THE NATION'S BEST—Mr. Cranberry Grower—and there isn't a close second—H. Clayton (Clate) McFarlin who raised more barrels of cranberries per acre, over a longer period, than any man who ever lived. His Paul Bog in one season averaged better than 425 barrels to the acre.

In the long era when the cranberry industry was prosperous, Mr. McFarlin both pruned and weeded his better than 30 acres of bog alone, and behind his cranberry pickers. His pruning, and it had to be right, was done by jack-knife. The weeding—and any weed was intolerable to “Clate”—meant getting the roots as well as the top and he cared not how long it took.

During the berry-growing season, shoes were not allowed on “Clate’s” bog, and his sanding was done with microscopic eyes. He had little use for a cranberry scoop and less for a mechanical picker, using either only when forced to do so. Snapping berries—costly harvesting—was the only picking process that would leave his vines in proper condition, and after a crop had been harvested there was little evidence that anyone had been on his bog. He gladly paid the price and his berries were sought across the country.

Clate hated to have water or fertilizer on his bog, using both only as a final alternative. During the summer one could walk his main ditch without dampening the bottom of his feet. He is quoted as saying "the misuse of water is the industry's greatest hazard." And, he is further quoted: "No one has effectively challenged that point."

As an employer, Mr. McFarlin was exacting, but he never asked any worker to do what he, Mr. McFarlin, couldn't. And "Clate" at his best never scaled more than 130 pounds.

A fetish with Mr. McFarlin, and a good one, was his frugality. Clothes meant nothing to him unless he was unable to find a patch to put on top of a patch. And that also went for his head wear and foot wear. However, his generosity for practically any worthy purpose, and it was invariably anonymous, was considerable.

Clayton McFarlin's talents were varied. As a surveyor, with more than 60 years experience, he had few, if any, superiors. As a Carver town official—especially as a long-time assessor from March 1916 until March 1930—he was meticulous and fair. His knowledge of Carver's history probably has no present counterpart, and to find an equal one might have to go back to the late Henry S. Griffith.

With the death of H. Clayton McFarlin, not only did the nation lose its greatest cranberry grower, and the town one of its most able servants, but one of the Henry Thoreau breed—and it is a rare breed—one who cared and dared to live his life to the fullest.

ANNUAL TOWN MEETING

March 10, 1962

The Annual Town Meeting of the Inhabitants of Carver was held at the Governor John Carver School on March 10, 1962. The meeting was called to order at 2:00 o'clock, P. M., by the Moderator, Bradford H. Cole, and the Invocation was offered by the Rev. Lawrence French, Pastor of the First Baptist Church. Article I, relating to the election of officers, having been disposed of at a prior meeting, the meeting proceeded to act upon the Articles in the Warrant, beginning with Article 2, as follows:

Article 2. VOTED to authorize the Town Treasurer, with the approval of the Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1962, and to issue a note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than one year in accordance with Section 17, Chapter 44, General Laws.

Article 3. VOTED to appropriate the sum of \$1500.00 from free cash in the Town Treasury for the sole purpose of meeting charges against the Cemetery Funds in the Town Treasury.

Article 4. VOTED that the Dog Fund in the sum of \$359.84 be applied to the Library Account.

Article 5. VOTED to raise and appropriate the sum of \$100.00 for County Aid to Agriculture. Mr. Earl E. Boardway was unanimously elected Town Director County Aid to Agriculture.

Article 6. VOTED to transfer from the Overlay Reserve Account to the 1962 Reserve Account the sum of \$5000.00.

Article 7. VOTED to fix the salary and compensation of all elective officers of the Town, such salaries to be retroactive to January 1, 1962, as provided by General Laws, Chapter 41, Section 108, as amended, namely:

Highway Surveyor	\$100.00 per week
Town Treasurer	2100.00
Town Clerk	800.00
Tax Collector	2100.00

Moderator \$20.00 for the Annual Town Meeting, and \$5.00 for each Special Town Meeting. Members of the School Board \$3.00 for each meeting, plus \$1.50 for all meetings of over two hours. All other elective Town Officers, \$1.50 per hour.

Article 8. VOTED to choose all necessary Town Officers not elected by ballot. Thereupon, the following officers were duly nominated and unanimously elected: Field Drivers and Pound Keepers - Raymond A. Parent, Theodore E. Halunen, David B. REPORT OF THE HIGHWAY SURVEYOR

To the Honorable Board of Selectmen
Carver, Massachusetts

Gentlemen:

The Chapter 81 allotment of \$24,750.00 of which the town appropriated \$6,600.00 and the State \$18,150.00 must be used for maintenance purposes only. Out of this amount approximately \$11,670.00 was used to purchase and apply 38,900 gallons of asphalt for sealing the streets. The remaining \$13,080.00 was used for patching, catch basins, culverts, shoulders and other miscellaneous maintenance operations.

