## In Memoriam

### FRANK H. COLE

*Fence Viewer* — 1930-1933  
*Surveyor of Lumber* — 1936-1939  
*Measurer of Wood* — 1941-1959  
*Soldiers Memorial Committee* — 1927  
*Finance Committee* — 1936-1940; 1942-1944  
*Selectman* — 1928-1934  
*School Committee* — 1947-1959

Born in Carver, a descendant of the Mayflower, Mr. Cole was the eighth generation to head Cole's Box Mill in North Carver, which was destroyed by fire in 1947. The 250-year-old business then was the oldest continuous family business in the country. He was also engaged in cranberry growing.

He served as a selectman from 1928 to 1934 and was on the School Committee from 1947 to 1959. He also served as a member of the Finance Committee. He was a parishioner of the First Congregational Church, North Carver.

A lifelong Republican, he served at various times as chairman and treasurer of the Town Republican Committee. He was a long-time member and former president of the Carver Old Home Day Association.

Among his many charitable interests for which he served as fund-raiser were the Jordan Hospital in Plymouth, St. Luke's Hospital, Middleboro, Boy Scouts, YMCA, Heart Fund, Cancer Fund and Infantile Paralysis. He also contributed to local sports organizations.

Survivors, besides his widow, Mrs. Florence J. (Shaw) Cole, are a daughter, Helen J. of Washington; three sons, Theron M. of Holden and Springfield, Ohio, Bradford H. and Lawrence S., both of Carver, and six grandchildren.

## *In Memoriam*

### **FRANK D. COSTELLO**

Frank D. Costello, 77, was born in Boston, son of late James J. and Catherine M. (O'Brien) Costello, and lived in Carver about 50 years. He also had resided in Wareham, Cincinnati, and in California.

He was a charter member of South Carver Grange and had been presented his 50-year pin. He was treasurer and general manager of Cranbrook Cranberry Company of South Carver; life member of Middleboro Lodge of Elks, director of Middleboro Co-operative Bank since 1936, president of Carver Old Home Day Association since 1957; one of the founders of Atwood and Costello Chevrolet Garage in Middleboro, former member of Carver Board of Selectmen and School Committee, and a member of Vero Beach Club in Florida. For many years the Costellos spent their winters at Vero Beach.

He is survived by his widow, Mrs. Elizabeth (Atwood) Costello of South Carver; one son, James G. Costello of Monterey, Cal.; a brother, Charles L. Costello of Cincinnati; six grandchildren and three great-grandchildren.

**SPECIAL TOWN MEETINGS**

**January 25, 1966**

A Special Town Meeting was held at the Governor John Carver School on January 25, 1966. The meeting was called to order at 8:00 o'clock, P.M., by the Moderator, Mr. Thomas C. Barham, and the meeting proceeded to act on the Article contained in the Warrant as follows:

Article I. To see if the town will vote to raise and appropriate the sum of \$35,000.00 or any other sum for the purpose of constructing, originally equipping and furnishing an addition to the Governor John Carver School (said sum to be in addition to the appropriation of \$260,000.00 made for the same purpose under Article 3 of the Warrant for the Special Town Meeting held on May 24, 1965) and to determine how any such appropriation shall be raised, whether by taxation, or by transfer of available funds or by borrowing or otherwise, and if by borrowing, to authorize the issuance and sale of bonds or notes of the Town, or take any other action relative thereto.

Thereupon, on motion duly made and seconded, it was VOTED, by standing vote, 38 voting in the affirmative and 2 opposed, "That in addition to the appropriation of \$260,000.00, made for the same purpose under Article 3 of the Warrant for the Special Town Meeting held on May 24, 1965, the town appropriate the sum of \$35,000.00 for the purpose of constructing, originally equipping and furnishing an addition to the Governor John Carver School, that to meet said appropriation the Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow the sum of \$35,000.00,

at one time or from time to time, under authority of Chapter 645 of the Acts of 1948, as amended, and to issue bonds or notes of the town therefor, payable in accordance with the applicable provisions of said Chapter 645, and Chapter 44 of the General Laws, so that each issue of bonds or notes herein authorized shall be paid in not more than twenty (20) years from its date.”

There being no further business to come before the meeting, the meeting adjourned at 8:10 P. M.

**ANNUAL REPORT OF  
CARVER CONSERVATION COMMISSION**

The Carver Conservation Commission has conducted eight meetings during the one-year period ending December 31, 1966.

Recognizing the need for the acquisition of a future water field, and feeling that the Great Cedar Swamp should be preserved as a natural resource, letters were sent to all owners of land in this large tract. To date, approximately forty acres are in the process of being deeded to the Commission as a gift from Mr. Harold A. C. Bumpus of Plymouth, and progress is being made in acquiring a total of twenty-five acres more from Mrs. Gladys Slater of Corpus Christi, Texas and Mrs. Marion S. Griffith and Mr. Robert Andrews, Sr., of South Carver.

The Carver Conservation Commission has been empowered to accept for the Town of Carver any parcels of land that the owners wish to be preserved for conservation purposes.

