of supervision. Mr. Frederic G. Winters came as supervisor of music, replacing Mrs. Marguary MacCleave. Mr. Winters was graduated from Boston University, College of Music, and has undertaken similar work in the towns of Kingston, Lakeville and Rochester. At the close of the year Mr. Winters was called to military service. Within a reasonable time a successor will be recommended. There has also been a change in the boys' practical arts work. Mr. Arnold Telfer, who formerly taught this work, was unable to continue because of lack of time. Beginning in September 1941, Mrs. Stella F. Morrison of Plympton, a teacher of many years' experience in this type of training, undertook both the work in practical arts and the supervision of drawing throughout the system. Because of a shortage of space for the practical arts classes, all that we might hope for in this type of work cannot be permitted but due to the courtesy of the town officials in permitting

the use of the town hall basement the situation has been helped considerably.

Carver teachers are working in cooperation with the other teachers in Union 45 in helping to prepare courses of study. Those who teach primary grades are intending to prepare a complete outline of the work for the first three grades; teachers of the intermediate grades (IV-VI) are working on the fields of reading, arithmetic and penmanship; while the junior high grade teachers (VII-VIII) are occupied with the subjects of arithmetic and penmanship. It is quite possible this group may continue into the field of literature.

New books in arithmetic were adopted this year for the schools. The adoption was made in keeping with the policy already established in Union 45, i. e. to have the same system extend throughout the grades. While at the time of the writing of this report they have been in use only four months, judging by this short interval, there is reason to believe that the change has been beneficial. Teachers will study books in the field of social service during this coming year, with the view to union adoption of suitable texts.

For convenience of persons who may wish to discuss any questions with the superintendent, office hours will be held according to the following schedule:

Monday afternoons 3:00-5:00 P. M. unless otherwise stated.

There still remains much to be done in the Carver Schools. As in the whole field of education, the task of preparing a suitable educational program for young people is not without change. Within the next year or two there are several important decisions which will have to be made and we should not go about it ill-advised. To adequately care for the needs of our growing young people will require more than we are at present prepared to do. We are fortunate to have a school committee which works together in mutual understanding. Our teachers, though they vary in their philosophy of the schools' task in society, are willing to cooperate. Many parents, by their attitude, indicate a sincere interest in their children's welfare. With such encouragement we should continue to show progress next year.

Respectfully submitted,

GEORGE R. AUSTIN,

Superintendent.

SCHOOL SUPERINTENDENCY UNION NO. 45

Report of the Secretary

1941

The Annual Meeting of the School Superintendency Union 45 was held on April 15, 1941, at the Benjamin Ellis School, South Carver.

The following officers were chosen for the ensuing year :

Chairman, Mr. Samuel H. Corse

Secretary, Mrs. Marian N. Pierce

Mr. Austin submitted a written report of his work during the first three months of his superintendency. With this report were six carefully prepared charts, showing the results of the recently adopted reading syetem. According to these charts, good progress appears to have been made, this progress being the greatest in the younger grades, where the pupils have had the fullest amount of instruction under the new system.

Mr. Austin also reported that he, with the teachers of the three towns, was working on the selection of a suitable arithmetic text which would be put in service September, 1941, in all of the Union Schools. Samples of textbooks under consideration were on hand for examination by members of the Union Committee.

After careful consideration of a proposal by Mr. Austin regarding clerical assistance for the Superintendency, it was agreed to employ Miss Florence Washburn of Carver as clerk for all towns in the Union.

It was voted that Mr. Austin's three year term of office, originally beginning January 1, 1941, be advanced to begin August 1, 1941.

On November 14, 1941, the Union Committee held its semi-annual meeting at the New Waterman School, Rochester. Following an inspection of the recently remodelled school building, Mr. Austin read his report covering the work of the schools during the past six months, and also containing suggestions for future needs.

In September the new textbooks in arithmetic were put into use in all the schools of the Union. As our present textbooks in history, geography and literature are not only in poor condition but inadequate for present needs, it was agreed that textbooks in these three subjects should be selected to be put in use in September 1942.

In order to provide extra reference and textbooks for teachers, it was agreed that Mr. Austin submit to the Union Committee a list of suitable books, cost not to exceed \$50.00, to be purchased as a start for a Union library which may be loaned to the teachers for study and improvement.

In June 1941, Mr. Austin received the degree of Master of Education from the Harvard Graduate School of Education. Although he took over this Superintendency in the middle of the school year, he has succeeded in carrying on the improvements already instituted with no confusion or loss of time. Under his able supervision we know that we can look forward confidently to continued improvement during the coming year.

Respectfully submitted,

MARIAN N. PIERCE,

Secretary.

ARTHUR G. BURBANK

1941

Born in Plymouth, June 10, 1887

Came to Carver at age of three years. After attending the Carver Public Schools he took a course in Marine Engineering on board U. S. S. Enterprise. During the first World War he served as Senior Lieutenant and Chief Engineer of Naval Reserves on various ships.

He was a member of the Julian M. Southworth American Legion Post, No. 164, and for many years a member of Captain William S. McFarlin Camp, No. 132, Sons of Union Veterans. He was also a member of Harwich Lodge, A. F. & A. M.

He became manager of the Churchill Cranberry Co. in 1922. This position he held until the time of his death.

Interested in public affairs he was elected an auditor in 1930, holding this office until his passing away December last.

His ability to make friends, his quiet and retiring life, his unusual sense of humor made for him a place in the hearts of his fellowmen which will long be remembered.
