

Town of Carver

1988

ANNUAL REPORT of the TOWN OFFICERS

## **On The Cover**

About 10 years ago the town put \$5000.00 into a fund to be used for the construction of the Shurtleff Park Bandstand. In the Summer of 1988 the Carver Active People decided to take on the project. With money raised from C.A.P. activities and donations from many local businesses and residents the fund grew and the project became a reality. Several resident carpenters and construction companies along with C.A.P. members volunteered time putting up the steel columns, rafters, shingles, etc.

Finishing touches are expected to be done this Spring and Summer. A plaque will be affixed to the Bandstand with names of those who contributed \$100.00 in time, labor or materials.

Selectmen agreed to form an Advisory Committee to Shurtleff Park and this seven member board acts as trustees and will control the activities that take place at the Park and Bandstand.

# Presidential Primary

Tuesday, March 8, 1988

The Presidential Primary Election was held at the Carver High School, South Meadow Road on Tuesday, March 8, 1988 with 3 precincts mandated by the State on November 5, 1987, pursuant to a Warrant of the Board of Selectmen, dated February 9, 1988. The meeting was called to order at 7:00 o'clock A.M. by:

Precinct 1 Warden—Eugene P. Souza

Precinct 2 Warden—Donald L. Babbin, Sr.

Precinct 3 Warden—Paula M. Babbin

The following named Election Officers were present at the opening of the polls, and were duly sworn to the faithful performance of their duties by the Town Clerk, Bernadette L. Hemingway; thereafter they were assigned to their respective duties as follows:

Precinct 1—Music Room

Warden: Eugene P. Souza (D)

Clerk: Marjorie D. Mosher (R)

Inspectors:

Check In: Donna P. Fenelon (D)

A total of 2645 Republican Ballots and 4200 Democratic Ballots were delivered to the Ballot Clerks by the Town Clerk. The Wardens declared the polls open at 7:00 o'clock A.M., and announced that the polls would close at 8:00 o'clock P.M. The Ballot Boxes registered zero at the opening of the polls.

The election proceeded without interruptions until 8:00 o'clock P.M., at which time the Warden declared the polls closed. At closing time, 8:00 o'clock P.M. the following was reported:

Precinct I ballot box registered a total of 505 ballots cast. Of the 505 ballots cast, 369 were Democratic Ballots, of which 4 were absentees; there were 136 Republican Ballots cast of which zero (0) were absentees. This tallied with the lists of the Ballot Clerks.

Precinct II ballot box registered a total of 586 ballots cast. Of the 586 ballots cast, 409 were Democratic Ballots, of which 9 were absentees; there were 177 Republican Ballots cast of which 2 were absentees. This tallied with the lists of the Ballot Clerks.

Precinct III ballot box registered a total of 753 ballots cast. Of the 753 ballots cast, 451 were Democratic Ballots, of which 8 were absentees. There were 302 Republican Ballots cast of which 10 were absentees. This tallied with the lists of the Ballot Clerks.

The total vote cast for the three (3) precincts was 1,844 of which 1,229 were Democratic and 615 were Republican.

The ballots were then removed from the Ballot Box, audibly counted and delivered to the Tellers for canvassing and they having been duly sworn to the faithful performance of their duties as follows:

# Annual Town Meeting

Monday, April 25, 1988

The 197th Annual Town Meeting of the Inhabitants of the Town of Carver was held at the Carver High School on Monday, April 25, 1988 pursuant to a warrant of the Board of Selectmen, dated March 15, 1988. The meeting was called to order at 7:50 o'clock P.M. by the Moderator, Nancy A. Seamans, there being a quorum present. The Invocation was given by Rev. Robert H. Merritt, followed by the Pledge of Allegiance to the flag. The Moderator appointed the following as tellers and were duly sworn to the faithful performance of their duties: Carolyn Brennan, Richard Ward, Linda Harrington, Judy Ryan, and John Rinella. The meeting then proceeded to act on the Articles in the Warrant, as follows. (Article I having been disposed of at a prior meeting.)

Upon motion by Arnold Sherwood, duly made and seconded, it was requested that all money articles (Raised and appropriated) to be voted by Australian Ballot. This was DEFEATED. Voice vote being had.

**Article 2.** Upon motion duly made and seconded, it was Unanimously voted to authorize the Town Treasurer, with the approval of the Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning July 1, 1988 in accordance with provisions of General Laws, Chapter 44, Section 4, and to issue note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than one year in accordance with General Laws, Chapter 44, Section 17. This was also a Unanimous Vote of the Finance Committee.

**Article 3.** Upon motion duly made and seconded, it was Unanimously voted to transfer from free cash in the Treasury the sum of Thirty-Five Thousand Dollars (\$35,000.00) to meet interest changes on temporary loans. This was also a Unanimous Vote of the Finance Committee.

**Article 4.** Upon motion duly made and seconded, it was Unanimously voted to transfer from free cash in the Treasury the sum of Seventy Thousand Dollars (\$70,000.00) to the 1989 Fiscal Year Reserve Account.

**Article 5.** Upon motion duly made and seconded, it was Unanimously voted to authorize the Treasurer to enter into a compensating balance agreement or agreements for the Fiscal Year 1989 pursuant to Chapter 44, Section 53F of the General Laws. This article was also a Unanimous Vote by the Finance Committee.

**Article 6.** Upon motion duly made and seconded, it was Unanimously voted to hear the report of any standing committees and to abolish any special committee not submitting a report unless otherwise voted and to establish any new committee.

Robert Merritt, chairman of the Affordable Housing Partnership Committee, introduced William Sketchley, consultant for the partnership. Mr. Sketchley outlined Affordable Housing in Carver, and the committee is meeting the first and third Wednesday of every month with developers, discussing sites, housing, etc.; the best which Carver can allow to first home owners. He did state there is a great deal of work to be done by this committee and does want to see it continue. It was Unanimously voted to accept the report and to continue this committee.

At this time and upon motion duly made and seconded, it was Unanimously voted to adjourn to Special Town Meeting, at 8:15 P.M.

## Special Town Meeting

Monday, April 25, 1988

A Special Town Meeting of the Inhabitants of the Town of Carver was held at the Carver High School, on Monday, April 25, 1988, pursuant to a warrant of the Board of Selectmen dated March 15, 1988. The meeting was called to order at 8:25 P.M. by the Moderator, Nancy A. Seamans, there being a quorum present. The meeting then proceeded to act on the articles in the warrant as follows:

**Article 1.** To see if the Town will vote to amend Section 4.3 of the Zoning By-Law by adding a sub-section to be numbered 4.3 B which would expand the permitted uses within the so-called Industrial District and which would read: "any place of business such as bowling alley, office building, bank, newspaper, repair shop, gas station, restaurant, retail or wholesale establishment," or take any other action there on.

Upon motion made and seconded, and after discussion of this article by Stephen DiRado, a member of the Planning Board, it was unanimously voted.

**Article 2.** Upon motion made and seconded, it was Unanimously voted to transfer from available funds in the Treasury the sum of Twenty-one thousand Eight Hundred Fifty-two Dollars and Fifty Cents (\$21,852.50) to the Equipment Bonds Interest Issue 9/15/87 Account. Finance Committee recommended.

**Question I**

**REFERENDUM PETITION ON AN EXISTING LAW**

Do you approve of a law summarized below, which was approved by the House of Representatives on May 20, 1987, by a vote of 93-58, and approved by the Senate on May 20, 1987, by a vote of 31-8?

**SUMMARY**

The law provides a salary increase, effective January 7, 1987, for the members of the legislature and certain constitutional officers of the Commonwealth.

Beginning at a base salary of \$30,000, each member of the legislature will receive a salary increase under the law equal to the compounded percentage increase in the salaries of full time state employees who are subject to collective bargaining agreements between the Commonwealth and the ALLIANCE, AFSCME—SEIU, AFL—CIO in effect between January 5, 1983 and January 7, 1987. Thereafter the salaries of each member of the legislature will be increased by the same percentages as the salaries of full time state employees subject to the collective bargaining agreements.

The law also increases the salaries of certain constitutional officers. Under the law the salary of the governor is set at \$85,000; the salaries of the lieutenant governor, state secretary, state treasurer and the state auditor are set at \$70,000; and the salary of the attorney general is set at \$75,000.

Any individual may waive his or her salary increase under this law. Any amount so waived shall not be deemed regular compensation for the purposes of computing any such person's benefits and shall be exempt from state taxation.