The Chapter 90 allotment of \$34,000.00 of which the town appropriated \$8,500.00, the County \$8,500.00 and the State \$17,000.00 was used on two streets. \$24,000.00 was allotted for Main Street where 1400 feet of road was completely built to a width of 26 feet with proper drainage, nine inches of new gravel and approximately 700 tons of Bituminous Concrete Type I surface applied.

The remaining \$10,000.00 was spent on Tremont Street where 1600 feet of the existing 18 foot road was widened to 26 feet with 9 inches of gravel and three inches of type C 1 was applied.

1962 REPORT OF THE LIBRARY TRUSTEES

To the Honorable Board of Selectmen
Carver, Massachusetts

Gentlemen:

The outstanding single non-fiction purchase in 1962 was the Dictionary of American Biography in eleven volumes, a work now found in even the small libraries and used extensively by the High School students.

We are grateful to the donors of many good books and magazines offering a greater variety in reading material, and the picture puzzles the children have enjoyed. The regular visits of the bookmobile play an important part in making available to our readers many books we couldn't possibly purchase.

The newly organized Carver Garden Club has afforded the patrons and visitors much pleasure with artistic arrangements of garden flowers, grasses, berries, and a clever little winter version of Huckleberry Finn has been a delight to young and old for many weeks.

The increasing number of parents who bring their children to explore in the world of books has boosted the circulation figures once again, and the library trustees and staff wish to thank all these friends and patrons for their spirit of helpfulness and co-operation in carrying on the work of a growing educational institution.

This year a U. S. survey was completed which adds information to the usual annual statistics which you may find interesting.

The number of hours the library is open to the public has been increased to ten: Tuesday and Wednesday evenings 6-9 P. M., and Saturday afternoons 1-5 P. M.

A cordial invitation is extended to all townspeople to come and visit their library, become regular borrowers, and prove that reading can be fun!

Four Sabin oral polio vaccine clinics were held in May when 770 people received Type I. In June three clinics were held and a total of 642 persons received type III vaccine. The State Health Department provided vaccine for pre-schoolers and first graders; Carver Board of Health supplied the vaccine for the remainder of the population.

Mrs. Paul Williams, Mrs. Theodore Halunen and Miss Marjorie Shaw, R.N., assisted with these clinics.

Mrs. Bernadine Tassinari, State Dental Hygienist, examined the teeth of all pupils and sent notices home with those requiring treatment. Dr. W. Vernon Mayo has completed physical examinations on Grades 1, 4, and 7, as well as basketball players. In September, Dr. Mayo administered the Heaf Tuberculin Test to 316 students. This program is sponsored by the Plymouth County Health Association, and will be continued next year in grades 1, 4 and 7. Mrs. Carl Johnson and Mrs. Christine Harrington volunteered their services for this clinic. Our sale of T. B. pins netted \$13.80 this year.

All studentts have had the Mass. Vision and Audio Test and notices have been sent home on failures.

The film "The Story of Menstruation" was shown to girls in grades 5 through 8 and "Human Growth" to 7th and 8th grade pupils who had their parent's permission, as part of a Health Education Program.

The Junior Red Cross, through our representative, Mrs. Wright, has approved the repair of glasses in a needy family.

Mrs. Eleanor Bishop, R.N. and Mrs. Genelda Johnson, R.N. relieved during the nurse's two week's vacation and one week's leave of absence in August.

I wish to thank The Public Health Nurse Committee, Mr. Richard J. Eldridge, Principal, the School Committee, parents, and teachers, for their cooperation.

REPORT OF THE PLANNING BOARD

To the Honorable Board of Selectmen
Carver, Massachusetts
Gentlemen:

The Planning Board submits the following activities for the year 1962:

A public hearing was held Jan. 17, 1962 to discuss proposed rules and regulations pertaining to the subdivision of land in the Town of Carver.

Rules and Regulations pertaining to the subdivision of land were adopted by the Planning Board and duly filed with the Register of the Land Court in Boston and the Register of Deeds for Plymouth County with an effective date of Feb. 6, 1962.

Eight plans were submitted to, and endorsed by, the Planning Board as not coming under the Subdivision Control Law, therefore not requiring further action by the Board.

A public hearing was held and a definitive plan approved for a proposed subdivision to be known as "Cranberry Heights" consisting of six lots and located on the southeasterly side of Wenham Road.

The first draft of proposed Protective By-laws was presented at a public hearing held in two sessions on Dec. 11 and Dec. 17, 1962 respectively.

It is planned for another public hearing to be held at a date to be announced in 1963 to discuss revisions of the first draft of the Protective By-laws before presenting to the Townspeople for a vote.

REPORT ON PUBLIC WELFARE

To the Honorable Board of Public Welfare:

I hereby submit my report on Old Age Assistance, Medical Assistance for the Aged, Aid to Dependent Children, Disability Assistance, and Public Welfare for the fiscal year ending December 31, 1962.