The Highway Department and Tree Warden have donated several days of labor for thinning and pruning of trees, and removal of debris in Savery's Avenue. The Commission appreciates the efforts of the Carver Garden Club for their plantings of native shrubs which enhance the beauty of the entrances to this historic avenue, and wishes to thank all those who have so generously donated their time and labor and materials.

The members of the Commission sincerely thank the Board of Selectmen for their cooperation and assistance.

## PLYMOUTH COUNTY MOSQUITO CONTROL PROJECT

I will briefly outline your Project's activities for 1966.

We are increasing expenditures in our budget for permanent control measures this past year, as we now have two power trenchers. The elimination of production areas and clearing waterways releasing stagnant waters, is proven mosquito control. Coastal areas that we have trenched to date show a marked decrease in the sollicitan mosquito. Larviciding with chemicals is the next positive approach to the elimination of larvae before emergence. This is costly and complex. Our appropriations will allow us to treat only a fraction of these wet areas. Some areas could not be treated even if funds were available. Wildlife sanctuaries, domestic watersheds, and fish producing water are not treated. These areas will also produce mosquitoes.

The culex mosquito is the most serious inland problem after the spring brood emerges in May. Our truck-mounted units are primarily for this purpose. Scheduled treatments to filter systems, dumps, catch basins and recreation areas are a must. Backyard treatments are a constant pressure to this project and not accomplishing our purpose for being. The homeowner himself has an obligation. Any and all water containers are a potential and probable source of mosquito breeding. Old tires, auto bodies, toys, birdbaths, clogged gutters, open and overflowing sewage are all violators. Changing the water in birdbaths every three or four days will eliminate the breeding potential, as will emptying water from other containers. Oil of any kind poured in a catch basin will deprive the larvae of air, thus killing it. It is impossible for us to inspect and treat everybody's backyard. Our job is to eliminate breeding areas. Most towns supplement the efforts of this Projects with additional programs for adult control. Contrary to understandable beliefs, new housing and road construction in wet areas increases rather

than decreases breeding sites. Every new home is a potential and probable source of mosquito larvae, while highways obstruct natural drainage areas and surface waters are detoured into areas that would ordinarily be dry.

Numerous waterways were cleaned and trenched both with hand labor and our power trencher. More of this work is planned for the future. We will also continue our annual abatement practices such as pre-hatch treatments, limited aerial larviciding and adulticiding.

Your project has responded to hundreds of calls. Numerous calls that were honored came from homeowners and commercial areas that were plagued by other than mosquitoes. Although we would like to honor all calls, our funds are fixed and will only allow for mosquito abatement practices in the future.

Our many thanks to Carver's town offices and department superintendents for their interest and cooperation.

Respectfully submitted,

M. CURRIE BEATON, Jr.,

## PLYMOUTH COUNTY EXTENSION SERVICE

by Robert B. Ewing

County Agent-Manager and Regional Coordinator

The primary responsibility of the Cooperative Extension Service is as the law states "to aid in diffusing among the people of the United States useful and practical information on the subjects relating to Agriculture and Home Economics and to encourage the application of same."

Resources of the University of Massachusetts and the United States Department of Agriculture are available to the Staff of the Plymouth County Extension Service because of an assistance agreement. Members of the staff provide educational information pertaining to Agriculture, Home Economics and 4-H Club Work, through correspondence — newspapers and radio — meetings — office and telephone calls — and farm and home visits.

To make this service available to you, funds are provided by the Federal, State and County Governments. Thus the name — Cooperative Extension Service.

Since 1965 when the Southeast Extension Region was organized, the Agricultural Agents have conducted Regional Programs and activities for the commercial farmers in Barnstable, Bristol, Norfolk and Plymouth Counties.

Each Agent is responsible for specific commodity program(s), i.e., Dairy and Livestock; Fruit and Vegetables; Floriculture; Nurseries; Horticulture; Poultry and Turkeys. For this reason, the Agent can keep up-to-date with research, participate in advanced training at the University of Massachusetts and offer the farmers a more effective service.

The Extension Home Economists supply information, conduct meetings and programs that meet the need of homemakers in Plymouth County. At the request of social workers

in the communities of Plymouth County, they have provided information pertaining to the many phases of the homemaker's life. They have also conducted programs for the elderly, blind and handicapped. The Extension Home Economists have been coordinators of programs for underprivileged families. In short, homemakers in just about every age group and walk of life have access to information from the Plymouth County Extension Home Economists.

4-H clubs are organized by the 4-H Club Agents for boys and girls 10-19 years of age and who are interested in projects in the broad areas of Careers, Citizenship, Clothing, Conservation, Crafts, Foods, Horticulture, Livestock, Recreation, Safety and Science.

With other youth programs, 4-H Work contributes to the character building process of Plymouth County young people.

4-H Club members have the opportunity to participate in local 4-H Club Programs and through it, receive excellent training in conducting meetings; giving demonstrations; public speaking and committee work. They also receive training in preparing all types of exhibits in the community; at Fairs and at some statewide activities.