**LAW PROPOSED BY INITIATIVE PETITION**

Do you approve of a law summarized below, which was disapproved by the House of Representatives on May 3, 1988, by a vote of 24-123, and on which no vote was taken by the Senate before May 4, 1988?

**SUMMARY**

The proposed law would repeal state law requiring that the wages, including payments to health and welfare plans, paid to persons employed in the construction of public works be no less than the wages paid locally under existing collective bargaining agreements and understandings, or by the municipality, for the same kind of work. Under the proposed law, the Commissioner of Labor and Industries would no longer set wage rates for such work or classify jobs.

The proposed law would also remove the Commissioner of Labor and Industries' authority to set the wage rates of employees of contractors who move office furniture and fixtures for the state or a county, city, town or district, and remove the Commissioner's authority to set the wage rates of operators of vehicles and other equipment engaged in public works.

The proposed law would not change the way wages are set for laborers employed by the State Department of Public Works and the Metropolitan District Commission.

### Question 3

#### LAW PROPOSED BY INITIATIVE PETITION

Do you approve of a law summarized below, which was disapproved by the House of Representatives on May 2, 1988, by a vote of 2-150, and disapproved by the Senate on May 3, 1988, by a vote of 0-34?

#### SUMMARY

The proposed law would require the Commissioner of the Department of Food and Agriculture to issue regulations to ensure that farm animals are maintained in good health and that cruel or inhumane practices are not used in the raising, handling or transportation of farm animals.

The Commissioner would issue regulations, effective within four years after passage of the proposed law, about the surgical procedures used on farm animals, the transportation and slaughter of farm animals, and the diet and housing of those animals. The Director of the Division of Animal Health could issue exemption permits for a period of time up to one year and one half to any farmer.

Under the proposed measure, an unpaid Scientific Advisory Board on Farm Animal Welfare comprised of veterinarians and animal scientists would also be established within the Department of Food and Agriculture. The Board would examine animal agricultural practices, issue for publication certain reports on farm practices, and make non-binding recommendations to the Commissioner about specific regulations. If appropriated by the legislature, the Board may allocate an annual sum of not more than ten cents per Massachusetts citizen to assist farmers in adopting methods which are consistent with the purposes of this law.

The Director of the Division of Animal Health would be responsible for enforcing regulations issued as a result of this proposed law. Persons who violate the new law would be punished by a fine of up to \$1,000.

### Question 5

Shall an act passed by the general court in the year nineteen hundred and eighty-eight entitled, "An Act providing a charter for Plymouth County," be accepted?

### SUMMARY

Acceptance of the proposed Home Rule Plan by a majority of the voters of Plymouth County will create a new form of county government under which Plymouth County will be governed by an elected fifteen member County Council and an elected five member Board of County Commissioners.

The membership of the County Council will be elected for two year terms by and from the voters of fifteen districts to be established so as to consist of as nearly an equal number of people per district as possible. The legislative powers of the County as exercised by resolution or ordinance will be vested in the Council. The Council shall elect from its own number a President and Vice-President. It shall also elect, by ballot, a clerk of the County Council and, subject to appropriation, a County Auditor. Approval authority over the annual operation and capital outlay budgets for the County is vested in the County Council.

The executive powers of Plymouth County will be exercised by a five member Board of County Commissioners elected at large for staggered four year terms. Such powers include preparation of annual operating and capital outlay budgets for submission to the County Council, general supervision and direction over all county agencies, supervision of the care and custody of all county property, institutions and agencies and oversight of the collection and expenditure of county funds. The Board shall have appointive powers over generally all county departments and may appoint a County Administrator to perform such administrative duties as may be provided for such office by ordinance or by the provisions of an administrative code.

The positions of County Treasurer, Register of Deeds and County Sheriff will remain elective. Municipal petition, citizen initiative, referendum and recall procedures shall be available to the voters of the County.

The County shall have the authority by interlocal contract, upon the request of any unit or units of local government, to provide local service functions including, but not limited to, public works, refuse disposal, public health services, water distribution, police, fire and public safety services, sewage treatment and disposal, real property assessment, transportation services and insurance.

The County may adopt, by ordinance, in addition to the tax imposed by state statute, an additional tax to be retained by the County on deeds and other instruments filed with the Register of Deeds at a rate up to but not exceeding the rate imposed by the Commonwealth under statute.

The Board shall have appointive powers over generally all county departments and may appoint a County Administrator to perform such administrative duties as may be provided for such office by ordinance or by the provisions of an administrative code.

The positions of County Treasurer, Register of Deeds and County Sheriff will remain elective. Municipal petition, citizen initiative, referendum and recall procedures shall be available to the voters of the County.

The County shall have the authority by interlocal contract, upon the request of any unit or units of local government, to provide local service functions including, but not limited to, public works, refuse disposal, public health services, water distribution, police, fire and public safety services, sewage treatment and disposal, real property assessment, transportation services and insurance.

The County may adopt, by ordinance, in addition to the tax imposed by state statute, an additional tax to be retained by the County on deeds and other instruments filed with the Register of Deeds at a rate up to but not exceeding the rate imposed by the Commonwealth under statute.

## Board of Selectmen

Another busy year with increased workload that required a great deal of attention by all three Selectmen, coupled with several nights per week attendance at various meetings.

Paula Babbin was elected Selectman in April to fill the vacancy created by the resignation of Arthur P. DeCoursey, who ran for the House of Representatives. Frank R. Mazilli was re-elected for a three year term.

The town-wide water study conducted by SEA Consultants continued and regional possibilities were explored with the towns of Plymouth, Wareham and Middleboro. Town-wide water samples were taken to pinpoint priority areas for planning future distribution. The Lakenham Drive water system has been activated for over a year.

A computer-system contract was signed last April and the equipment installed in the Town Hall and Carver school system. The financial activities for both have been integrated into the computer system.

The emergency operating center was completed by Boston Edison in the police station. Training and staffing of the center is continuing.

Effective positions that required appointments due to resignations include the Board of Health, Assessor and Planning Board. New appointments were made for Town Counsel, Town Accountant and Dog Officer. Several new committees appointed include Environmental Hazards, Aquifer Protection, Shurtleff Park Advisory, Insurance Advisory, By-Law and Friends of the Council on Aging. The deaths of Peg Walsh, Director, and Margaret Chandler were a great loss to the Council on Aging and the Town.

The rapid growth of the Town, especially in commercial areas had a positive impact with the opening of Carver's first supermarket.

The new Cable TV Company has submitted plans to wire the entire town in two phases. Phase I (North Carver) will fill in non-cabled areas and should be completed by June, 1989. Phase II (South Carver) is for new areas and should be completed by August, 1989.

A contract was awarded for a new tanker truck for the Fire Department. Clark A. Griffith donated land on the corner of Church and South Main Streets for the proposed South Carver Fire Station. Mr. Griffith is a member of the South Carver Fire Station Building Committee.

Union negotiations with the Police, D.P.W. and Dispatchers are ongoing.

The warning that Local Aid from the State would be level-funded created anxiety and level funding of all departments of the town was attempted in order to forestall personnel cuts.

Finally, the old and sometimes reliable boiler in the Town Hall heaved its last burst of steam since 1914 and had to be replaced on an emergency basis.

The workload and responsibilities of the Board would be overwhelming without the cooperation of elected officials, appointed committee members and advisory boards. Our staff of three professional ladies ably take care of the Board's workload plus the DPW, ZBA and ambulance activities. A special thanks to Jeanne Roby, Administrative Assistant, Pat Clark, secretary, and Kelly Stuart, clerk. Town Accountant, Manny Sylvia, has ably transferred the accounts into the computer. To all the officials, boards, advisory committees and those named, a heartfelt "Thank You."

Frank R. Mazzilli, *Chairman*  
Francis J. Kane  
Paula M. Babbin

## Office of Emergency Preparedness/Civil Defense

The Town's Emergency Response Plan was submitted to the Massachusetts Civil Defense Agency (MCDA) and to the Federal Emergency Management Agency (FEMA) in October of 1988. The town has had no response to these plans at this time. The plans were scrutinized by all departments and they were asked to make any necessary changes or comments. The main issue was making sure the plan would work as written. We let this be known to the Nuclear Regulatory Commission (NRC) in December when the Assistant for Civil Defense went to Rockville, Maryland with all the other EPZ towns to inform the NRC of the concerns of the citizens of the towns.

The Civil Defense Department moved into a new Emergency Operations Center (EOC), located in the Police Department, this past June. The EOC was rebuilt and meets Federal Emergency Management Agency (FEMA) requirements for the town within the Emergency Planning Zone (EPZ) of a nuclear power plant.