During the year fifty-nine applications were processed and disposed of as follows:

Approved	35
Referred to other agencies	3
Withdrawals	6
Denied	15

Eleven notices were received from other cities or towns; three were denied and eight were acknowledged to be Carver settled cases.

During the year thirty-four cases were closed for the following reasons:

Transferred to other categories	3
Transferred to other towns	3
Transferred to an institution	3
Moved from the Commonwealth	1
Employment found	1
Resources available	4
No further need - medical	5
No further need - temporary aid	6
Ineligible	2
Deaths	6

A gradual decrease is noted in Old Age Assistance cases. At the beginning of the year there were thirty-two cases and on 12/31/62, twenty-eight cases. Seven new cases were added and eleven cases closed, two being transferred

to the Medical Assistance for the Aged program. Expenditures decreased from \$36,681.39 to \$28,916.41. This was due to a decrease in caseload and the fact that cases with high medical costs are being aided under the Medical Program.

Disability Assistance expenditures increased from \$1,201.50 to \$5,594.96, the result of five new cases added during the year. On 1/1/62, only one case was being aided and on 12/31/62, the caseload totaled five. Five cases were added during the year and one case closed.

On 1/1/62, eight cases were being aided under the Medical Assistance for the Aged program and on 12/31/62, six cases remained. Seven new cases were added and nine cases closed. \$16,636.18 was expended during the year as against the previous year of \$16,032.29. A fifty percent reimbursement on medical assistance is received from the Federal Government.

Aid to Dependent Children cases totalled two on 1/1/62, and four on 12/31/62. Four new cases were opened and two cases closed. Twelve children and six parents were aided. Expenditures decreased from \$5,291.15 to \$3,841.41. A plan for intensified services to Aid to Dependent Children families has been put into effect in all of the public welfare agencies in the Commonwealth. The major objective which public welfare agencies expect to achieve in working with families is the improvement of social services to strengthen family life, the safeguarding of children in hazardous home conditions, and the reduction of dependency through an effective program of rehabilitation services.

Social services in public assistance families center around the basic social areas of Home Setting, Homemaking, Physical and Mental Health, School Achievement, Social Functioning, Parental Role, and Employment and Rehabilitation Potential, as well as Support Status.

Public Law 87-543 requires that extended social services shall also be provided for aged and disabled individuals. The general purposes of providing such services are to help families and individuals to maintain or restore themselves as useful, productive individuals by assisting them to become self-supporting, able to care for themselves and to afford them the opportunity to participate in community life.

I wish to express my appreciation to the Board members for their full cooperation during the year.

PLYMOUTH COUNTY MOSQUITO CONTROL PROJECT

In reporting the project's activities and accomplishments in 1962, there have been successful advances made toward the program's main objectives.

We are always happy to report that no single case of equine encephalitis was recorded in the county. There was considerable concern in mid-July by the project and the U.S. Public Health Service as surveys indicated a heavy population of vector species mosquitoes and virus in bird life.

Again, this condition centered in and adjacent to the "Hockomock Swamp" and with adequate project funds always established for that area, we tripled our aerial spray efforts in the swamp over the previous seasons. This was a pre-hatch treatment the first week in August and all later surveys showed good control.

The co-ordinated efforts of the programs in Bristol, Norfolk and Plymouth Counties have certainly reduced our hazard of an outbreak of this disease.

In all other areas our residual spray control and pre-hatch treatment of breeding wetlands was most successful this year, several factors contributed to this effectiveness. 1: We did not have the frequent showers this summer to void the results of spray efforts. 2: In each town we have continued on our drainage program to eliminate stagnant breeding wetlands, while this is a slow and expensive method, it is positive mosquito control and the most economical in the long run. 3: The experience of our personnel and their added knowledge each season of mosquito problems in their district is very apparent.

With the increasing concern on the possible hazards of carelessness in the use of insecticides, your superintendent has just completed forty years of experience in the using of all pesticides and you may be assured that all of the project

personnel have been thoroughly schooled in the proper and safe use of each insecticide involved in our program.

We appreciate and want to thank all town officials and personnel who have continued to cooperate with us in our program.

Respectfully submitted,

WARREN G. HARDING

PLYMOUTH COUNTY AID TO AGRICULTURE

By ROBERT B. EWING,
County Agent Manager

A review of last year's report would show that an attempt was made to answer the question—"What is the Extension Service?" The report stated that in 1914 Congress passed the Smith-Lever Law which clearly stated, that the Extension Service shall "aid in diffusing among the people of the United States useful and practical information on subjects relating to Agriculture and Home Economics, and to encourage the application of the same."

The Extension Service has always been known as "the educational arm" of the United States Department of Agriculture and the title "Cooperative Extension Service" is used because Federal, State and County Governments cooperate in furnishing this service to the citizens of Plymouth County. Each year agreements are written between the United States Department of Agriculture, the University of Massachusetts, and Plymouth County.