This year 4-H club members were enrolled in 26 of the 27 communities of Plymouth County.

Adult volunteer 4-H club leaders are to be commended for their contributions to the 4-H Club Program in Plymouth County for without their services, such a 4-H program would not be possible.

You are invited to make full use of the Extension Service but remember, that although the Extension Service furnishes the information, it is you who make the decision as to how the information may be used to best advantage.

Requests for information can be directed to the Plymouth County Extension Service, Court House, Brockton, Massachusetts 02401.

The Board of Trustees, appointed by the Plymouth County Commissioners, administer the Plymouth County Extension Service Program and is composed of the following members:

Mr. Gilbert Blackledge, Whitman, Chairman  
Mr. George Ridder, E. Bridgewater, Vice-Chm.  
Mrs. Mabel Chandler, Duxbury, Secretary  
Mr. Robert Chisholm, West Bridgewater  
Mr. Arthur Chaffee, Jr., Bridgewater  
M. John Duffy, Halifax  
Mrs. Gladys Gibbs, Hanover  
Mr. Philip Gibbs, Carver  
Mr. Fred Freidenfeld, Middleboro

## REPORT OF THE HIGHWAY SURVEYOR

To the Honorable Board of Selectmen  
Carver, Massachusetts

Gentlemen:

The Chapter 90 Maintenance Allotment of \$3,000.00 of which the town appropriated \$1,000.00, the state \$1,000.00 and the county 1,000.00 was used on Wenham Rd. where 3,000 feet of Class I Bituminous Concrete surface was constructed over existing surface.

The Chapter 81 allotment of \$25,125.00 of which the town appropriated \$6,700.00 and the state \$18,425.00 must be used for maintenance purposes only. Out of this amount approximately \$13,700.00 was used to purchase and apply 41,000 gallons of asphalt for sealing the streets.

The remaining \$11,425.00 was used for patching, catch basins, culverts, brushing, shoulders and other miscellaneous maintenance operations.

The Chapter 90 Allotment of \$28,000.00 of which \$9,000.00 was used for completing work on Tremont Street.

The remaining \$19,000.00 was used on Wareham St. where 2500 feet of road was constructed to a width of 26 feet with proper drainage and an asphalt surface was applied.

The \$1,000.00 appropriated in General Highway funds for asphalt was used to apply 4760 gallons of MC.250 Asphalt to Wareham St.

Respectfully submitted,

EUGENE J. CLIFFORD,  
Highway Surveyor

## REPORT OF THE LIBRARIAN

To the Honorable Board of Selectmen  
Carver, Massachusetts

Gentlemen:

This year a Federal Grant of \$300.00 provided our library with many reference volumes valuable to a good basic collection.

Because of a preponderance of juvenile borrowers, we felt a need for more books in the children's department and so we used much of our State Grant of \$500.00 for children's literature. Besides the best in new titles of both fiction and non-fiction, we purchased many older titles — "books too good to miss" — and replaced quite a number of worn books with newer editions.

One corner of the room has a new round table with six chairs to match — just right for our group of middle-sized borrowers.

In the spring, during NATIONAL LIBRARY WEEK, the walls were hung with the paintings of many local artists, and a good number of townspeople had an opportunity to visit us then and enjoy the talent on display.

The Carver Garden Club has continued to favor us with bouquets of flowers and arrangements-in-season, and presented the library with "The Audubon Nature Encyclopedia" in twelve volumes. Other books and magazines have been given, also, and we wish to express our gratitude to all who have been so interested in the CARVER PUBLIC LIBRARY.

Respectfully submitted,

MADELEINE A. OWENS,  
Librarian

## REPORT OF THE PLANNING BOARD

To the Honorable Board of Selectmen  
Carver, Massachusetts

Gentlemen:

The Carver Planning Board presents this report of its activities during the year 1966.

October 18, 1966—After due legal notice, a public hearing was held at 8 p.m. at the town hall on the applications of Frank V. Puopolo and Co-Ri Co., Inc. for a subdivision on Plymouth Street in Carver comprising 72 lots and to be known as "Wenham Shores."

December 14, 1966—The Carver Planning Board unanimously approved the plan of "Wenham Shores."

During the year, twelve plans were submitted to the Board for endorsement as not requiring approval under the Subdivision Control Law and were so endorsed

## REPORT OF VETERANS' AGENT

The Honorable Board of Selectmen  
Carver, Massachusetts

Gentlemen:

The year 1966 brought many changes in both Federal and State Legislation which indeed will have unknown long lasting effects on the operation and costs of this Department. Specifically, any resident of Carver (who is a Veteran or a dependent) now is the responsibility of the Town without regard to the length of time in the Town. Further, a Veteran has been redefined to include any person honorably discharged after serving a minimum of 180 day active duty since February 1, 1955, hence the potential numbers of those eligible for assistance is greatly increased. The overall expenditure for aiding did not increase in 1966 primarily because (1) there was less unemployment in the area, and (2) those eligible persons being aided and past the age of 65 are covered both by Medicare and Medex 2 for their medical expenses.