Civil Defense has asked for volunteers on several occasions for different positions that are available in the Emergency Operations Center (EOC) in case of an accident either at Pilgrim or any natural disaster. We have had several people come forward and volunteer and we will be having training in the area of their positions. We have also trained several of the departments regarding their involvement with the plan. They have been compensated for this training and always will be for any drills or training that is involved.

This past year also has seen the Civil Defense Department put a program in place for HAZMAT. This program also known as SARA-Title III had to have a plan in place by October, 1988. With the cooperation of our local Fire Department and the committee for Title III we were able to submit our plans in September.

The Carver Civil Defense Office wishes to extend a thank you to the residents of Carver, MCDA-Area II staff and all volunteers for their cooperation and support of this past year.

## Board of Assessors

This has been a busy and eventful year for the Carver Board of Assessors and its staff. The completion of the 1988 Triennial Revaluation resulted in significant increases in valuations for all property classifications. These higher values combined with the override of Proposition 2½ and the appropriations voted at Town Meeting had the impact of sharp increase in property tax bills for most taxpayers. This resulted in several hundred applications for abatement being filed with the Assessors Office during the months of March and April. The Board of Assessors reviewed each application individually and hearings were held several evenings a week through the month of July with taxpayers wishing to appeal their new values. Property tax abatements were issued to adjust values and correct errors on 170 applications. An additional 140 appeals to the Appellate Tax Court were filed by 48 individual taxpayers. These appeals will be decided by the court sometime in 1989.

In April of 1988, Cheryl Robertson was elected to a three year term of office replacing Robert McGrath, who did not seek re-election following completion of a one year term of office to fill a vacancy. In July of 1988, Mrs. Robertson resigned due to relocation outside of Carver. The position remained empty until November of 1988, when Earl Healy was appointed to fill the position until the 1989 Town Elections.

In June of 1988, the four year contract for Revaluation Services with Appraisal Consultants of New England expired. The Board of Assessors conducted interviews and reviewed proposals from several appraisal firms and following approval by the Department of Revenue, a new three year Revaluation contract was signed with Patriot Properties Inc., of Peabody, Mass.

In February 1988, the Department of Revenue released the results of Study of Valuation of Farmland in Massachusetts. This study was of particular interest to the Carver Board of Assessors because it pertains to the valuation and assessment of Cranberry bogs that are assessed under Chapter 61A of the Massachusetts General Laws. The Assessors attended several meetings held by the Department of Revenue to discuss the findings of the report and in August of 1988 the Farmland Valuation Advisory Committee, an arm of the Department of Revenue, voted to adopt the results of the study as originally presented.

The adoption of this study will result in several changes in the assessment of Farmland in Massachusetts. This will have an impact on the distribution of the tax levy in the Town of Carver. The data necessary to implement these changes has not been received to date, however, it is expected to be received in the next few months.

In August of 1988, the Assessors moved to larger quarters on the second floor of the Town Hall, providing the Board and staff with some much needed additional space.

The Town Hall, including the Assessors' Office, received its new computer hardware in the Fall of 1988. Currently the staff is being trained to operate the system. Special assessing software is being prepared by the Appraisal firm. The system should be in use within the calendar year.

During the year members of the Board of Assessors, and the office staff, attended several professional seminars and educational courses pertaining to assessing. Assessor Charles Hamilton and Assistant Assessor Judith Yelle, were both presented the professional designation of M.A.A. by the Massachusetts Association of Assessing Officers and the Department of Revenue.

Respectfully submitted,

Charles E. Hamilton, *Chairman*; Earl C. Healey, *Clerk*; Matthew J. Mendes, Sr.; Judith Yelle, *Assistant Assessor*

## Director's Report

The Carver Council on Aging is a town department established to serve and assist the senior population of our community, 59 years of age and older. The COA Offices, Drop-In Center and Nutrition Center are housed in the Marcus Atwood House, located at Lakeview and Tremont Streets in South Carver. This multi-purpose center is open Monday through Friday from 9:AM until 4:PM, except for legal holidays.

Professional staff members (paid and volunteer) implement the programs and services established and authorized by the COA Board of Directors. Federal, state and local funds support a variety of services and programs focused on the needs of our senior citizens. Grants (public and private) also contribute to the financial support of this department.

## Professional Services

Certified social workers are available for screening interviews, counseling and referral assistance. Counseling is also available for Social Security & SSI assistance, legal assistance provided by Southeastern Legal Assistance Corp., other social service needs, fuel assistance, tax preparation assistance, insurance assistance through S.H.I.N.E. (Serving Health Information Needs of Seniors) and health assistance in conjunction with the Carver Public Health Nurses. Free hearing tests are offered quarterly, free blood pressure tests are offered monthly along with annual flu shots and cholesterol tests that are provided at a modest fee.

Guest speakers are scheduled as appropriate to keep seniors informed of governmental regulations and/or changes, insurance, health related issues and other topics of interest to seniors. The Carver Chapter of AARP and the Carver Senior Organization also hold their monthly meetings at the Marcus Atwood House. They too schedule guest speakers and have planned activities of interest to senior citizens.

Senior identification cards are issued by the COA and an updated list of businesses that offer senior citizen discounts is currently being prepared.

Government surplus food distribution is also administered quarterly by the COA to eligible persons.

### **Transportation**

Curb-to-curb transportation is available to the elderly and disabled persons living in our community. Operated by the COA, a GATRA (Greater Attleboro Taunton Regional Authority) mini-lift-bus and van are in service Monday through Friday for scheduled trips to shopping malls, super markets, medical appointments, social & recreational activities and for special events. A one dollar round-trip fare is accepted.

### **Nutrition**

Congregate meals are served Monday through Friday at our Nutrition Center, providing hot and nutritious meals with social interaction among senior citizens. Meals-on-Wheels are delivered to the frail and homebound seniors who qualify. A donation of one dollar is accepted.

### **Drop-In Center/Social & Recreational**

Our Drop-In Center is open daily, Monday through Friday from 9:AM until 4:PM for those wishing to read, play cards, bingo, shoot pool, watch TV or just engage in conversation with friends. Our facility is well heated in winter and air conditioned in summer. A VCR will be installed soon so that films can be enjoyed or used by guest speakers when they join us.

The COA has reserved lanes at Alley Kat Lanes in Kingston and provides transportation for our bowlers on Monday afternoons. Transportation to North Easton Fitness Center is provided on Wednesday and Friday afternoons for participants in the Aqua Arthritic Swimming & Exercise Program.

New activities set to begin, include square dancing on Tuesday afternoons and line dancing on Thursday afternoons at the Atwood House. Beginning this Spring, horseshoe courts will be installed on the grounds of the Atwood House for use and enjoyment of seniors. A walking club will be organized this Spring as well.

Special day-trips to Old Sturbridge Village to view the fall foliage; Narragansett Bay for a days cruise, LaSalette Shrine to view the Christmas lights, the Middleborough Historical Museum, etc. were so popular that more trips are being planned for the coming year: theater trips, musicals, ice shows, sporting events, flower show, etc.

Friend's of the COA, Inc. sponsor various fundraising dinner/dances and will be planning more for the coming year. Our Annual Chicken BBQ and St. Patrick's Day Corned Beef & Cabbage Dinner were very successful this past year as was our Summer Frolic, Halloween Party and Valentine's Day Buffet/Dance.

### **Newsletter**

To keep our senior population informed of activities, programs and matters of particular interest to them, we now distribute a monthly newsletter. Increased postage cost and related expenses prevent us from mailing the newsletter, but they are available for

pick-up at the Town Hall, Carver Public Library, Atwood House and in the stores and businesses that advertise in our publication. Newsletters are also distributed on our GATRA buses and with the help and assistance from the mobile home parks, distributed along with their own newsletters.

### **Funding**

The Town of Carver provides the COA with rent-free use of the Marcus Atwood House, provides heat and electricity, ground maintenance, snow removal and pays the salaries of the Director, Program Coordinator and Clerical/Typist. GATRA reimburses the town for the salaries of the Dispatcher, Bus Drivers and costs related to operation & maintenance of our two vehicles: i.e. gasoline, oil, repairs (parts/service) etc. A Nutrition III-C Grant from Old Colony Planning Council pays the salaries of the Site Manager, Chef and Assistant Chef, while the Friend's Committee pays the salary of our Dishwasher. Three Senior Aides are paid by the Department of Labor and our new Outreach Worker will be paid from a Title III-Older Americans Act grant received from Old Colony Planning Council. OCPC grants also enable us to participate in the Aqua Arthritic Swimming Program and make available to us the valued service of Susan Gates, Geriatric Social Worker. These grants, along with a private and generous grant from the Howard W. Maxim Foundation, make possible the varied programs, services and equipment available to us.