Since 1915, when the Plymouth County Extension Service was organized and established, educational information pertaining to Agriculture, Home Economics and 4-H Work has been given free to citizens of Plymouth County.

Although methods may change with the times, the basic job of the Extension Service remains the same, and that is, as the 1914 Law states, "to aid in diffusing among the people of the United States useful and practical information on the subjects relating to Agriculture and Home Economics and to encourage the application of the same."

The Extension Service office is located in the Court House, Brockton, Mass. and is staffed by agents who conduct programs in Agriculture, Home Economics and 4-H Club Work by furnishing educational information through farm and home visits, letters, newspaper articles, radio talks, meetings, office visits and telephone calls.

Federal, State and County funds are used for conducting the Extension Service programs. Along with these funds, most towns in Plymouth County make an annual appropriation which is used for the general expenditures of the Plymouth County Extension Service. Town Directors are appointed in those towns where an appropriation is made. These Town Directors are unpaid volunteer leaders who serve as the Extension Service representative in their respective town.

All citizens should make full use of their Extension Service as it is supported by Federal, State and County Governments. It should be remembered that while the Extension Service furnishes the information it is up to the individual citizen who receives this information to decide how it can be used to best advantage.

Requests for information can be directed to the Plymouth County Extension Service, Court House, Brockton, Massachusetts.

The Board of Trustees, appointed by the Plymouth County Commissioners, administer the Plymouth County Extension Service program and is composed of the following members:

MR. JOHN PRENTICE, Plymouth, Chairman
MRS. ELVA BENT SWARTZ, Brockton
MR. LEWIS BILLINGS, Plympton
MRS. MABEL CHANDLER, Duxbury
MR. JOHN DUFFY, Halifax
MRS. GLADYS GIBBS, Hanover

STATE AUDIT

To the Board of Selectmen

Mr. Frank R. Mazzilli, Chairman
Carver, Massachusetts

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the town of Carver for the period from August 14, 1960 to January 27, 1962, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. William Schwartz, Assistant Director of Accounts.

Very truly yours,

ARTHUR H. MacKINNON,

Director of Accounts

AHM:GBS

Mr. Arthur H. MacKinnon

Director of Accounts

Department of Corporations and Taxation

State House, Boston

Sir:

In accordance with your instructions, I have made an audit of the books and accounts of the town of Carver for the period from August 14, 1960, the date of the previous examination, to January 27, 1962, the following report being submitted thereon:

An examination and verification was made of the financial transactions as recorded on the books of the several departments receiving or disbursing money for the town or committing bills for collection.

An analysis was made of the accounting officer's ledger for the period covered by the audit. The receipts were checked with the treasurer's books, and the payments were compared with the warrants authorizing them and with the treasurer's records of payments. The appropriation accounts were checked with the town clerk's records of town meeting

proceedings, and the recorded transfers from the reserve fund were verified by comparison with the records of the finance committee. The necessary adjusting entries resulting from the audit of the several departments were made, and a balance sheet, which is appended to this report, was prepared showing the financial condition of the town on December 31, 1961.

The books and accounts of the town treasurer were examined and checked. The receipts were checked with the records of the several departments collecting money for the town and with other sources from which money was paid into the town treasury, while the payments were compared with the selectmen's warrants authorizing the treasurer to disburse town funds.

The cash book footings were verified, and the cash balance on January 27, 1962 was proved by actual count of the cash in the office and by reconciliation of the balance in the checking account with a statement furnished by the bank of deposit.

The records of tax titles held by the town were examined. The taxes, interest, and costs transferred to the tax title account were compared with the collector's records, the reported redemptions were checked with the treasurer's cash book, and the tax titles on hand were listed, reconciled with the accounting officer's ledger, and compared with the records at the Registry of Deeds.

The transactions of the trust and investment funds in the custody of the town treasurer and the trustees were verified, and the savings bank books and securities representing the investment of these funds were examined and listed.

The recorded payments on account of maturing debt and interest were verified by comparison with the amounts falling due and checked with the cancelled securities on file.

The records of payroll deductions on account of Federal and State taxes, retirement systems, Blue Cross and Blue Shield, and group insurance were examined and checked. The payments to the proper agencies were verified, and the

balances on hand to the credit of the employees were proved with the town treasurer's records.

The books and accounts of the tax collector were examined and checked. The commitments of taxes and excise were proved with the assessors' warrants issued for their collection, the payments to the treasurer by the collector were checked with the treasurer's cash book, the abatements, as recorded, were compared with the records of the assessors, the transfers to the tax title account were verified, and the outstanding accounts were listed and proved.

The departmental accounts receivable were audited and proved. The payments to the treasurer were checked with the treasurer's recorded receipts and the outstanding accounts were listed and proved.

The outstanding accounts were verified by mailing notices to a number of persons whose names appeared on the books as owing money to the town, the replies thereto indicating that the accounts as listed, are correct.

The records of receipts from licenses and permits issued by the selectmen, the town clerk, the building inspector, and the police department were examined and checked, and the payments to the State and to the town treasurer were verified.