We must realize that the amount of future expenditures will depend primarily upon the employment picture as the eligible veteran population continues to expand.

The prime function of the Department continues, however, to be that of providing services in matter of pensions, compensation, schooling and hospitalization for the Veteran. I consider that no less than 70-75% of this Department's work is in providing services of this nature. The only cost to the Town in this latter function is in Administration and if properly managed will result in a decrease in the cost of the Assistance appropriation.

As the Director of Veterans' Services, I am most grateful for the wonderful cooperation which we have

received from all concerned with the Veteran and his dependent. Of particular note, I wish to thank not only the Selectmen of Carver, and the Town Clerk, but also the entire membership of the Julian M. Southworth Post of the American Legion.

Respectfully submitted,

CHARLES C. HENDERSON,

Director

## REPORT OF THE BOARD OF APPEALS

To: Board of Selectmen  
Carver, Massachusetts

Frank R. Mazzilli, Esq., Chairman

During the past year the Board conducted eleven Public Hearings. The results were as follows:

Five Special Permits were issued.

Two Variances were granted.

One Variance was denied.

One appeal taken from decision of Board of Health was resolved when the Board of Appeals upheld the Respondent Board of Health.

Due to a resignation in the latter part of 1965 the Board was not at the full strength of five members during the early part of 1966. This situation was resolved with the appointment of Donald F. Grassi, in March, 1966.

The work load of the Board of Appeals has increased every year since its inception, in 1963, and the Board continues to conduct itself in fairness to all Petitioners and in the best interest of the citizens of the Town of Carver.

Respectfully submitted,

LAWRENCE P. HEMINGWAY, Chairman  
AUSTIN WARD  
WILLIAM MURPHY  
GEORGE MARTIN  
DONALD GRASSI

To the Honorable Board of Public Welfare:

My report on Old Age Assistance, Medical Assistance, Aid to Families with Dependent Children, Disability Assistance and General Relief for the year ending December 31, 1966 is as follows:

At the beginning of the year there were twenty-seven Old Age Assistance cases. Nine new cases were added and nine cases closed leaving twenty-seven active cases as of December 31st. Expenditures increased from \$25,887.49 to \$27,365.20.

Disability Assistance expenditures decreased from \$3,299.62 to \$3,100.40. There is one active case receiving assistance.

Aid to Families with Dependent Children cases totaled eight on January 1, 1966, and steadily increased to twelve cases at the end of the year. Thirteen cases were approved and nine cases closed. Expenditures increased from \$6,798.66 to \$13,662.88.

General Relief costs increased from \$1,055.21 to \$1,456.66.

\$33,878.93 was spent for Medical Assistance which included medical services for Old Age Assistance Disa-

bility Assistance, and Aid to Families with Dependent Children from September 1st when Title XIX of the Social Security Act provided a new program of Medical Assistance (MA), sometimes called Medicaid. This new category replaced the MAA program. Since the start of this new program, Old Age Assistance, Disability Assistance, and Aid to Families with Dependent Children programs provide for maintenance of recipients, and the Medical Assistance program provides for their medical needs.

Medical Assistance is available to all persons who are receiving Old Age Assistance, Disability Assistance, and Aid to Families with Dependent Children, and to all persons eligible for these programs but have not yet applied. Persons who are receiving Old Age Assistance, Disability Assistance, and Aid to Families with Dependent Children, and to all persons eligible for these programs but have not yet applied. Persons who are eligible for OAA, AFDC, and DA, except for durational residence, income or personal property requirements, might possibly meet the eligibility requirements for Medical Assistance. Medically needy children under 21 years of age whose income and resources are sufficient for their maintenance but are insufficient to meet the cost of medical and remedial care are eligible.

I have been participating in the South Shore Community Action Council which provides financial support for local anti-poverty programs in a twelve community region including Carver. This Council is established to plan, develop, and implement programs and services necessary to deal with the low income problem of the area.

Respectfully submitted,

VIOLA S. GRIFFITH,  
Director of Public Welfare

## REQUIREMENTS FOR ADMISSION TO FIRST GRADE

1. A child who will reach his first birthday on or before December 31st may be admitted to the first grade in September, 1967, without examination.
2. A child whose sixth birthday occurs in the two months after December 31st may be admitted the preceding September if readiness for school can be demonstrated by means of appropriate tests. Parents having a child whom they wish to be examined under this rule are required to make application to the Superintendent of Schools on or before August 15 preceding the opening of school in September. A special form will be furnished for this purpose upon written request from the parent.

The School Committee reserves the right to withhold the examination privilege whenever the number of children eligible to enter without examination is equal to the capacity of the available classrooms.

## CLOSING OF SCHOOLS

It is the policy of the School Committee to close school only under the severest weather conditions or on such occasions when it is dangerous to operate school busses. At other times, parents are expected to use their own judgement in sending children to school. When a decision to close schools has been made, this information will be broadcast through the courtesy of radio stations WBZ and WPLM.