### **Volunteers**

The COA could not possibly provide the kinds of services we offer, were it not for the help and assistance of our many dedicated volunteers. They set up the dining room each day, help serve meals, deliver Meals-on-Wheels, help decorate for special occasions, and assist as we prepare food baskets at Thanksgiving and Christmas. Other tasks include sorting and counting newsletters, helping with the distribution of surplus food, etc. In short they are available for any task called upon. Our "Annual Appreciation Luncheon" and modest car allowance reimbursement hardly begins to compensate them for all that they do for the COA and the Carver seniors.

### **Personal Note**

Finally, as the new Director of the COA, I cannot express the gratitude and appreciation I feel for the on-going support of the Board of Selectmen, the Carver COA and Friend's Board of Directors, along with the private citizens and seniors being served. Your warm and helpful acceptance along with that of the staff and volunteers has made this new position much easier and much more rewarding. All of us welcome your continued support and look forward to the new year with excitement and enthusiasm as we plan for new and expanded responses to the needs of our senior citizens.

Respectfully submitted,

Paul T. VonBurg, *Director*

# Commissioners of the Southeastern Regional Planning and Economic Development District

The Southeastern Regional Planning and Economic Development District served the Town of Carver in many ways in 1988. SRPEDD (pronounced sir-ped) is not a federal or state agency, but a true locally run regional agency serving southeastern Massachusetts. In the past year, the Town of Carver continued its participation in SRPEDD, with the town being represented on the Commission by John Michevich representing the Board of Selectmen.

Some of the District's more significant accomplishments in 1988 were:

- Completion of the annual Transportation Improvement Program (TIP) and Overall Economic Development Program (OEDP) which set regional priorities on federal and state grants for transportation and economic development projects.
- Initiation of a regional groundwater (aquifer) mapping project, to be completed in 1989.
- Staffing of the South Eastern Economic Development (SEED) Corporation, which makes loans to small businesses for expansion. In 1988, SEED approved loans to 14 small businesses in the amount of \$2.35 million. These loans are projected to create 170 jobs and will result in the investment of \$4.85 million from private sources.
- SRPEDD continued to provide the planning services for the two regional transit authorities, GATRA and SRTA.
- SRPEDD reviewed the environmental impact of larger development projects in the region to insure that potential harmful impacts will be addressed. This year, we reviewed one hundred forty five such projects, commenting on the impact on traffic, water supply, sewage disposal, wetlands, and other development-related issues.
- Fifty-five applications for federal and state funds were reviewed to insure consistency with other plans and efficient use of public funds.
- The district traffic counting program and computerized accident filing system were both expanded in 1988.

We look forward to serving the Town of Carver in 1989.

The library has had great success in getting the collection ready for the on-line SEAL (Southeastern Automated Libraries) participation. The collection is bar coded and linked to earlier bibliographic database materials. Terminals are on-line and the patron terminal is ready to use when the system is on-line. Volunteers have given an average of 30 hours per week to help get the collection ready for circulation. This enormous undertaking could not have been possible without them; Louise Denehy, Catherine Salveson, Ruth Donovan, Cynthia Sweetser, Cindy Borden and Bobby Seely worked on this project.

Patrons have completed new registrations to update the files. They will have new cards for the new system.

Janet Banks, the very able Children's Librarian has increased the number of story hours from two to four to accommodate the increasing number of children using the library. She utilizes the materials from the Boston Public Library as well as materials at hand in the SEAL network to give the children maximum exposure to books.

Donna LeBarnes, as technical services person, has ably made the transition to the computer to "talk" to the other libraries on the SEAL system for our needs in Carver. Many groups used the Atwood Room: scout groups had tours and membership drives; Arts Lottery, Pound, and the the Public Health Nurses as well as Hazardous Waste meet in the Atwood Room.

The Librarian wishes to thank all the many Carver residents who donated their special collections and books to the library. Each and every book is much appreciated.

# Plymouth County Mosquito Control Project

The Commissioners of the Plymouth County Mosquito Control Project are pleased to submit the following report of our activities during 1988.

The Project is a special district created by the State Legislature in 1987, and is now composed of 23 Plymouth County towns, the City of Brockton, and the Town of Cohasset in Norfolk County. The Project is a regional response to a regional problem and provides a way of organizing specialized equipment, specially trained employees, and mosquito control professionals into a single agency with a broad geographical area of responsibility.

1988 was a year of significant challenges. Many of the concepts, equipment, and procedures implemented over the last five years were tested by unusual summer heat and record July rainfall. Trap collections of flood-water mosquitoes were at a ten year high across much of New England. In Plymouth County, efforts aimed at immature larval mosquitoes reduced populations significantly. Follow-up ultra low volume spraying reduced adult populations to tolerable levels in a short time. The technology and procedures that are in place now are far more effective and efficient than those of a decade ago. Special efforts were put forth by the field crews who worked in the excessive heat.

The threat of the mosquito transmitted disease Eastern Equine Encephalitis (EEE) was low in 1988. There was some concern that this season's surge in summer floodwater mosquitoes (*Aedes vexans*) might result in transmission of the virus to people, and some additional spraying was done. Virus was recovered from bird feeding mosquitoes, but no horse or human cases occurred. The recurring problem of EEE in Southeastern Massachusetts continues to ensure cooperation between this Project and the Massachusetts Department of Public Health.

Other significant developments including an increase in membership. The Town of Kingston joined the regional project on July 1, and began receiving the same services as other member towns. In addition, our systematic trapping program was expanded in all towns beginning July 1, thereby providing more complete information on which to base control decisions. Finally, a specially designed tracked vehicle has been acquired which makes possible inspections of the more remote and inaccessible areas.

The figures specific to the Town of Carver are given below. While mosquitoes do not respect town lines the information given below does provide a tally of the activities which have had the greatest impact on the health and comfort of Carver residents.

1. *Insecticide Application.* 6,844 acres were treated using truck mounted sprayers for control of adult mosquitoes. More than one application was made to the same site if mosquitoes reinvaded the area. The first treatments were made in May and the last in September.

Our greatest effort has been targeted at mosquitoes in the larval stage, which can be found in woodland pools, swamps, marshes, and other standing water areas. Inspectors continually gather data on these sites and treat with highly specific larvicides when immature mosquitoes are present. Last year a total of 260 inspections were made to 63 catalogued breeding sites.

1A. *Aerial Application.* Larviciding woodland swamps by airplane before the leaves come out on the trees continues to be very effective. In Carver this year we aerially larvicided 780 acres.

Finally, we have been tracking complaint response time, that is the time between notice of a mosquito problem and response by one of our inspectors. The complaint response time in the Town of Carver was less than two days.

2. *Mosquito Species.* *Coquillettidia perturbans* was the dominant mosquito collected in the Carver trap. Other important mosquitoes collected included *Culiseta melanura* and *Aedes vexans*.

We encourage citizens or municipal officials to call our office for information about mosquitoes, mosquito-borne diseases, control practices, or any other matters of concern.

Kenneth W. Ludlam, Ph.D.  
*Superintendent*

## Trustees for Plymouth County Cooperative Extension

by Mary M. McBrady, Director

Cooperative Extension is located on High Street, Hanson (on the grounds of the County Hospital). Cooperative Extension is a partnership of the United States Department of Agriculture, the land-grant college—the University of Massachusetts, Amherst and county government. It is a nationwide informal educational program.

County Agents are specialists in programs targeted to Agriculture, Communities, families and 4-H youth.

Staff consists of a director, two regional agricultural specialists, a community resource development specialist, two home economists, three 4-H agents and a split position, 4-H/home horticulture. In addition, Cooperative Extension administers a federally funded nutrition education program, The Expanded Food and Nutrition Education Program (E.F.N.E.P.), located in Brockton. This is staffed by a nutrition specialist and program assistants (5 full-time equivalents) who deliver the educational program to families with limited resources.

Cooperative Extension agents serve the public through planning and conducting educational conferences, workshops, phone call assistance, field visits and timely newsletters.

In our 4-H program last year 7,006 youth were enrolled, of that number 493 were enrolled in club programs, and 6,513 were exposed to 4-H through short-term projects. 560 volunteers assisted in conducting the county 4-H program.