The surety bonds of the town officials required to file them for the faithful performance of their duties were examined and found to be in proper form.

The available records of receipts of all other departments collecting money for the town were examined and checked, and the payments to the treasurer were verified.

In addition to the balance sheet, there are appended to this report tables showing a reconciliation of the treasurer's cash, summaries of the tax, excise, tax title, and departmental accounts, as well as schedules showing the condition and transactions of the trust and investment funds.

While engaged in making the audit, cooperation was received from the officials of the town, for which, on behalf of my assistants and for myself, I wish to express appreciation.

REQUIREMENTS FOR ADMISSION TO FIRST GRADE

1. A child who will reach his sixth birthday on or before December 31st may be admitted to the first grade in September, 1963 without examination.
2. A child whose sixth birthday occurs in the two months after December 31st may be admitted the preceding September if readiness for school can be demonstrated by means of appropriate tests. Parents having a child whom they wish to be examined under this rule are required to make application to the Superintendent of Schools on or before August 15 preceding the opening of school in September. A special form will be furnished for this purpose upon written request from the parent.

The School Committee reserves the right to withhold the examination privilege whenever the number of children eligible to enter without examination is equal to the capacity of the available classrooms.

CLOSING OF SCHOOLS

It is the policy of the School Committee to close school only under the severest weather conditions or on such occasions when it is dangerous to operate school busses. At other times, parents are expected to use their own judgment in sending children to school. When a decision to close schools has been made, this information will be broadcast through the courtesy of radio stations WBZ and WNBH and WPLM. The no-school signal will also be given on the local fire warning apparatus. This signal is two short blasts sounded three times.

It should also be remembered there are occasions when under the stress of storm conditions the telephone service cannot keep up with the demands and it is impossible to reach radio stations in order to have an announcement made.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Members of the Carver School Committee:

The report of the superintendent and others, as submitted, constitute the report of the School Committee for the calendar year 1962.

The enrollment in the schools is up over the figure for last year. There are approximately twenty-five more children in the elementary grades and the high school figure has increased by twenty-one. The primary grades have been started for the last two years on the basis of having two sections of the grade as the enrollment in the first and second grades has been fifty or more for each group. There is evidence this trend will continue; because of this it is easy to see that there will have to eventually be provision for two sections of each grade in the school. This will lead to the need for facilities which will provide a minimum of seventeen regular

classrooms, plus the usual auxiliary rooms. In order to meet this need and provide for the immediate problem, the School Committee authorized the expenditure of surplus funds for the preparation of the basement of the Benjamin Ellis School for two classrooms, to be opened in September, 1963. This will meet the problem for the moment and will enable the town to have a period of time to consider how the problem can best be met over the years ahead. The state office of the Department of Public Safety has given its approval to the use of the basement for two classrooms on a temporary basis, pending the future decision of the town on the final solution. The rooms as prepared will be very satisfactory for use for a short period of time.

The high school pupils, attending out of town, had to be placed in two different situations due to space problems. Middleboro notified the Carver department it would be unable to offer high school instruction to pupils in grades nine and ten. These pupils could be accommodated for one year at the Apponequet Regional High School. Grades eleven and twelve remained at Middleboro. The opening of the Plymouth-Carver Regional High School in September, 1963 will put an end to the problem of secondary school accommodations for all time. Those who will be seniors the next school year will have the privilege of completing their high school work at Middleboro if they choose to do so.

The practice was established for the first time this year of having a summer session for those pupils needing extra help in their subjects. It was set up so that attendance was voluntary in nature. The results were very satisfactory. Approximately forty-five pupils took part. Courses were arranged for aid in Reading and Mathematics. Because of the excellent results and the many fine comments received from parents about it, the plan will be continued for the next summer vacation in 1963.

There have been a number of staff changes to report for the record and these are set forth in detail in the principal's report. We note, particularly, the retirement of Mrs. Alice R. Shurtleff who served the children of the town in various grades over a number of years. Mrs. Shurtleff always approached her work with humility and consideration and her attitude toward her responsibilities was an example to all. It is unfortunate that schools have to lose the services of devoted teachers. We take this opportunity to express our best wishes to Mrs. Shurtleff for a long and pleasant retirement.

We continue to have more change in teaching assignments than is good for a school system but there seems to be nothing which can be done to prevent it. The younger people are the ones who are seeking the teaching positions in greatest numbers but they are equally the ones who are most likely to have reason to leave within a short time.

Considerable attention has been put on the maintenance of the property this year. The auditorium of the Governor John Carver School was painted and other minor areas were also repainted. Fixed seating was refastened and the pumping equipment replaced at the same school. The constant problem of maintenance requires considerable time and numerous decisions but is unavoidable if the property is to be kept up.

