However, permits shall be extended beyond 12 months if the E.R.C. is satisfied with all quarterly reports regarding the project and that the work is carried out under the plans, specifications, and conditions previously approved after public hearing, and does not entail earth removal of a larger quantity or from a larger land area than allowed in the original permit. No project may be extended beyond a five (5) year period without a full hearing of the E.R.C.

This practice must use best management practices as outlined in the Natural Resources Conservation Service Conservation Practice Standard "Land reclamation, Currently Mined Land", Code 544 or the Natural Resources Conservation Service Conservation Practice Standard "Critical Area Planting" Code 342, as determined by the E.R.C.. Notification of this practice must be given to the E.R.C. in a timely manner. This also includes the removal of earth for sale, trade or other considerations, under this section, less than 1,000 cubic yards per year.

Each day or part thereof that such violation occurs or continues shall constitute a separate offense.

9.1.9f. If any earth shall be removed without obtaining earth removal permit or otherwise in violation of this section, the E.R.C. may order the restoration of the property involved in accordance with the provisions of this section. a continued wildlife habitat, a natural aquatic system, and a protective buffer between our wetland resources and human development activities.

- Removal, excavation or dredging of soil, sand, gravel, or aggregate materials of any kind;
- Changing of pre-existing drainage characteristics, flushing characteristics, sedimentation patterns, flow patterns, or flood retention characteristics;
- Drainage or other disturbance of water level or water table;
- Placing of fill, or removal of materials, which would alter elevations;
- Driving of piles, erection or repair of buildings, or structures of any kind;
- Placing of obstructions or objects in water;