Newsletters, free for the asking, are *Garden Clippings*, a monthly horticulture fact-filled publication; *So-Sew*, informational “how-to” letter for the serious home sewing; *Creative Living*, provides current information in the areas of clothing and textiles, human development, housing and home management. Newsletters for commercial agricultural enterprises are available (Small Fruit, Vegetables, Tree Fruits, Small Farms and Livestock).

During this past year 10,400 educational publication orders were requested by residents. Free soil pH testing was conducted, testing 247 samples. 144 newsletters were prepared and mailed to client groups.

Your County Cooperative Extension office can be of service to you by calling 293-3541 or 447-5946, Monday through Friday, 8:30 am–4:30 pm.

## FUNDING STATUS REPORT

In 11 out of 14 Massachusetts counties during the past 5 years, funding was changed from county based funding to a state allocation under the University of Massachusetts. Since 1914 counties had been the primary supporter of this program, with limited state and federal contributions. This model of major contribution by counties was only done in one other state, New York. Feeling that local budget control was working, the 3 southeast counties in Massachusetts, Barnstable, Bristol and Plymouth, chose not to transfer their budgets to the state until such time as it was deemed necessary by county decision-makers. This year we were informed we should attempt a transfer.

Cooperative Extension felt the pinch when it was juggled during a difficult budget year for state and county. Over 24,000 petition signatures were obtained by 4-H'ers, clients, and residents concerned on the possible loss of our service. Ultimately, we were funded until June 30, 1989 by Plymouth County government, with plans by the state to assume funding starting next fiscal year.

My sincere thanks to friends, supporters, town officials and legislators for assisting us during these difficult budget negotiations and speaking out on our behalf through the media, letters, cables and calls to key decision-makers.

## Department of Public Works

The Honorable Board of Selectmen:

During the past year the accomplishments of your Board of Public Works were as follows:

*New pavement.* Road leveling done with Grader. Popes Point Road 3,000 ft.; Holmes St. 2,500 ft.; Hines Ave. 600 ft.; Pine City Road 850 ft.; Crystal Lake 3,000 ft. A total of 9,950 ft.

*Chapter projects done this year.* High Street 1.5 miles long. Resurfaced 8,300 ft. Some 3,528 tons of bituminous concrete. Tremont St. 2,600 ft. pulverized and 4,000 ft. of binder was laid. To be finished: to Mayflower Road this spring with remaining binder and top.

There was a total of 800 ft. of drainage completed on High St. this year. Five new basins: two under road; drainage pipes also replaced on High St.; 300 ft. on Meadow St. was completed in a problem area; 60 ft. on Old Center St.; and 500 ft. on Plymouth St. Sand sealing was done on the following roads: Meadow St. 7,000 ft.; Cross St. 4,100 ft.; stoned chip sealed Holmes St. 3,000 ft.; slurry sealed Beaver Dam Rd. 3,000 ft. A total of 17,100 ft.

*Line painting was done on the following roads this year:* Purchase St., Fosdick Rd., sections of Tremont St., Cranberry Rd., Rochester Rd., High St., Forest St., Beaver Dam Rd., and Silva St. All intersections on Purchase St. were painted with STOP BAR in the road due to the sign vandalism in this area. Cross walks in center of Town. There were also stop bars painted in different parts of town.

*Street sweeping was done on the following roads:* Route 58 from Plympton to Wareham Line, South Meadow Rd., and all housing developments that budget would allow.

There have been 30 burials so far this year.

Twenty-three foundations have also been completed this year.

There was 20,000 square ft. of new cemetery built in the Central Cemetery this year. We are also building new cemetery in the Union Cemetery in South Carver. Hopefully, we can get some paving money to do some repaving in all of the cemeteries. They are in desperate need of it.

Mowing was done this year on Route 58, Route 44, Silva St., Purchase St., and South Meadow Rd. Much more should be done; hopefully, budget will allow more this year.

Snow removal so far this year has been light. Sanding has been about normal.

The Youth Program, headed by Rocky Gomes, has done a lot of painting and maintenance of recreation areas. A thanks to them.

M.C.I. workers have also done a good job taking care of the cemeteries, cutting grass, trimming trees, fixing buildings, doing carpentry work at various town facilities. They pick up a lot of roadside trash. A thanks to Bob Carey and his M.C.I. workers.

We have a lot of projects planned for the '89 season. Hopefully, we can all work together and get these projects done. As all who have lived in this town awhile realize, the town is growing rapidly. The DPW has to grow also to keep up with the needs of taxpayers.

We would also like to thank all the employees of the DPW and all other departments for their help in a most successful year. Bill Halunen deserves a super thank you for keeping thing going so smoothly. We also would like to thank Alan Dunham, Jeanne Roby and Pat Clark for their capable assistance.

Thank you again.

# Carver Public Health Nurse Committee

This past year was a successful and productive one for the CPHNC staff. As a comprehensive, certified home health agency, the Carver Public Health Nurses provide basic home health care to the residents of Carver. The services provided are skilled nursing, physical therapy, occupational therapy, speech therapy, medical social work and home health aide.

We are very fortunate to have such a dedicated and skillful staff. The health care climate continues to change very rapidly with increasing demands on our staff. These demands include not only caring for sicker patients with complex health care needs, but also increasing documentation and paperwork. It continues to be my pleasure to work with such a devoted and professional staff.

For FYE 6/30/88 the following visits were made:

## **Morbidity** (care to the sick)

Skilled nursing	1,044
All therapies	235
Home Health Aide	<u>1,075</u>
Total visits	2,354

## **Health Promotion**

Home visits & office visits	223
-----------------------------	-----

## **Clinics** (total for calendar year 1988)

Blood Pressure and Health Monitoring: 26 clinics, 483 visits

Flu Immunizations: 433

Pneumonia Immunizations: 16

TB Screening (Mantoux): 360

Cholesterol Screening: 143

As a certified agency the Carver Public Health Nurse Committee has the ability to bill third party payors (Medicare, Medicaid, Private Insurances) for services provided. The following receipts were submitted to the Town for FYE 6/30/88.

Medicare	30,354.72
Medicaid	17,718.19
Blue Cross	4,266.70
Private Pay	2,920.00
Other Insurances	<u>6,585.99</u>
	\$61,845.60

The nursing agency continues to receive support and assistance from the Friends of the Carver Public Health Nurses. The "Friends" sponsored a town-wide Cholesterol Screening Day on July 13. The program was well received and 143 residents participated in the program. The response was so positive that cholesterol screening will be offered by the "Friends" every 6 months. Our thanks go out to Kathy Murray, Joan Garretson, Mary MacDonald, Marian Erwin, Beverly Sundberg, Susan Colagiovanni, Jean Johnson & Lisanne Alves.

May of 1988 was National Blood Pressure Month. Through the combined efforts of the "Friends" and the nursing staff, BP Clinics were offered each week of May at

a variety of sites in town. Thank you to the merchants who supported this effort: Sedell's Pharmacy, Beverly Hills Concepts, Carver Square & Country Junction.

Lorraine Martin, Certified Home Health Aide, of Carver joined our staff this past year. Lorraine is the first HHA we have had as a permanent member of our agency and we are all delighted to be working with her. Lorraine joins Claire Biever, R.N., & Dolores Peru, R.N., Public Health Nurses & Laurel Butler, Office Manager.

The staff attended a variety of inservice educational programs this past year. Included were Passenger Safety Program re: seat belt use, Lead Poisoning Prevention, Future Trends in Home Health Care, and the Lifeline Program. The staff are always willing to update their skills and improve their nursing practice.

With the rapid growth of our community and the complexity of the health care system, the year ahead will certainly prove to be an exciting and challenging one. Our staff will continue to be available and accessible to all Carver residents to meet their home health care needs.

## **Public Prosecutor Department**

To the Honorable Board of Selectmen:

During the past year the Office of Public Prosecutor has been involved in processing and prosecution of approximately 719 criminal cases composed of approximately 1962 complaints.

As a direct result of your Police Department's action, the Court records reveal that from July 1, 1988 through December 12, 1988, a total of \$9,990.00 was collected in fines and returned to the general treasury of the Town. Furthermore, for the first six months of the year, the sum of \$16,140.00 was returned to the Town treasury. Thus, for the entire year, an amount in excess of Twenty Six Thousand Dollars was returned to the Town.

Currently, the case backlog stands at three to four months, in spite of the fact that over ninety percent of the cases are disposed of by plea bargaining. The Court has been able to schedule double sessions one day per week but this additional help has not been sufficient to bring our case load up to a current standard.

The Prosecutor continues to be present daily in the Court to handle and assist all Town departments in any action taken by them to effectuate enforcement of regulations, by-laws or delinquent taxes, etc.