The transportation contracts were due for review and rebidding during the year 1962. The specifications were prepared so that the bids might be sought for the several varieties of services required. Where the high school population would be attending in different places, on different schedules and for varying duration, the specifications had to reflect this. Bids were awarded which permitted service to Apponequet for one year, to Middleboro High School for two years and the local schools for three years.

Bids were awarded to the following and in the amounts set after their names:

Sarah Holmes -

High School: Apponequet, 1 year	\$6,045.00
High School: Middleboro, 2 years	990.00 per year
Elementary: (3 years)	12,910.00 per year

Aime Desroches -

High School: Apponequet, 1 year	4,500.00
Elementary: (3 years)	6,190.00 per year

On a later date bids were called for furnishing transportation to the Vocational School at New Bedford and the award was made to the low bidder, Aime Desroches, for \$5,100.00 This contract was for a three year period.

The problem of Civilian Defense plans for the schools has been in our minds this year. The Cuban crisis which developed in the fall pointed the need for us to take some definite measures and to develop plans for what might be done in case of a situation where actual hostilities were imminent. After considering the possibilities and the degree of shelter our school buildings offered, it was the decision of the school committee and administration that if time would permit, children should be taken to their homes. A trial evacuation was conducted which worked very satisfactorily. Judging by our experience with this, we believe we could get all elementary children to their homes within one-half to three-quarters of an hour after receiving a warning. It may be possible to do slightly better than this after having had the experience of a trial run. Although world tensions seem to have modified somewhat as relate to the American shores in the last month, we expect to continue to keep a useable plan in mind for emergency purposes.

One of the continuing and pressing problems which the School Committee has to meet is the matter of adequate salaries for teachers. There is no question about the fact

there is a change taking place in the rate of pay teachers are receiving and Carver must compete in this respect if it is to get the staff it needs to carry on the work of the schools. The 1962 legislature revised the law respecting minimum salaries for teachers upward by \$500.00 so that the new minimum, effective January 1, 1963, will be \$4,500.00. This action caused the need for a general adjustment in the whole scale of pay for Carver teachers. The budget prepared by the committee for 1963 will reflect this change.

Also, in the same connection with salaries and the future, the Committee contemplates changing its membership from the present combination with Union No. 34, Lakeville and Freetown, and forming a Union with Plymouth. Where the town will be joined with Plymouth both in a Union and in the Regional School District, it is imperative that effort be made to pay salaries comparable to the practice of a member of the same Union. Even without this consideration, the need is there for there is firm competition in the present times for elementary teachers.

During the spring and early summer months the superintendent was obliged to have a leave of absence for health reasons. During his absence from the position, the Principal, Mr. Eldridge, was appointed by the committee to be acting superintendent. Mr. Eldridge carried out his added duties in a highly commendable way.

As it is anticipated the Union alignment will have been changed by the middle of the next year, this is probably the last annual report this superintendent will write for the Town of Carver. By the next June 30th we shall have had twenty-two and one-half years together in which we have been trying to meet the problems of education as they have arisen. I am personally grateful for the opportunity to have served the town and happy in the knowledge the schools, both for the elementary and secondary pupils, are in a far

more highly developed state than found in 1941. This, however, is not the work of any one person. Rather, it represents the fact the Carver people, through their elected representatives on the school committee and special committees, have met their problems as they have been shown the need. It is only in this way that communities can make progress. It is my earnest hope you will continue to meet your problems in the same way in the years ahead.

Respectfully submitted,

GEORGE R. AUSTIN

**REPORT OF THE PRINCIPAL OF THE
CARVER PUBLIC SCHOOLS**

To the Superintendent of Schools:

I herby submit my report as principal of The Governor John Carver School and The Benjamin Ellis School for the calendar year 1962.

A most successful Second Annual Science Fair was held at the Gov. John Carver School on Saturday, February 17, under the direction of co-chairmen Mr. William A. Levesque and Mrs. Hazel F. Carmichael, at which a great variety of exhibits were displayed. These exhibits were judged by teachers representing various areas of science, who came from neighboring communities. Judging was done on the basis of application of science principles, originality and ingenuity, and knowledge of science principles involved in the exhibit. Fine prizes were awarded to the following students on the basis of the judges' scorings: Linda Washburn received the Grand Award for the second consecutive year for her exhibit on "Protozoan Life"; the second prize was awarded to Susan Dunham who demonstrated a project on weather; Lorna Washburn received third prize for her project "A Volcano in Action." Pins were also awarded to the students with the best homeroom exhibits.

The spring music program, anticipated in last year's report, became a reality in May. Mr. Donald Morrison, our music supervisor, conducted our first Spring Music Festival on May 3. This program featured a presentation of "Hansel and Gretel" by pupils of Grades 4-6, followed by a number of musical selections by The Junior High School Glee Club. Parental reactions were so gratifying that we hope to continue this as an annual affair.

On May 31 and June 1 all entering first grade pupils and their parents were invited to an informal Open House

and Registration Day at The Benjamin Ellis School. This afforded an opportunity to all concerned to acquaint themselves with the bus routes, the school building and personnel, and the school lunch program.