## **REPORT OF THE SUPERINTENDENT OF SCHOOLS**

It is my hope that you may share with me the pride that is taken in the development of this, my fourth annual report of school activity. The report of the Elementary Supervisor and the Principal will go into some detail concerning this year's progress; I shall discuss briefly some few of the most important developments.

Mr. Richard Eldridge, who has served our community well as a teacher and as principal, resigned to assume a new position. He will be missed by all who knew him and who worked with him. Our best wishes are extended for his continued success.

We believe that our community has been most fortunate in the appointment of our new principal. Mr. Marcel Richard has a splendid background of experience and brings to Carver a sincere desire to serve well the educational needs of our children.

### **Building Committee**

After many irritating delays, we finally achieved the much-needed classroom and cafeteria space for which this committee had labored so long and so well. Our appreciation is extended to them and to the members of the community who so overwhelmingly supported this important educational effort. It is our hope that you are pleased, both with the design and with the functional nature of the addition. We are certain that the youngsters are pleased by and will benefit from these improved facilities: for them, we extend thanks to all who made these advantages possible.

### **Curricula**

We are most pleased by the staff energies displayed in the important area of curriculum development. Faculty members have served on subject-oriented committees and have participated effectively in area meetings directed towards professional and educational improvement.

One of greatest satisfactions of this year came from our observance of the summer kindergarten experience that was provided for all youngsters who were to enter first grade in September. This represents just one more effort on the part of the School Department to lend educational assistance to the families of our community.

We have sought this year to take advantage of the Teacher-Aides Program that is an activity of the Future Teachers at Plymouth-Carver. This is a developing plan wherein interested high school students gain classroom experience and give assistance to teachers.

It is believed that the late bus service that has been instituted this year will prove of great advantage to the child who needs extra assistance. Much will depend upon the child's willingness to seek this help during after-school time. It is hoped that you will share with us in the responsibility of having children understand the important advantages to be gained in this activity.

The activity of the Regional Vocational Study Committee is to be commended. They have worked throughout the year to develop a proposal to be presented to the several communities for a school that would widely increase curriculum offering in one of our most critical areas.

The Plymouth and Carver School Committees have met in joint session during the year to discuss common problems and overall educational goals. There has been discussion in regard to extending the regional concept to include grades other than nine through twelve. We are all of us interested in serving the mutual needs of Plymouth and Carver in such ways as may bring equal advantage to each community.

#### **Federal Aid**

We have again this year participated in Project Head Start. It is believed that there is true advantage found in this pre-school activity. The two classrooms

at Benjamin Ellis presented scenes of happy and worthy developmental activities during the eight week period. The project director, Mr. George Hesse, and his dedicated staff deserve our commendation. Particular credit and thanks are extended to the volunteers who served so energetically and so effectively.

Federal Legislation under P.L. 89-10 made possible a variety of community program under Title I. We felt that our first activity under this title should be directed to the assistance of young people who were finding school difficult in Grades 1-4. So it was that Operation Honest Effort was conceived. Mr. William Levesque was selected as director, and the enthusiasm that he and his staff brought to this task assured its success. In truth, an honest effort was made to help those youngsters who need it most.

Under Title II of the same act, we were able to purchase many new and exciting books for our school library.

Carver will share in the advantage of Project Lighthouse, which is a program founded under Title III for the advantage of the several communities of our area that have participated.

#### **Other Activities**

We have been pleased to see develop a Parents Group of people who share our interest in the educational growth and development of their children.

Education, if it is to be successful, must be a shared adventure of the entire community. It is our belief that this spirit prevails in Carver, and we accept our personal responsibility to foster its continued development.

## **REPORT OF THE ELEMENTARY SUPERVISOR AND THE PRINCIPAL OF THE CARVER PUBLIC SCHOOLS**

We hereby submit our joint report as Elementary Supervisor and Principal of the Carver Schools. Because our philosophy of Education is concerned with the total development of the child, we have organized our educational program to afford each child a maximum experience in each grade.

As we look back over the year 1966, the most obvious factor in our schools is one of growth. The construction of an addition to the Governor John Carver School has been most welcome. By moving into the new classrooms, we are now able to have our Library available. The Homemaking room is used in the morning for music. All art classes are now held in the room which housed Special Class. We were fortunate to be able to move grade two from the Benjamin Ellis School to the Governor John Carver School. The spare room at the Benjamin Ellis School created by this move has made it possible for us to turn it into a cafeteria, — a big improvement from having our pupils eat lunch in the corridor.

### **Curriculum Changes**

Our Social Studies Committee has developed and evaluated many text books and has recommended changes in this area. Some of these recommendations were put into effect in September. A pilot program in Economics, one of the recommendations of this committee, is being used in one first grade and one second grade. A Social Studies curriculum guide has been developed for grades one through eight and has been distributed to all grades in School Union No. 62 for teacher use. The Social Studies Standing Committee has been organized in order to constantly evaluate our subject matter and methods of instruction in this area.