Harry J. Schmitt, Jr.

# Carver Public Schools

Some historic milestones were attained by Carver Public Schools during the last year. School opened on September 7, 1988 reflecting the highest enrollment in the school's history with 1250 students. In October 1988 I began my new position as your first full-time Superintendent of Schools.

As I look back on the last few months, the excitement and energy that was clearly observable as I toured the school buildings for the first time has not diminished. The activities and programs available to your children signify the enthusiasm and dedication of an involved and dedicated staff and school/parent organization.

The past year has seen the adoption and implementation of several major curriculum revisions in the areas of mathematics, reading, computer literacy and science. Basic skill development has had continued emphasis this year and the positive results were evident in our high percent of students achieving basic skills competency. This school year also marked the initiation of instructional programs in computer use and the enrichment class for gifted and talented students. In-service workshops for this year will be focused on helping teachers in implementing our new mathematics curriculum and in choosing a new mathematics textbook.

The total school budget for the 1988-89 school year was approved at \$3,430,413. An additional amount of \$253,000 was received in both state and federal grants to fund programs such as special education, basic skills, early childhood, gifted and talented and in-service workshops. It is important to note that many hours of staff time, beyond the required work day, were spent developing a majority of these grant applications.

Although the mission of any elementary education curriculum should be the solid development of basic academic skills, cultural and enrichment activities are an integral part of a well-rounded educational program. With the help of staff and the Carver Home School Association, our children have had the opportunity to participate in several cultural activities. This year students attended the Ziterion Theater in New Bedford and also have had the benefit of an Artist-In-Residence program.

As we reflect back on the past year, the community can be proud of the accomplishments of their children and school personnel. With continued community and municipal support, Carver Public Schools stand ready and capable of meeting any challenges we may face in the year ahead.

Respectfully submitted,  
Dr. Martin T. Hanley, Jr.  
*Superintendent of Schools*

## Governor John Carver Elementary School and Benjamin Ellis Pre-School

Our pre-school through grade six classes began the 1988-89 school year with an enrollment of twelve hundred fifty (1250) students. Over eighty (80) professional staff service children on a daily basis.

Several new academic as well as social and cultural activities and programs were initiated during this school year. The Carver School Committee adopted four (4) newly written curricula in the following areas: Computer Logo, Mathematics, Reading, Science. Under the direction of Ms. Anne Butler, Curriculum Coordinator, several staff members composed these specific curriculum guides. Furthermore, students in grades kindergarten through six are participating in the piloting of two (2) new mathematics series, one of which will be selected for adoption in the 1989-90 school year. Basic Skills education and instruction remain a heavily emphasized area. Through early release staff training and after-school Horace Mann Mathematics Workshops, classroom teachers have had the opportunity to refine their teaching skills in the areas of mathematics and reading.

Other academic programs were also initiated, grades one through six developed team-teaching classrooms whereby students on individual educational plans and regular education students would be part of a classroom taught by two (2) teachers, a special needs teacher and a regular education teacher. These programs were developed to meet the individual needs of the children while allowing them to remain in the classroom as often as possible. The primary grades continue to enjoy their two (2) successful developmentally oriented classrooms. Both the developmental kindergarten program and the transitional kindergarten program service students whose maturational level may not necessarily be age appropriate. Finally, two (2) other programs began this year. Under the direction of our instructional media specialist, Ms. Mariann Scannell, students received formal computer education classes. Enrichment activities were also addressed as we had our first full year of having an Enrichment Program, under the direction of Ms. Jayne Snarsky.

Cultural as well as social programs and activities also existed at the school. Grade one classes participated in an Artist-In-Residence Program for thirty (30) days in dance and movement while other grade levels each participated in weeklong arts experiences related to the curriculum. Students in fifth and sixth grade participated in a "Just Say No" program under the direction of our former health teacher, Mr. Robert Tinkham. Lastly, students in grades one through six were actively involved for over two (2) months with Read-A-Thon Program to raise funds for the Multiple Sclerosis Society.

The Governor Carver Schools continue to enjoy a positive productive relationship with its Home-School Association. This active parent group has funded several activities, purchased a great deal of equipment, and sponsored many events. Members of the CHSA were responsible for initiating and implementing plans for all Carver elementary students to travel to Ziterion Theatre in New Bedford on December 1, 1988. This Association remains an essential link between the home, school and community.

Fred Morris, Principal  
William Lander, Assistant Principal

## Special Education

The Special Education Department provided services to 335 students during the 1987-1988 School Year. These services ranged from consultant monitoring to residential placements. The special education staff was comprised of twelve special education teachers, three speech therapists, a school nurse, a part-time vision specialist, five teacher assistants, a secretary and the special education administrator. Contracted services included a school psychologist, a behavioral psychologist, an occupational therapist, and a physical therapist. Grant funds related to special education amounted to over \$80,000. Several small grants including one for a summer reading program (serving over thirty children) were written and submitted by special education staff. Other grant funding provided support to all special education programs in the form of additional direct services, supplies and materials, and clerical/administrative assistance. The special education program continues to be a vital support component of the Carver Public Schools.

Christopher B. Kendall, Ed.D.  
*Special Education Administrator*

## Curriculum Coordinator

The 1988-89 school year opened with School Committee approval of four revised curriculum guides in the areas of reading, science, computer instruction and math. Selected teachers in grades K-6 are conducting a pilot study to evaluate the effectiveness of math textbook programs in order to make a recommendation to Dr. Hanley and the School Committee late this spring. School Improvement Funds are being used to purchase Jr. Great Books and classroom libraries to enrich our literature programs. In addition to the basal curricula, students have been provided with a great deal of enrichment opportunities through various speakers, visiting artists, field trips, and after-school programs.

The released time in-service program offered opportunities for teachers to improve their skills in the areas of math, science, whole language, and helping students to develop self-esteem. All teachers will also be attending after-school math and computer workshops as the result of a Horace Mann Grant. Next year's staff training program will focus on reading and math.

Students in grades 3 and 6 were administered Basic Skills Tests in the areas of reading, math, and writing this fall. Carver's scores showed an upward trend. Remedial services are being provided for youngsters showing deficiencies in the areas of reading, math, or writing. The School Department also received the results of last spring's statewide assessment tests which indicated that our fourth grade students were performing as well as, or better than, their statewide counterparts. Students in grades 2, 4, and 6 will take the CTBS and TCS standardized tests this spring.

This year the system has received various grant monies to operate programs in the areas of basic skills, gifted and talented, computer instruction, in-service training, art programs, special education and early childhood programs.

Respectfully submitted,

C. Anne Butler

## Environmental Hazards Committee

The members of Environmental Hazards Committee were sworn in October of 1988. Our first meeting was held on 18 October 1988 with officers being elected and members in attendance as stated below. We have met with the Board of Health and the Selectmen to receive what they believe to be the most pressing problems in the town.

In November our vice chairman Wayne Christian resigned from the committee to become a member of the Board of Health.

Our first project was the North Carver Dump but we have since withdrawn our decision and instead put our support behind the article of the January Town Meeting for the hiring of a private investigator.

Our aims are now the possibility of a Town Recycling Center for cans, bottles, papers, etc., and also a means of disposing of used motor oil and other related products. These projects we hope to be able to get started within the year 1989.

# TOWN WARRANT

AND REPORT OF THE

## FINANCE COMMITTEE

OF THE

## TOWN OF CARVER

MASSACHUSETTS

ANNUAL TOWN MEETING & SPECIAL TOWN MEETING

**Election: Saturday, April 8, 1989**

**Meeting: Monday, April 24, 1989**

# Municipal Finance Terminology

The following terms are frequently used in the Annual Town Report and at Town Meetings. In order to provide everyone with a better understanding of the meaning, the following definitions are provided.

## **SURPLUS REVENUE: (often referred to as "Excess and Deficiency")**

This fund represents the amount by which the Cash, Accounts Receivable and other floating assets exceed the liabilities and reserve. This is a bookkeeping item.

## **AVAILABLE FUND: (often referred to as "Free Cash")**

Available Funds is the amount certified annually by the State Bureau of Accounts by deducting from surplus revenue all uncollected taxes for prior years. This fund may be used by a vote of the Town Meeting.

## **OVERLAY:**

The Overlay is the amount raised by the Assessors in excess of appropriations and other charges for the purpose of creating a fund to cover abatements granted and avoiding fractions.