Graduation exercises were conducted on Thursday, June 12. "Careers" was the theme of this year's program and three awards were presented to those who had written the best essays on this theme. Jose Antonio Guilbe was presented the American Legion Essay Award by Commander Leslie Telless. The Community Service Group Essay Award was presented to Linda Ann Perry by President Constance Shaw. Selectmen Frank Mazzilli presented the Selectmen's Essay Award to Linda Lou Washburn. A trophy for the 8th grade girl who was outstanding in Home Economics was presented to Marcia Lopes by our Home Economics teacher, Mrs. Hilda Buck.

This year, for the first time in our history, we conducted summer classes at The Gov. John Carver School for a period of six weeks. The school was organized for the benefit of those who wanted to maintain a serious effort to correct any deficiencies or to lay stronger foundations for work previously done. Emphasis was placed on Reading and Arithmetic. Regular attendance was required and pupils furnished their own transportation. It is difficult to make a complete evaluation of this type of program. However, we do feel that the achievement test results, as well as the class work this fall of the forty-eight children who availed themselves of this opportunity, warrant the continuation of this program as well as, possibly, broadening the curriculum.

There have been many staff changes due to resignations. The first of these occurred in March when Mrs. June Mendell resigned and Mrs. Margaret Schindler replaced her until June when she in turn resigned. Miss F. Elizabeth Standley, who had married during the year to become Mrs. Farnham, also resigned in June. It was with deep regret that we saw Mrs. Alice R. Shurtleff, an exceptional teacher of much experience and one who was well loved by all, retire. Mr. William Johnstone, our shop instructor, resigned during the summer. Unfortunately, part-time shop instructors are not easily obtained and we were forced to discontinue Shop for boys for this year. Also Mrs. Hilda Buck, our Home Economics teacher, resigned her position during the summer, and Mrs. Ralph Gates of Middleboro accepted the position and has a well-organized program in operation this year. This fall Mrs. Constance Shaw, who had directed the Physical Education program for Grades 1-6 and for girls of Grades 7 and 8, resigned. This position has not been filled as of the end of 1962.

We have been fortunate in acquiring the following three teachers to fill vacancies on the staff: Miss Barbara Eayrs,

a graduate of Colby College, to teach Grade 2; Miss Janet Parker, a graduate of The University of Massachusetts, to teach Grade 3; and Mrs. Eleanor DeCourcy, a graduate of Colby College, to teach Grade 4.

During the past few years numerous changes have taken place in the field of Mathematics due to (a) research in mathematics, (b) automation, and (c) automatic digital computing machines. Mathematics itself has changed little. However, the methods of teaching Mathematics are in the process of a drastic change. In order to keep ourselves informed on these trends the teachers of the Carver Public Schools are enrolled in a Mathematics Workshop which is being conducted at Apponequet Regional High School for a period of twenty weeks. This program should help us to compare the New Mathematics with our Traditional Mathematics and to determine the need for such a change in our school system.

American Education Week (Nov. 11-17) was a busy week in The Carver Public Schools. Approximately 100 parents accepted the invitation to view the hot lunch program and dine with their children. This has been so successful it has become an annual affair.

On Wednesday of American Education Week a program geared to providing parents with information about the different aspects of the curriculum was held at The Gov. John Carver School. Parents had the opportunity to hear speakers and to question them on the following topics: "Our New Reading Program," "Our Music Program," and the new science equipment purchased under N.D.E.A., Title III.

The first Christmas Music Festival was held at the Gov. John Carver School on Wednesday evening, December 19. An operetta, based on the familiar Christmas tune, "The Twelve Days of Christmas," was presented by the children of grades 2-6. Following the operetta, it was my pleasure to present to Mr. Morrison, as faculty sponsor, the charter of

Chapter No. 683 of The Modern Music Masters Society of the Gov. John Carver School. Thus we are now affiliated with The Modern Music Master National Honor Society. The purpose of this society is to inculcate within the student a greater interest in music and its related areas. The evening's program then ended with selections of both familiar and new Christmas Choral Music offered by the Junior High School Glee Club.

The annual magazine drive this year netted the school \$509.79 and a profit of \$92.35 was realized from the sale of photographs. Funds collected for insurance and charitable organizations were as follows:

Insurance	\$328.50
Junior Red Cross	63.74
Plymouth County Health Assoc.	13.80

Total	\$406.04

Our lunch program continues to be self-supporting in spite of the rise in costs. We are perhaps the only school in the state which has been able to continue to charge \$.20 for a school lunch. The capable management of Mrs. Irene Williams accounts for this. We are fortunate to have a cafeteria manager who has such a sincere interest in the program. The financial statement of our lunch program is as follows:

Receipts:

Balance on Hand Jan. 1, 1962	\$644.92
Sale of pupil's lunches	10,295.78
Sale of teacher's lunches	951.96
Reimbursements from State	4,425.08
Other Income	188.67

	\$16,506.41

Expenditures:

Food	\$8,867.77
Wages	5,902.77
Services	705.74
Supplies	392.30
Equipment	530.84

\$16,399.42

Balance with Town Treasurer \$106.99

An effective school system is dependent upon the co-operative efforts of all those connected with the program. Here, in Carver, we have enjoyed this type of harmony and the Staff and I wish to convey our thanks to the parents, Mr. Austin, and the School Committee, for the fine support they have given us during the past year.