The Science Curriculum Committee has had many meetings and is working to coordinate the Science curriculum in grades 1-12.

A new Multi-Ethnic Reading Series has been introduced in grades one and two.

A French program has been offered to students in grades 4-8. This will give adequate background in language for those students who wish to study a foreign language at the High School.

Our usual testing program has been carried out throughout the year. We do use some of the better known standardized tests in our schools. These serve two very useful purposes for us. First, they give us a general indication of how the children in our classes compare with other throughout the country. The second, and more important uses of the test results is in diagnosing individual weaknesses and the relative strengths of various portions of our educational program. One of the most meaningful uses of test results comes from a study of the progress of the individual students from year to year, as revealed in the cumulative record of the test scores. The growth from one year to the next is really more important than where he stands at any given time. In addition, individual testing is done by our School Psychologist whenever it is felt necessary.

Teachers new to the system this year are Miss Nancy Roehrig and Miss Valerie Costa, teachers of grade one at the Benjamin Ellis School; Mrs. Lillian Burbank, teacher of grade two; Mr. Richard Roche, teacher of grade six; Mrs. Phyllis Gray, teacher of Home Economics; and Mr. Douglass Truran, Music Supervisor. Mrs. Dorothy Tompkins has been transferred from grade two to teacher of French and Junior High subjects. Mrs. Bette Maki was transferred from grade one to grade two. Mr. Malcolm Peterson assumed the duties of Shop instructor for Junior High School boys as well as Social Science classes in the Junior High.

There were three teachers and the Shop instructor who left our school system in June: namely, Mrs. Mabel Eayrs and Mrs. Griffith retired after many faithful years of service to school in Carver. They will be missed by everyone.

Mr. and Mrs. H. Albert Raymond also retired at the end of the summer season after having served in the community faithfully for many years. We wish them continued good health in the future.

During 1967 we shall continue our efforts to improve and strengthen all programs in our school system. Our goal is to provide the best educational development for all children within the means provided us for this purpose.

The Magazine Drive this year was limited to the students of grades 7 and 8. This drive netted our School Fund \$390.24, and the sale of pictures added another \$132.82. This fund is used to finance the annual field trips of grades 7 and 8.

In order for our school lunch program to continue to be self-supporting, it was necessary to raise the price of lunches to twenty-five cents. The children are receiving an excellent, well-balanced hot lunch. The financial statement of our lunch program is as follows:

## PLYMOUTH-CARVER REGIONAL SCHOOL DISTRICT SCHOOL COMMITTEE REPORT

It was with sincere regret that we this year accepted the resignation of Principal Julian Demeo, Jr., who had served our school so conscientiously since the planning that preceded its opening three years ago. We were fortunate to have had a man of such energy and wisdom to work with us during this time. He leaves a school of which he has made all of us most proud; we wish him well in his new endeavor.

We believe that we are most fortunate to have had in our Vice Principal, Mr. Wilbert P. Cingolani, a man truly well prepared to assume the leadership position in our school. To him we extend our congratulations on the high quality of his performance and our positive assurance of the continued support of the Plymouth-Carver School community.

This has indeed been a most busy year for your Committee and for the many members of the school staff. The task of self-evaluation, begun in 1965, was completed this year. This involved a very careful searching out of the many strengths and evident weaknesses of which our school is possessed. During the course of this examination of self, chairmen and members of each staff within the faculty came to meet with us for a frank and open discussion of departmental problems. We shared with them their hopes and dreams for the bright educational future of our high school.

The visiting committee appointed by the New England Association of Secondary School and Colleges spent three full days in their examination of our school plant and program. They were generally most pleased with our offerings and made careful note of those areas in which improvement might be made. As a result of their report, we have been informed that Plymouth-Carver High School has been duly accredited by the New England Association.

In addition to their work on the evaluation, our staff and faculty members have been active in their participation in both area and national conferences. It is through this kind of activity that our school stays abreast of the educational innovations and experimental practices upon which sound progress is based.

We should like to gratefully acknowledge two bequests to the school. It was stipulated in the will of Miss Nellie Lockin, for so many years a highly respected teacher of mathematics in Plymouth, that her library of mathematics books be given into the custody of Plymouth-Carver High School for the benefit of interested students. A check in the amount of five hundred dollars was accepted from Mrs. William Ide in memory of her late husband to be used by the school at the discretion of our Committee.

We are pleased with the updating and format changes given to our Policy and By-Law Handbook. This effort represents a good beginning to a task that is regarded as essential to the proper understanding by all school personnel of the policies of our system.

We have been particularly pleased by the improved interest in our summer program. Among the many advantages offered this year was the supervised use of the school library. This is a facility of which we are most proud, and we are certainly anxious that it be used as extensively as possible.