## **OVERLAY RESERVE:**

This is the accumulated amount of the Overlay for various years not used or required to be held in the specific Overlay account for a given year, and may be used by vote of the town for extraordinary or unforeseen purposes or voted into the Reserve Fund.

## **RESERVE FUND:**

This fund is established by the voters at an annual town meeting only and may be composed of (a) an appropriation (not exceeding 5% of the tax levy of the preceding year), (b) money transferred from Overlay Reserve, or (c) both.

## **STABILIZATION FUND:**

This is a fund created to provide a reserve for capital expenditure. Appropriations from the Stabilization Fund may be made at an Annual Town Meeting by a two-thirds vote for any purpose the town is authorized to borrow money for under Section 7 or 8 of Chapter 44 or for such other purpose as is approved by the Emergency Finance Board.

## **CHERRY SHEET:**

Named for the cherry colored paper on which the Massachusetts Commission of Corporations and Taxation traditionally has printed it, the cherry sheet carries the figures which must be used by the Assessors in determining the amount to be raised by taxation.

It lists the amounts of county tax and state assessments, as well as the estimated tax distributions from the General Fund, reimbursements, agency funds, and the Sales and Use Taxes.

**Article 5.**

**Article 6.** To see if the Town will vote to amend the Zoning By-Laws, replacing the Earth Removal By-Law Section 9.0 through 9.4 with the following By-Law, or take any other action relative thereto:

**SECTION EARTH REMOVAL**

**9.0**

**9.1 PURPOSE**

To ensure that permanent changes in the surface contours of land resulting from the removal and realignment of earth material will leave the land in a safe and convenient condition for appropriate reuse without requiring excessive and unreasonable maintenance or danger of damage to public and private property, as well as to provide that earth removal activities shall be conducted in a safe manner with due regard to safety and with minimal detrimental effect upon the district in which the activities are located.

**9.2 DEFINITIONS**

- A. *earth*: all forms of soil, including but not limited to clay, gravel, hard pan, loam, peat, rock, or sand.
- B. *lot/land*: a single parcel of land lying in a single body and separated from contiguous land by property lines or street lines.
- C. *removal*: the stripping, excavating, or blasting of earth from one lot and carrying it away from said lot.

- D. *property line*: a line separating land in one ownership from land in a different ownership.
- E. *owner*: the owner of the land from which earth is sought to be removed, including individual owners, realty trusts, companies and corporations.
- F. *special permit granting authority (S.P.G.A.)*: the Board of Appeals of Carver.
- G. *Special Permit*: shall agree with the provisions of Section 8.0 through 8.4 of these By-Laws.

### **9.3 SPECIAL PERMIT REQUIREMENTS**

Except as provided otherwise in this by-law, no earth shall be removed from any lot in the Town of Carver without the issuance of a special permit from the Board of Appeals as the special permit granting authority.

Applications for special permits for earth removal shall be on such forms or in such manner as the S.P.G.A. may specify in its rules and regulations. The regulations adopted shall include, but not limited to: the method of application, required exhibits, site plans fees, and bond requirements.

No such permit shall be issued until an application has been filed and a public hearing held. Notification of the public hearing shall be advertised for two consecutive weeks in a town paper beginning at least 14 days before such hearing, and by written notice to the Board of Health, Board of Selectmen, Conservation Commission, Planning Board, and the abutters. Advertising and related expenses shall be borne by the owner.

### **9.4 SPECIAL PERMIT CONDITIONS**

The S.P.G.A. shall determine that the proposal generally conforms to the principals of good engineering, sound planning, correct land use, and provides for the proper and reasonable reuse of available topsoil. The board shall also determine that the applicant has the means to implement the proposal if the permit is granted, and to restore the site to an appropriate condition including grading, loaming, seeding, or other alternative landscaping as may be required as a condition to the special permit.

Applications for permits may be granted, denied, or granted in part and denied in part. The conditions of the permit, including the expiration date, shall be clearly set forth on the permit.

No permit shall be issued for a period in excess of 12 months. All permits shall expire on November 15 of each year. Once issued, the permit may be renewed at the discretion of the S.P.G.A. without another public hearing for not more than 12 months.

### **9.5 SITE PLAN**

A site plan shall be submitted in the quantities and in the form required by the rules and regulations of the S.P.G.A. Such plan may be submitted by the S.P.G.A. to the Planning Board, the Conservation Commission, or other officers and official boards of the town for review and comment.

The site plan shall be prepared by a registered professional engineer or registered professional land surveyor.

The plan shall include, but not be limited to, pertinent information on the following: lot boundaries, names of abutting owners, streets, contiguous to the site, vegetation, existing and proposed roadways, existing and proposed buildings, location of sources of water, sewage disposal, parking, loading areas, easements and rights-of-

way, walls, fences, ditches, streams, ponds, and known permanent monuments, and other cross-sections, profiles, and contour maps needed to describe the proposal. The site plan shall show existing intermediate and final ground levels with those of adjacent properties and shall indicate natural surface water flows and drainage ditches if any.

## **9.6 EXEMPTIONS**

The special permit requirements shall not apply to any earth removal operation involving less than 100 cubic yards in one calendar year; to the moving of earth materials under the provision of a duly approved subdivision plan; to work necessary for the construction of streets and the installation of utilities; to work in connection with the excavation and grading of land incidental to construction of a duly permitted structure; or to work performed in normal construction, maintenance or improvement of land in cranberry-related activities or in other agricultural uses.

Normal construction, maintenance or improvement of land in cranberry related activities or other agricultural use is defined as earth removal necessary to construct, maintain or improve contiguous or other owner occupied land within the Town of Carver and does not include the removal of earth for sale, trade, or other considerations.

The building inspector shall have the authority to authorize any earth removal operation involving greater than 100 cubic yards and less than 75,000 cubic yards in a calendar year. In such cases, a special permit from the S.P.G.A. shall not be required.

## **9.7 GENERAL PROVISIONS**

Any continuous earth removal activities in actual working operation on the effective date may continue unaffected by the By-Law until the November following the approval of the Attorney General. As of the effective date of the By-Law, all previous By-Laws of the Town of Carver relative to earth removal shall be repealed.

The penalty for violating any provisions of this By-Law shall be a fine of one hundred dollars for the first and every offense. Each day of operation in violation of the By-Law is to be considered an offense.

If any earth shall be removed without obtaining a special permit or otherwise in violation of this section, the S.P.G.A. may order the restoration of the property involved in accordance with the provisions of this section. Such an order of restoration will not constitute a waiver of any other fines or penalties for such violations.

The provisions of this By-Law are severable; and if any provision or the application of such provision to any person or circumstances is held invalid or unconstitutional, this shall not affect the remaining provisions.

### **Article 6.**

**Article 7.** To see if the Town will vote to transfer from available funds in the Treasury the sum of Five Thousand Nine Hundred Sixty-two Dollars and Eighty-one Cents (\$5,962.81) to the Departmental Equipment State House Notes-Issue of 8/15/88 Account, or take any other action relative thereto.

(by Town Treasurer)

### **Article 7.**

**Article 8.** To see if the Town will vote to amend the Town of Carver Zoning By-laws by adding the following section:

*Section 14.0 The Water Resource Protection District*

*14.1 Purpose*

The Water Resource Protection Districts are intended to protect the public health, safety, and welfare by preventing contamination of, and preserving the quantity of ground and surface water which provides existing or potential water supply for the Town's residents, cranberry growers, institutions and businesses.

*14.2 Definitions*

For the purposes of this section, the following terms shall be defined as follows:  
*Agricultural use*—land in agricultural use means land primarily used in the raising of animals, fruits, vegetables, berries, nuts, or other food for human consumption, feed for animals, tobacco, flowers, sod, trees, nursery or greenhouse products, and ornamental plants and shrubs, or in raising forest products under a planned program; or when primarily and directly used in a related manner which is incidental thereto and represents a customary and necessary use in raising such products and preparing them for market.

*Hazardous waste*—Materials as defined and regulated by 310 CMR 30.00 et seq. (Massachusetts Hazardous Waste Management Regulations).

*Impervious surface*—Material covering the ground, including but not limited to macadam, concrete, pavement, and buildings that does not allow surface water to penetrate into the soil (cranberry bogs are not considered impervious surfaces).

*Maximum groundwater elevation*—The height of the groundwater table when it is at its maximum level or elevation. This level is usually reached during the months of December through April and allowances should be made therefore at other times of the year.

*Solid waste*—Unwanted or discarded solid material with insufficient liquid content to be free flowing, including without limitation rubbish, garbage, junk refuse and ash. The term does not include vegetative compost, tree stumps and brush under 200 cubic yards.