Respectfully submitted,

RICHARD J. ELDRIDGE

REPORT OF PLYMOUTH-CARVER REGIONAL SCHOOL DISTRICT

The Plymouth-Carver Regional School District Committee has concerned itself during the past year with the construction of the new school on the site on Obery Street. Our intention is to have the construction completed for occupancy in September of 1963. At the time of this report, there appears to be no reason for our not having classes in the new school on that date.

Construction has been in two phases: the first contract was let to Eastern Tree & Landscape Corp., of Dedham, Mass. Their contract of approximately \$91,500 involved the clearing of the site, land compaction in the area of the actual building; general landscaping of most of the school site; and the development of the athletic playing fields. At this time, the playing fields have been laid out and will be ready for seeding this spring. It was our hope to have the football field seeded in the fall of 1962, so that interscholastic football could be played on the Obery Street site in 1963. Unfortunately this was not accomplished by the contractor, in spite of repeated pressures by the Committee. We will have to utilize the John Seaver Memorial Field on Standish Avenue next fall through the courtesy of the Plymouth Park Department.

The building construction is being done by J. L. Marshall & Sons of Pawtucket, Rhode Island. We have employed Mr. Marshall Jackson of Marion, Mass., as Clerk of the Works. As of this date, construction is proceeding rapidly; fortunately, we have not had any major delays either by material shortages, labor difficulties, or weather. The Committee has maintained a close watch on construction, and receives monthly progress reports from Mr. Jackson. Mr. F. Edward Nicolas, Superintendent of the Plymouth-Carver Regional School District, makes visitations to the site approx-

imately three times a week. In addition, the architects visit the site twice a week. With this amount of supervision, we believe that the towns of Plymouth and Carver can be reassured that the construction complies closely to the specifications.

Work is progressing in acquiring the necessary equipment, both fixed and movable, which will furnish the school. We believe that we are providing adequate equipment and have attempted to stress quality as a means of long range economy. We have been utilizing the services of Mr. Samuel Crabtree of Belmont, a professional school equipment consultant, for this purpose. Numerous conferences with the faculty and department heads have been held by the superintendent to ensure procurement of the needed equipment. Unfortunately, the amount of equipment that we will be able to move from the present Plymouth High School is limited in view of its age, and because much of it will be necessary for the Plymouth students who will continue to occupy the buildings on Lincoln Street. This amount of money is reflected in our construction budget for equipment.

As the result of the delays in construction caused by the failure of the first bond issue, new plans and specifications had to be prepared by the architects. We believe that because of this "second look," we have achieved overall a better school, however, we had to eliminate three classrooms. The architects' fees for the second plans (drawings and revisions) plus the cost of blue prints, amounted to approximately \$71,000. Because of this, and the necessity for equipment as already outlined, we have submitted articles to the two towns requesting appropriations of \$120,000 to complete construction. Whether this money is raised by bond issue or other means will be determined by the Finance and Advisory Committees of the two towns prior to Town

Meeting. Examination of the construction budget will make clear the need for the added sum of money.

During the past year, Mr. Julian Demeo of Wayland was appointed Headmaster of Plymouth High School. The decision to employ Mr. Demeo was made as a joint decision by the Plymouth School Committee and the Plymouth-Carver Regional School District Committee. Since October, Mr. Demeo, in cooperation with his faculty, has outlined a new curriculum to be effective in September of 1963. Copies of this curriculum have been given to all students entering Plymouth-Carver Regional High School next September. We believe that this curriculum represents what the two towns desire for the education of their children. It is not unique or radically new. It merely represents what every good high school in Massachusetts offers its students.

We expect to add some fifteen new teachers to the faculty when the school opens. This is not because this is a regional school, rather this is because we are opening a new school with added courses, an additional pupil load, and a desire to reduce the overcrowded conditions which we have suffered during the past few years. We intend to have a teacher-pupil load which is consistent with the students receiving adequate instruction.

The Plymouth-Carver Regional School Committee has a large job ahead of it. We have, we believe, excellent administrators who will make the job much easier for us. We will make policy, but leave the administration of the policy to our professional administrators. We have high ambitions for our school; a good sound education is the only heritage that we can leave our children. We are not attempting radical departures in education in the new school,

rather we hope to provide an educational facility that will fill the needs of all students whether college bound, or interested in business training or artisan trades. To this end, we believe that thus far, we have achieved our purpose.