Our Adult Education Program, directed by Mr. Joseph Robinson, is by now well known to all of you, and a most encouraging number of our townspeople have taken good advantage of the many course offerings provided. This year we have developed another program to assist those who need fundamental or remedial assistance in Adult Basic Education. This is a program financed entirely by Federal funds. Mr. Patrick Berry has been appointed to direct this activity, and we are encouraged by its acceptance. We urge you to learn more

about these community programs and to take part yourself as well as encourage the participation of acquaintance who might benefit from such instruction.

This has been the year of greatest progress on our outside grounds and playing fields. It has indeed been most pleasing to have had so many pleasant comments on the work in this area. Particular credit must be given to Mr. David Cappannari and to Dr. George Wild, who served as a sub-committee to oversee the effort that we had long known was needed here.

We were saddened by the great tragedy which occurred in one of our laboratory preparation rooms in the science wing of the building. The explosion was caused by the unauthorized handling and mixing of otherwise harmless chemicals by the two injured boys. A careful study of this incident found no evidence of staff negligence, and we are pleased to commend those who were involved in the supervision of activities at the time. Our students conducted themselves in a manner that gave cause for great pride to their parents and teachers.

We have this year had our first experiences with the Collective Bargaining Act as described in Chapter 763 of the Acts of 1965. In agreement with the terms of this Act we have given official recognition to those employee groups that have organized for purposes of bargaining. Long hours have been devoted by our sub-committee in an effort to give fair hearing to each request.

The Committee has found the building and grounds in good order on the occasion of our annual inspection. We must once again take notice of the already present evidence of overcrowding. As we study the enrollment projection for incoming classes, we are made to recognize the necessity of a building addition to properly accommodate the larger number of students to come.

It was not until the end of the year that Mr. Robert Holton arrived to assume the position as Vice Principal. His past training and experience provide excellent qualification for this most important position.

As the elected and appointed members of your School Committee, we shall continue to extend every effort in behalf of the welfare and educational well being of our young people of our communities. Let us continue to work together to the advantage of every child who enters our school.

## ANNUAL REPORT OF THE PRINCIPAL OF THE PLYMOUTH-CARVER HIGH SCHOOL

One of the principal objectives set for the staff for 1964-1965 was the self-evaluation program, which consisted of an investigation of the curriculum to consider its strengths, its weaknesses, and its direction. We were also to investigate the effectiveness of our implementation of the stated philosophy and objectives of our school.

This objective of working toward the common goal of quality education became a reality after fifteen months of concentrated cooperation by the community, the students, and the teachers. Mr. Clarence I. Chatto, Director of the Evaluation Program, stated that the Commission on Public Secondary Schools voted to recommend Plymouth-Carver High School for continued membership in the New England Association on the basis of its self-evaluation and the report of the visiting committee.

Final action on this recommendation was accepted by the association at its annual meeting in December, 1966.

Our staff found the experience of evaluation an interesting and profitable one, and it will help all of us to work toward the goal which we are all seeking: the continued improvement of secondary education in New England.

Experimentation continues at Plymouth-Carver with the Work-Study Program under its coordinator, Mr. Dennis Aresta. It is the intention of this program to provide a practical means to help students through a series of experiences which are intended to introduce them to various vocations. Students participate actively in job situations for short periods of time during and after school. Supervision insures coordination of the school and laboratory learning experiences. The general work-experience is the nucleus of every work-study program. Its purpose is to provide the student with a 'learn-as-you-earn' experience which eventually makes him a better worker. Job situations are found throughout the community. Students are screened and interviewed by their Guidance Counselor and the Work-Study Coordinator. It is not the intention of this part of the program to relate the job situation with vocational goals, but rather a learning situation that will develop good attitudes and work habits.

The vocational work-experience extends in-school vocational instruction and discovered interest to out-of-school training. The student actually directs his attention to a vocational goal and is given a chance to pursue this goal before graduation. A present twenty-five students are actively participating in the work-study program. Forty different students have participated to date.

It is rather early to evaluate the program, but indications have shown us that initiation into the world of work has provided many of the students with new in-

sights regarding the nature of human relations on the adult level, as well as regarding the nature of our economic system. Improved behavior, definite changes in attitudes and responsibilities, and a strong deterrent to the dropout problem are positive results of the program to date.

Curriculum guides in English, foreign languages, science, and physical education are being formulated by the department chairmen and their teachers.

A pilot program IME (interaction between matter and energy) is presently being introduced to a ninth grade science class.

With the assistance of Federal funds, a second language laboratory has been added to the foreign language department. The audio-lingual method of language learning has replaced the traditional method of language instruction and Plymouth-Carver High employs the ALM in all levels of French, Spanish, and German. Students can learn the foreign language through oral work, drills, dialogues and constant use of the language laboratory through listening.

Miss Phyllis Boucher, Chairman of the Social Studies Department, initiated a new student activity program this year with the establishment of the World Affairs Club. Organized and supervised by Mr. Paul Baden and Mr. William Nagle, this group is a Chapter of the Massachusetts Junior Council on World Affairs. Each month its members attend a foreign affairs forum in Boston featuring noted individuals from the political and academic communities. These sessions are followed by discussions and debates held here at school.