*Special Permit Granting Authority (SPGA)*—The members of the Carver Planning Board.

*Toxic or hazardous materials*—Any substance or mixture of such physical, chemical or infectious characteristics as to pose a significant, actual or potential hazard to water supplies and to human health, if such materials were discharged to land or waters of this Town. Toxic or hazardous materials include, without limitation, petroleum products, heavy metals, radioactive materials, virulent infectious wastes, pesticides, herbicides, solvents, thinners and other materials which are listed as U.S. Environmental Protection Agency Priority Pollutants.

*14.3 Applicability*

1. Water Resource Protection Districts shall be considered as overlying other zoning districts.
2. The applicability of this section to existing uses or structures and to projects legally begun at the time of adoption, shall be governed by the Town of Carver By-Laws.

3. The provisions of Part 14.4.2 (except 14.4.2.d) shall not apply to land in agricultural use or land being constructed for agricultural use as defined above.

#### *14.4 Use Regulations*

1. The following uses are prohibited:

a. Solid waste disposal facilities, including without limitation landfills and junk and salvage yards, that require a site assignment from the Board of Health under M.G.L., Ch. 111, s.150A (the Landfill Site Assignment Law) and regulations adopted by the Department of Environmental Quality Engineering, 310 CMR 19.00;

b. Storage of hazardous wastes in quantities as defined by the Massachusetts Hazardous Waste Management Regulations by a "large quantity generator" including without limitation chemical wastes, radioactive wastes and waste oil;

c. Disposal of hazardous wastes.

d. Disposal of snow that contains de-icing chemicals and that has been brought in from outside the District;

2. If, in the judgement of the Special Permit Granting Authority, the Design Operation Standards in Part 14.6 are adequately satisfied, the following uses may be allowed upon issuance of a Special Permit and subject to such conditions as the SPGA may impose. Failure to comply with the terms and conditions of a Special Permit shall be grounds for revocation of said permit.

a. Major construction projects requiring review of the Carver Planning Board, and which are subject to site plan review;

b. Any uses where more than 10,000 square feet of any lot would be rendered impervious (not to include roadways).

c. Underground storage of petroleum and other refined petroleum products, including without limitation gasoline, waste oil, and diesel fuel, except within buildings which it will heat or where it currently exists. The SPGA shall be notified prior to the replacement of any tanks. Replacement tanks shall be double walled (or current state of the art) tanks and shall be of the same gallonage or less. Large tanks shall require a permit under this By-Law.

d. Storage of road salt or other de-icing chemicals in quantities greater than for normal household use;

e. Manufacture, use, storage, or disposal of toxic or hazardous materials as part of a principal activity, but excluding domestic activities and pesticide applications for normal agricultural use.

f. Motor vehicle service stations, repair garages, car washes, truck or bus terminals, heliports (excluding helistops), airports, electronic manufacturing, metal plating, commercial chemical and bacteriological laboratories, and dry cleaning establishments using toxic or hazardous materials on site;

#### *14.5 Site Plan Approval*

Any application for special permit shall be made, reviewed and acted upon in accordance with the following procedures:

1. Each application for a special permit shall be filed in writing with the SPGA and shall contain a complete description of the proposed use, together with any

supporting information and plans which the SPGA may require. Submissions should include appropriate engineering data to provide a basis for reviewing the impact of the proposed activity on the Aquifer Protection Districts.

2. The SPGA shall refer copies of the application to the Board of Health, Conservation Commission, and the Department of Public Works, which shall review, either jointly or separately, the application and shall submit their recommendations to the SPGA. Failure to make recommendations within 35 days of the referral of the application shall be deemed lack of opposition.

3. The SPGA shall hold a public hearing on the application, in conformity with the provisions of M.G.L. Ch. 40A within 65 days after the filing of the application with the SPGA. A written notice of this public hearing will be made by the applicant to all abutters, and proof of notification will be furnished to the SPGA. In addition, this notice will be published in a newspaper of general circulation within the Town not less than 14 days prior to the hearing.

4. After notice and public hearing, and after due consideration of the reports and recommendations of the local boards/departments, the SPGA may grant such a special permit provided that it finds the proposed use:

- a. is in accordance with the provisions of Section 14.6;
- b. is in harmony with the purpose and intent of this Bylaw and will promote the purposes of the Groundwater Protection Districts;
- c. is appropriate to the natural topography, soils and other characteristics of the site to be developed;
- d. will not, during construction or thereafter, have an adverse environmental impact on the aquifer or recharge area (i.e. quality or quantity of groundwater); and
- e. will not adversely affect an existing or potential water resource.

#### 14.6 *Design and Operation Standards*

1. *Safeguards*—Provision shall be made to adequately protect against toxic or hazardous materials discharge or loss through corrosion, accidental damage, spillage or vandalism through such measures as provision for spill control in the vicinity of chemical or fuel delivery points, secure storage areas for toxic and hazardous materials, and indoor storage provisions for corrodible or dissolvable materials.

2. *Disposal*—No disposal of hazardous wastes within Water Resource Protection Districts shall occur. All provisions of M.G.L., Ch. 111, s. 150A (the Landfill Site Assignment Law) and M.G.L., Ch. 21C (the Massachusetts Hazardous Waste Management Act) shall be adequately satisfied.

3. *Fill*—Fill material used in a Water Resource Protection District shall contain no solid waste, toxic or hazardous materials, or hazardous waste. Adequate documentation shall be provided to ensure proper condition of the fill. The SPGA may require soils testing by a certified laboratory at the applicant's expense.

4. *Spill containment*—For industrial and commercial uses, an emergency response plan to prevent contamination of soil or water in the event of accidental spills or the release of toxic or hazardous materials shall be submitted to the SPGA, if deemed necessary, for approval prior to granting of a Special Permit. Recommendations of the Fire Department on said plan shall be sought.

5. *Monitoring*—Periodic monitoring shall be required when the site locations and land use activities indicate a significant risk of contamination to the water resource as determined by the SPGA based upon recommendations of the Department of Public Works, Board of Health, Conservation Commission and/or the SPGA. Such monitoring may include analyses of water or soil for appropriate substances and installation of groundwater monitoring wells constructed and located as specified by the Department of Public Works, Board of Health, the Conservation Commission and the SPGA. All monitoring wells must meet and exceed the proposed or current DEQE design standards for monitoring well installation. All costs will be borne by the owner of the premises.

6. *On-site recharge*—All storm water runoff from impervious surfaces shall be recharged on-site unless in conducting site plan review it is determined that either recharge is infeasible because of site conditions or is undesirable because of uncontrollable risks to water quality from such recharge. Such recharge shall be by surface infiltration through vegetated surfaces unless otherwise approved by the SPGA during site plan review. If dry wells or leaching basins are approved for use, they shall be preceded by oil, grease and sediment traps except for specific exemptions allowed by State statutes. Drainage from loading areas for toxic or hazardous materials shall be separately collected for safe disposal.

#### 14.7 *Enforceability*

Failure to comply with the provisions of the Carver Aquifer Protection Bylaw may constitute grounds for legal action.

Whoever violates any provision of this Bylaw shall be punished by a fine of not more than three hundred dollars (\$300.00). Each day or portion thereof of continuing violation shall constitute a separate offense.

#### 14.8 *District Delineations*

*The Water Supply Protection Districts are as follows:*

All areas shown on the proposed sole source aquifer maps as developed by the Massachusetts Department of Environmental Quality Engineering. Said areas encompass all of the Town of Carver with the exception of the northwestern section of the Town bounded by approximately Fuller Street and Main Street.

or take any other action relative thereto.

(Aquifer Protection By-law Study Committee)

#### **Article 8.**

**Article 9.** To see if the Town will vote to amend its General By-Laws as follows:

ARTICLE XIII—Section 7—(b) add after the word “hour” the words “within 100 yards of any bathing beach or diving raft and 50 yards of any shoreline.”

ARTICLE XIII—Section 7—add after (d) — “(e) At a speed exceeding thirty miles per hour.”

ARTICLE XIII—Section 9. Delete the words “Twenty Dollars (\$20.00)” and insert the words “One Hundred Dollars (\$100.00)” in its place.

or take any other action relative thereto.

#### **Article 9.**

And you are directed to serve this warrant by posting attested copies thereof at the several places designated by vote of the town fourteen days at least before the time of holding said meeting.

Hereof fail not and make due return of this warrant, with your doings thereon at the time and place of meeting aforesaid.

Given under our hands this eighth day of March in the year One Thousand Nine Hundred and Eighty-nine.