During the year there were some change in administrative personnel. Mr. Julian Demeo, Jr., who earned the esteem and the gratitude of all of us by his effective, conscientious, and dedicated work, assumed new responsibilities as principal of Wayland High School. I replaced Mr. Demeo as principal, and Mr. Robert Holton,

from Glastonbury, Connecticut, became the new vice-principal. Mr. Roland Holmes, Chairman of the English Department, returned to college teaching at the University of Illinois, and Mr. John Smith replaced Mr. Holmes. We have been pleased to have with us Mr. Fred Hoppe from Holland, a math teacher who joined the faculty in September as an exchange teacher under a one-year program.

The dropout rate was 2.7% which is a slight improvement over the preceding years. Continuing effort must be made to retain the students who leave school because of failure, disinterest, and marriage. The work-study and the remedial reading programs are positive steps in this direction.

The F.T.A. Teacher Aide program sponsored by Mrs. Jean Patenaude of the Guidance Department continues to be an effective and profitable program in the school. Nine juniors and seniors will be able to go into the elementary grades and assist teachers. The objective is not only to serve in the elementary schools but to give future teachers some practical experience and an opportunity to observe within the classrooms. A pilot tutoring program with students helping students is being formulated. Recent research has proved this is a program of two-way benefit, with learning going on in both directions.

The F.T.A. Teacher Aid program will help again to organize the volunteers for the Headstart program. This has proved to be a profitable summer experience for the students.

The members of the graduating class of 1966 were extremely fortunate to be beneficiaries of \$59,588 in scholarship aid. This is an increase of \$19,568 over last year. This generosity provides more students with opportunities to continue their studies.

The information we have received from these stu-

dents and from the schools they are attending merits strong words of praise and thanks to all who have provided scholarship aid.

The entire faculty and student body at Plymouth-Carver High School was pleased to welcome George Kuhn from Switzerland as its first American Field Service Student in September, 1965. The A.F.S. Chapter was formed by members of the community, and a student chapter was formed to assist the exchange student here in school. The student chapter also gives the student body the opportunity to help in the financial part of the program through its fund raising activities.

The selection of the American family to take George Kuhn into their home, as a member of the family during the year, was Dr. and Mrs. George Wild of Warren Avenue in Plymouth. In August our second A.F.S. student, Kornnikar Kittisobhon, arrived from Thailand and resides with Mr. and Mrs. Joseph Fratus of 71 Standish Avenue, Plymouth.

Being a member of this organization and have had two exchange students from abroad now entitles us to nominate students from Plymouth-Carver to the National organization. We hope that one of our students will be selected to go abroad.

In conclusion, we shall always be trying to improve our school, based on the experiences of our teachers, and move forward in the removal of duplications, deficiencies, and overlapping areas as they may occur in our curriculum.

As a group, we shall continue to play a very important part in the innovations and experimentation that are the keys to the proud new look in education.

Respectfully submitted,

Wilbert P. Cingolani, Principal

## ANNUAL REPORT OF THE DIRECTOR OF GUIDANCE

Almost two-third of the Plymouth-Carver High School counselor's time is utilized in interviews with students. The purpose of student-counselor conferences is to help thee young people to understand themselves to the extent that they may make realistic decisions relative to their present and future lives. These decisions involve planning with regard to education, vocational endeavor, military service, and preparation for living in a world that is rapidly changing economically, socially, and politically.

The balance of our time is spent in many ways: conferences with parents, school personnel, referral agency representatives, post-secondary school admissions officers, and many others; test administration; the handling of many hundreds of telephone calls, correspondence, reports, and, one of the most vital items — transcripts to college, schools, employers; armed services and other agencies. Transcripts include the following information: marks and credits for grades 9, 10, 11, and 12; intelligence, aptitude, interest, and achievement test scores; college board results; a listing of the student's extracurricular and out-of-school activities; teachers' evaluations of character and personality; and the guidance counselor's comments and recommendation. Last year ocer one thousand transcripts, reports, and questionnaires were sent out of the Guidance Department.

For the fifth consecutive year, the guidance staff conducted educational-vocational trips, thanks to the financial support of the Kiwanis Club of Plymouth, In the year 1965-1966, seven interesting and instructive tours were arranged as follows:

School of nursing (New England Deaconess and Children's Hospital), the Prudential Center, General Dynamics, South Shore Vocation and Technical High School, business school (Fisher Junior College, and Burdett Col-

lege) the Navy carrier WASP, a saw mill (Bradford Mill) and a pine manufacturing plant (Wes-Pine Company), a science trip (M.I.T.), trades training schools (Coyne Electrical and Technical School, Massachusetts Trades Shops Schools, Franklin Institute) and teacher-training universities (Northeastern and Boston Universities).

Since the ultimate objective of the State Board of Education is the achievement of a ratio of 300 pupils to one full time guidance counselor, I should like to recommend that in order to provide maximum services to our pupils, graduates, and parents an additional full-time counselor be hired for the Guidance Department.
